FIG.	PAGE
170, 171. Scoop for Reposition of Head of Femur in Open Operation for Congenital Dislocation of the Hip	306
172. Sprengel's Incision for Osteotomy of the Pelvis	307
173. Result after Excision of Hip and Innominate Bone for a Tumour of the Pelvis	308
174. Excision of the Phalanges and First Metacarpal Bone	311
175. Excision of the Phalanges and Metacarpal Bones. (Coronal Section of the Wrist, after Henle)	311
176. Incision for Arthrotony of the Elbow and Wrist	314
177, 178. Arthrotony of the Elbow	315, 316
179. Excision of Elbow, showing Method of obtaining Rounded Ends of the Bones	317
180, 181. Excision of the Head of the Humerus by the Anterior Oblique Incision	320, 321
182-185. Arthrotony of the Shoulder by Posterior Curved Incision	322-325
186. Result after Excision of Shoulder for Tubercular Disease	326
187. Excision of the Scapula	328
188-192. Schemes showing the Evolution of the Different Methods of Amputation	330, 331
193. Position of the Line of Suture by the Transverse Circular Incision	332
194. Position of the Line of Suture by the Oblique Incision	332
195, 196. Method of performing the Transverse Circular Incision	333
197-199. Method of performing the Oblique Incision	333
200. The Lynn-Thomas Forceps	334
201-206. Skiagrams of Stumps after Amputation	336-340
207. Disarticulation of the Great Toe at the Metatarso-phalangeal Joint, and of the 2nd Toe along with its Metacarpal Bone; Amputation through the 3rd Toe, and through the 5th Metatarsal Bone	342
208. Disarticulation of all the Toes at the Metatarso-phalangeal Joints	342
209. Disarticulation at the Tarso-metatarsal Joints	342
210. Lisfranc's Amputation (Dorsal View)	343
211. Lisfranc's Amputation (Plantar View)	343
212. Anterior Intertarsal Amputation (Jäger). Horizontal Section of Foot (after Heitzmann).	344
214. Posterior Intertarsal Disarticulation	345
215. Subastragaloid Disarticulation (Malgaigne, Textor)	346
216. Disarticulation at the Ankle-joint (Syme's Amputation modified)	347
217. Gnyon's Wave-cut for Disarticulation at the Ankle	347
218. Coronal Section through Ankle-joint (Henle)	347
219, 220. Disarticulation at the Ankle-joint by an Internal Flap	348, 349
221. Osteoplastic Disarticulation of the Foot (Pirogoff)	350
222. Amputation through the Malleoli	351
223. Amputations through the Leg	351
224-226. Osteoplastic Amputations of the Leg	352-354
227. Transverse Section through the Leg above its Middle	355
228. Disarticulation at the Knee-joint	356
229. Section through the Knee-joint at the Level of the Condyles of the Femur	357
230, 231. Amputations through the Thigh	358
232. Transverse Section through the Thigh	358
233. Amputation of Thigh through the Condyles (Carlen)	359
234. Osteoplastic Amputation through the Condyles of the Femur (Sabanejeff)	360
235. Osteoplastic Supracondyloid Amputation (Gritti)	361
236. Osteoplastic Supracondyloid Amputation (Gritti) by an Oval Incision	362
237. Disarticulation at the Hip, the disease affecting the Soft Parts in Front	364
238. Coronal Section of the Hip and Knee-joints (after Henle)	366
239. Disarticulation at the Hip-joint	366
240, 241. Lines of Section of Pelvis in Koch and Freeman's Cases of Amputation of Pelvis	369
242. Interilio-abdominal Disarticulation	370
243. Longitudinal Section through the Flexor Finger	372
244. Disarticulation of Fingers	372
245. Disarticulation of Middle Finger, Hand at Wrist-joint, and Amputation through Forearm	373
