

SATCHEL OF THE SATELLITE

A vote for James Clancy means a vote for purity.

Wanted by the B. Mistake, a few more ways of saying you're a liar.

Kent County is solid for Kent's Own Jim and Honest Government.

I expect those sergeants mess fellows will have their skates on to-night.

Kent wants a Cabinet Minister—and what Kent wants, Kent is going to have.

Irish Jack is shocked at the idea of wasting so much "Scotch" on a Conservative.

I am going to wrest West Kent from the Grits, and I won't rest till I have wrested.

The sergeant's mess has a slippery place to stand in if they want to, but this is no insinuation.

Here's a tip. Don't go and bet that Clancy won't have 500 majority. It's not a safe gamble.

Whiskey vs. oysters. Well, I think the right-thinking men will choose the oysters preferable.

If Mayor Cowan does all the things his inaugural address suggests, I see that Council kept busy.

I don't know whether the people will "Remember Ross" or not, but I know they won't forget Jim Clancy.

A vote for Kent's own Jim will help put the people in power and the election crooks in the penitentiary.

What Liberals consider good reading, the Banner labels as lies. Well, you know which judgment is unbiased.

You're a liar, he's a liar, they're liars: everybody's a liar but us. That's pretty near evidence enough for any intelligent man.

It's just this kind of weather that suits Kent's own Jim. He had it when he first went to Parliament, and he got in by 439 majority.

What did the Banner do with Dr. Thornton's letter? Why can't the Ross organette be fair? When it finds its malicious lies nailed it just crawls.

And still this kind of weather that suits Kent's own Jim. He had it when he first went to Parliament, and he got in by 439 majority.

The organette is running its open declaration in favor of a campaign of slander without policy on the front page. I thought that was the line it was following all along.

No dear gentle reader, the frothing at the mouth characteristic of the B. M. organette is not due to hydrophobia. No self-respecting dog would care to sample that journal.

The organette has declared in favor of a campaign of slander without policy. Treat your own slanders as fast as you like, old boy. They'll help to make votes for Kent's own Jim.

It is as I thought. The pop-gun newsievtch is AFRAID to publish Dr. Thornton's letter. I can't see why. It newsievtch puts it in the columns he's providing against anyone reading it.

So the pop-gun newsievtch is going to champion a campaign of slander without policy. It had to be in opposition, or else I have always followed the other alternative, a policy without slander.

I'm considering the advisability of firing the pop-gun newsievtch to send out two broadsides of squibs daily instead of one. Then Kent's own Jim will get 1,000 majority, instead of the 500 we now contemplate.

It is over a week since the "Hon." G. F. Graham said that North Kent had been without representation during the session of the legislature and the B. Mistake hasn't yet discovered an excuse for the deliberate lie.

"Are you in favor of a campaign of slander without policy, or a policy without slander?" shrieks the pop-gun newsievtch; and then proceeds to emphasize its own distinct preference for a campaign of slander without policy.

The pop-gun editorial organette is squirming in every way to avoid the issues of the campaign. It has nothing to say about the Ross-Stratton-Sullivan corruptionists. The reason is apparent: it is in the hands of the B. Mistake, and it has no right to say in their favor.

There's neither sense, nor nonsense, nor wisdom in that Banner Q. T. column," remarked a staunch Liberal. "What do they print it for?" And once again when the B. Mistake attempted to link this G. H. J. they got it where the honest man's nose is always carefully adjusted.

As people over the river are getting a little jealous of the west end. They think they've got a pinch on the majority down there in Horne's Advice Corner. W. B. McKeough had the job two years, now G. W. Cowan has it, and W. S. Marshall comes next. W. H. Westman

and Chas. Austin are prospective mayors. This is too much west end.

"Why doesn't the Banner print some news?" I heard a good Liberal ask a representative of that paper. "The Planet is always full of good reading matter."

"The Planet has nothing but lies in it," basely did the Banner man, as always, label this G. H. J.

"Well, why don't you print lies or anything? Only for heaven's sake something in your paper," was the retort.

This is not published through egotism, but only to show that there are other sturdy Dick Paxtons in the Liberal ranks.

TOO LONG A SENTENCE.
"Banner for McCoig" remarks the pop-gun newsievtch. Banner, you know, means ten thousand years, and while the members of the Stratton-Ross-Sullivan-Vance-Graham gang may desire that much as a friend of Archie I really must protest against giving him so heavy a sentence. It is carrying the stabbing process too far.

NO DOUBT ABOUT
B. B. T. BOND'S CASE

He was Cured of Bright's Disease by Dodd's Kidney Pills.

Doctors said there was no hope for him but he is a Well Man Now.

Mount Brydges, Ont. Jan. 9.—(Special).—That Dodd's Kidney Pills cure Bright's Disease completely and permanently has been clearly shown in the case of Mr. Robert Bond, a well-known resident of this place.

