DELIGHTFUL MUSICAL. No higher tribute could have bee tendered to the genius and succes of Mrs. John Cooper and Miss Lillian Pratt than proved the exquisite complementary musicale given by their vocal and piano pupils in the Auditorium of the I. O. O. F. Temple last evening. Long before the hour of commencement the hall was crowded to overflow with a caltured and delighted audience, realizing that any artistic musical function prepared by these accomplished

ladies was perforce par excellence,

The program was all that en-thusiastic anticipation had proclaimed it, It was presented in its en tirety by the pupils of the two ladies, the assisting artistes being three of their talented graduates, Mrs. Milton Begart, contralto; Miss Gertrude Somerville, soprano, and Miss Flossie Bogart, who possesses few peers as an accompaniste, Twenty-two numbers in all were contributed and not one failed to please. In both your and instrumental the young ladies acquitted themselves admirably and every number was thoroughly enjoyed. The pupils of Mrs. Cooper and Miss Pratt invariably do credit to themselves and their classes, These two ladies have, perhaps, done more than all others to develop musical culture and accomplishment in the Maple City, and they have surrounded themselves with a galaxy of young pupils, any of whom will prove distinct acquisitions to our concert

programs. Of the individual numbers it would here be impossible to speak with justice. Suffice it that each was worthy of the others. The concluding number, an unaccompanied quartette by M'ss McGeorge, Mrs. Cooper, Miss Schwemler and Mrs. Bogart was one of the finest readitions ever heard, in this city and elicited a pronounced and enthusiastic victation of the rule which had prohibited en-

Two especially pleasing features of the evening were the presentation of magnificent boquets to Mrs. Cooper and Miss Pratt from their pupils. At the conclusion of the musicale the ladies entertained to an informal and delightful dance, which was much enjoyed. Lorriman's orchestra turnished excellent music. Origin of the Banjo. In the early part of the nineteenth century in the town of Banjoemas, on the island of Java, a negro native dotermined to construct a musical instrament for his own use. Taking a cheess box and heading it with a goatskin, he ran a handle through it, and, adapting violin strings tuned to the first, third, fifth and eighth notes of an octave, he christened it a banjo, from the first two syllables of his native town. Gradual improvements on this rough and ready instrument were made, and about the middle of the century it crossed the Atlantic and, though unpopular in London Chronicle. In the early part of the nineteenth

Hogg left Eton in 1863, about which time he met Ruskin for a memorable moment. He had run into a room where his sister was painting under Ruskin's eye. He did not notice Ruskin, but went to his sister and made some laughing remark to her. "You had better laugh while you can," said Ruskin, "for every year you live you will become more and more miserable,"—From "Life of Quintip Hogg." -From "Life of Quintin Hogg."

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and jurifier in nature, but lew realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and thowels; it disinfects the mouth and throat from the poison of catarrh. throat from the roison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the must for the money is in Stuart's Charcoal Lozenges; they are composed of the finest rowdered Willow charcoal, and other harmless antisenties in tablet form

The Lewer Animals. Asimals have keen perceptions --keener in many respects than our own -but they form no conceptions, have no powers of comparing one thing with another. They live entirely in and through their senses. To all that inne world of reflection, imagination, comparison, reason, they are strangers. They never return upon themselves in thought. They have sense memory, sense intelligence, and they profit in many ways by experience, but they have not soul memory or rational intel-ligence. All the fundamental emotions and appetites men and the lower animais share in common, such as fear, anger, love, hunger, jealousy, cunning, pride, curiosity, play, but the world of thought and thought experience and the emotions that go with it belong to man alone. It is as if the psychic v were divided into two planes, one above the other, the plane of sense and the plane of spirit. In the plane of sense live the lower animals, only nov and then just breaking for a mement into the higher plane. In the world of sense man is immersed also. This is his start and foundation, but he rise

ALCOHOLISM Used in Connection with the

Province of Quebec Probation System with Unvarying Success

The City Council of Montreal has endorsed this marvellons discovery. The Finance Committee of Montreal recently voted \$560 to defray the expense of placing the medicine in each of the city police stations, as prompt application of the Treatment to bad bases will prevent the fatalities continually occurring in the cells.

No Sanitavium is required. The Treatment can be taken at home. No special diet required. The desire to reform is simply necessary and spirits avoided for a few days.

This medicine is now within the reach of all, the price having been reduced. The wonderful results obtained with the worst class of drunkards coming before the Judges of the Recorders' Courts in Quobec and Montreal warrants the statement that the disease of Drunkenness can be curedereddly and surely—under ordinary circumstances and with the reasonable desire upon the part of an inebriate.

This treatment is simply the medicine of the medical profession—the only secret is as to fits administration.

Dr. Maskay's discovery is the result of 25 years of practice as a specialist and expert. He is a member of the College of Physicians and Surgeons of the Province of Quebec,

The Government of Quebec through the Judges ordered over 500 bxes of the medicine for prisoners appearing in the Courts in 1904—Official Reports establish 80 per cent, of cures with these cases.

With public and official endorsation and the recore of results published it is unnecessary to waste money experimenting further. All communications private.
