MEMORANDUM FOR THE PRIME MINISTER *for a posting*

I am attaching a draft copy of our telegram concerning the release of a public statement in the United Kingdom on the proposed re-organization of Commonwealth Communications Services, which was discussed at the meeting of the Cabinet War Committee last night. The text of our proposed statement in that connection is that agreed upon in Cabinet War Committee. Because of the pressure from the United Kingdom for an early answer, it would be appreciated if you would have your private secretary telephone any suggestions which you might care to make concerning the wording of this telegram to Mr. Soward of this Department (local 6435).

I am sending similar copies to Messrs. Crerar, St. Laurent, Howe, Ralston, Macdonald, Power, Michaud, Ilsley and Heeney.

N. A. Robertson