Bond was his life to Dodd's Kidney Pills. "My attending physician," Mr. Bond states, "said I was in the last stages of Bright's Disease and that there was no hope for me. I then commenced to use Dodd's Kidney Pills and no other remedy. I used in all about twenty boxes when my doctor pronounced me quite well. I have had no return of the trouble since."

Bright's Disease is Kidney Disease in its worst form. Dodd's Kidney Pills always cure it. They also easily cure milder forms of Kidney Complaint.

Common sense is the knack of seeing things as they are, and doing things as they ought to be done.

JAPS' SECRET SERVICE

Definitely Announces Return Home of Baltic Fleet.

Rejoice, Russia. Admiral Fears Conflict With Admiral Togo's Battleships—Must Be Through Sea Canal By Jan. 20 Or His Return Will Be Out Off-Japs Expect to Greatly Increase Naval Strength.

Tokio, Jan. 10.—The secret service department of the Japanese navy has definitely informed the Government that Russia's Baltic fleet is on its way back to Europe.

This information, posted last night in the Imperial navy board, explains the prolonged stay here of Admiral Togo and Vice-Admiral Kaminura.

The beginning Japan has been accurately informed with regard to both divisions of the Baltic fleet, and is now able to announce that the warships are returning.

They will go through the Suez Canal in three divisions, the first by Admiral Butovsky and the second by Oleg. He has with him three cruisers, two colliers and a small torpedo boat flotilla.

There was some hope here that the Baltic squadron would sail as far as the South China Sea, in which event its return would have been doubtful.

Admiral Rojstevsky's division of warships was south of Diego Suarez Bay Sunday, the Imperial board was informed, but it would be dangerous for him to remain on the northeast coast of Madagascar for any length of time.

His return through the canal could be cut off by the Japanese, but it is expected here that he will sail not later than Wednesday for Port Said.

The belief now is that the warships will set out in March, reinforced by the new ships of the Baltic squadron. They could not arrive in the Sea of Japan before June.

That period Japan will have three new armored cruisers built at home, and undoubtedly, some of the battleships in Port Arthur harbor.

These new vessels can be raised is regarded now as most likely. The Government's opinion is best expressed by the departure for Port Arthur yesterday of Vice-Admiral Shibayama, chief of the Kure navy yard, who has designed the construction of all cruisers built in Japan in the last five years.

It is clear that the Government hopes to add the Poltava, Pobieda, Peresviet and Retvizan to its war fleet.

STOESSSEL AMAZED.
Had Been Promised Relief and Could Not Credit News of Kurapatkin's Defeat and Heavy Loss.

Headquarters Third Japanese Army at Port Arthur, Jan. 7, via Tientsin, Jan. 10.—Capt. Tsunoda, the Japanese staff officer who was sent to Port Arthur to inform Gen. Stoessel of the contents of the message of the Emperor of Japan, saying that the garrison should be treated with the greatest consideration, says:

"Gen. Stoessel's first impression was about the whereabouts of Gen. Kurapatkin. I did not know exactly, but understood he was somewhere about Mukden. Gen. Stoessel remarked that he had last heard from General Kurapatkin Oct. 6, saying he would relieve Port Arthur soon."

General Stoessel added that he had sent out spies who returned and reported that General Kurapatkin, with a relieving army, was at Kichino, twenty miles north of Port Arthur.

Did's Believe the Story.
"Gen. Stoessel was plainly incredulous at my statement that Gen. Kurapatkin had been defeated and driven back towards Mukden, so I produced maps, showing the position of the armies near the Shakhe River, and gave Stoessel details of Kurapatkin's defeat with the loss of 50,000 to 60,000 men, at which the Russian general expressed amazement and quickly remarked that he had been misled."

"Gen. Stoessel then asked where the Baltic fleet was, and I told him that some of the ships had not passed the Cape of Good Hope."

"With a hopeless expression look, Gen. Stoessel said: 'Now that Port Arthur has fallen, there is no use for the fleet coming any further.'"

"I then asked Gen. Stoessel what had caused the most damage to the garrison during the siege, and he replied: 'Your cavalry and Howitzers. After they arrived our defensive works became useless.'"

Knew Japs Fighting Power.
"Gen. Stoessel then pointed out that he and Admiral Alexieff had been through the Boxer trouble and had seen the work of the Japanese army. Gen. Stoessel also said he had been associated with the Japanese generals, Yamaguchi and Fukushima, at that time and expressed the opinion that the Russians and the Japanese were a bad match."

"The real cause of the war was, in Gen. Stoessel's opinion, the ignorance of the Russian people of the fighting qualities of the Japanese."

The first attack on Port Arthur in February by the Japanese fleet was a tremendous surprise. The forts, he explained, were only partly garrisoned by 2,000 troops.

Always Opposed It.
"At this point Gen. Stoessel said he always opposed the scheme of Governor Sakharov of Port Dalny, in spending money in building up Port Dalny instead of finishing the defense of Port Arthur."

Sakharov, who was an engineer officer, died of dysentery during the siege.

"Continuing, Gen. Stoessel praised the ingenuity, pluck and patience of the Japanese infantry."

"Referring to the artillery, General Stoessel said that at first he did not think the artillery practice good, but he was soon compelled to recognize how good it was. Gen. Stoessel

said that he had served his Emperor in many wars. Now he felt he had earned the right to return to Russia to live in his old age with his family. The general adds that he was taking home with him five children of officers who had been killed during the siege.

Wounded With Old Nogi.
"After his conference with General Nogi, Gen. Stoessel expressed gratification at meeting so pleasant a gentleman. He had not expected the considerate treatment accorded to him. General Nogi appeared to Gen. Stoessel as an old friend, rather than as the commander of an army which had forced him to surrender."

GOING NORTH.
Large Part of Gen. Nogi's Army Has Gone to Liaoyang.

London, Jan. 10.—The Daily Telegraph's correspondent at the Foochow has received notice that there was a disastrous mine explosion at Port Arthur.

The same correspondent asserts that a large portion of Gen. Nogi's army has been already hurried north to Liaoyang.

A despatch from Port Louis, to The Daily Mail, says: "Nothing has been seen or heard of the Russian second Pacific squadron. It is supposed it is sheltering either in some harbor off Madagascar or off Comoro Islands."

These are mysterious rumors here of the approach of Japanese cruisers and of the receipt of strange wireless messages."

News By Kites.
Huanan, Jan. 9, via Mukden, Jan. 10.—The news of the fall of Port Arthur which were first received unofficially from the Japanese, let loose numerous paper kites bearing letters and triumphal inscriptions.

The kites were picked up by Russian soldiers, who received the announcement doggedly, regret being expressed that the troops had been unable to relieve the garrison.

A few minutes later the Russian artillery is steadily pounding the eastern of the Japanese line west of Sinchinpu and about Baifoshan and Sintunglin.

The Japanese are using balloons and searchlights in efforts to locate Russian positions, which have been causing great annoyance.

The past two days the Japanese have made two unsuccessful attempts to break through the Russian advance lines at Port Arthur.

Gen. Stakelberg, who has been ill, has returned to the front.

A Pathetic Spectacle.
Headquarters of the Third Japanese Army at Port Arthur, Jan. 10, via Kinkow and Tientsin, Jan. 10.—Five thousand men of the Russian garrison at Port Arthur to-day were marched from Yahutsui to Chang Ling Tzu, and the other detachments followed soon after. Each detachment was accompanied by six loaded transport carts. The Russians during the night will be taken on special trains or open trucks to Dalny, and they will immediately embark for Japan.

The procession of remnants of the gallant Russian garrison was a pathetic spectacle. The first arrivals at Changlingtzu were four droskies, drawn by sorry looking horses.

They were followed by the cab of his engine in the yards of the Angus shop. It is said that Abraham became alarmed on seeing the headlights of an engine approaching on the track next to the one which his engine was on. Thinking the engine was on the same track, he feared a collision and jumped from the cab.

In jumping his head struck one of the station semaphores, fracturing his skull.

This Man May Die.
Toronto, Jan. 10.—W. Weesey, a plumber in the employ of Keith & Fitzsimmons, sustained what may prove to be fatal injuries from a fall while working on the roof of the Hendrie stables yesterday afternoon.

Weesey, along with some others, was working on the roof, when losing his footing he slid down the incline, crashed through some scaffolding and plunged to the ground, some 40 feet below. He was taken to the Emergency Hospital, where it was found that he had injured his skull.

He lapsed into unconsciousness, and has remained so ever since. His case is critical.

Alps Clamber Victims.
Geneva, Jan. 10.—The death toll in the Alps during the recent blizzard reaches a total of 24. Fifteen others narrowly escaped death. The dogs at the Hospice St. Bernard recovered three more bodies from the snow yesterday. Two more Trappist monks died last night of cold in the mountain monastery near Breecia, making a total of four. Thirty guides and villagers recovered six bodies of Italian smugglers Sunday, from the summit of the Col. Valsaray and transported them to Bourg, where they were buried yesterday.

Rescued in Mid-Ocean.
New York, Jan. 10.—After a rescue in mid-ocean and narrow escape from death, Capt. William Nelson, his wife and five members of the two-masted schooner W. R. Chester, arrived last night as passengers on the Atlantic Transport Line steamship Simsbury.

The schooner was abandoned in latitude 39.30, longitude 59.30, the crew being taken aboard by the steamship Anglo-Chilian, which landed them at Havre. The rudder was broken.

500 Try to Break Jail.
San Francisco, Cal., Jan. 10.—News from Manila received yesterday tells of an attempt of about 500 convicts at Bilibid Prison to break jail on Dec. 7. Sixteen prisoners were killed and forty wounded. Six of the wounded were expected to live and twenty-six others are in a critical condition.

HALF MILE WEST OF LYN

Coach Plunged Over Embankment and Rolled to Bottom.

Fifteen Passengers On the Brockville, West Point and Northern Railway Were Jumbled About Like Pigs in a Pen, But None Were Seriously Hurt—Conductor Horton, With Blood Streaming Down His Face, Plunged Into Pool.

Brockville, Jan. 10.—The worst accident in the history of the Brockville, West Point and Northern Railway occurred about 5 o'clock last evening at a point half a mile west of Lyn, and was caused by the spreading of the rails while a mixed train was running about twenty miles an hour en route to Brockville. The train was made up principally of freight cars, with a combination passenger and baggage car at the rear, said to contain about fifteen passengers, mostly women and children.

Suddenly the passengers were startled by the wheels of the coach bumping along the ties, indicating that it had left the track. Efforts were made to signal the engineer, but all to no avail, and finally the coach plunged over the embankment and rolled to the bottom, a distance of several feet. The passengers were thrown promiscuously from their seats and while not one escaped from a cut or a bruise, strange to relate, none sustained serious injuries.

They managed to extricate themselves from the coach in the darkness, the lamps having been extinguished. Conductor Horton was severely cut about the head, but pluckily stuck to his post, directing operations with blood streaming down his face. He would not leave the scene until all others had been saved.

Among those severely cut or bruised were: J. C. Ross of Athens, Miss Lashley of Chaffey's Locks, a little daughter of A. E. Shaver of Brockville, and Harry Johnson of Delta.

The passengers were conveyed to Lyn in sleighs and subsequently brought to Brockville by special train.

Fell Three Storeys to Death.
Toronto, Jan. 10.—A three-storey plunge down a elevator shaft at the warehouse of T. Kinner & Co. yesterday afternoon resulted in the death of George Stacey of 752 Broadview avenue. How the unfortunate young man happened to fall will never be known, but it is thought he did not get a stable footing when he stepped on to the floor. He plunged backward down the shaft to the basement, alighting on his head and shoulders. He was picked up and hurried to the Emergency, but expired in a few minutes, without regaining consciousness. Stacey was married but a short time ago, and leaves a widow. He was about 30 years of age.

Fireman Jumps to Death.
Montreal, Jan. 10.—Arthur Abraham, 20 years of age, of Three Rivers, a fireman on the Canadian Pacific Railway, was killed Saturday night by jumping from the cab of his engine in the yards of the Angus shop. It is said that Abraham became alarmed on seeing the headlights of an engine approaching on the track next to the one which his engine was on. Thinking the engine was on the same track, he feared a collision and jumped from the cab.

LETTER BOX

A LETTER TO MR. McCOIG.
Mr. Ward Stanworth has handed The Planet the following communication, which he sent yesterday to the Banner-News by whom it was refused publication:—

Jan. 9th, 1905.
A. B. McCoig, Esq., Chatham, Ont.:
Dear Sir,—I have made the statement that I believed you had received a letter from the Hon. G. W. Ross asking you to be the Reform candidate in West Kent and understanding that you should not be mulcted for expenses.

At your meeting at Quinn I asked you if you had not received a letter from the Hon. G. W. Ross, you emphatically declared that no letter of any nature had ever been received by you.

On Saturday I wrote the following letter to Harry Anderson:—

Jan. 7th, 1905.
Mr. Harry Anderson, Chatham, Ont.:
Dear Sir,—At the meeting held at Quinn, Friday night, Mr. McCoig denied in the most emphatic terms that any letter had ever passed between himself and Mr. Ross, in which Mr. Ross had promised Mr. McCoig that he should not be mulcted for one dollar in expenses. What have you to say as to the matter?

Yours truly,
Ward Stanworth.

This morning I received the following letter:—

Jan. 7th, 1905.
Ward Stanworth, Esq.:
Dear Sir,—I never authorized any such statement, nor was it made with my consent. Further than that I can say nothing unless Mr. McCoig gives me consent.

Sincerely,
Harry W. Anderson.

When I made the statement I felt warranted in doing so, and I am still of the same opinion. In view of Mr. Anderson's letter it now only remains for you to give him your consent to disclose the information, if any, in his possession, after your emphatic denial the other night. I am sure you will not hesitate a moment in doing so.

I am giving a copy of this letter to the News for publication.

Yours truly,
WARD STANWORTH.

Conductor—Did I get your fare?
Passenger—I think you did, I didn't hear you ring it up.
