With the Modern Farm Horse

The Hart-Parr Gas Tractor

A Reliable and Dependable Substitute for Horseflesh

With a big tract of land to be cultivated and with only horses to do the work, the problem of getting the most done in the shortest possible time is a serious one. Then, too, there is the question of reliable farm labor, always hard to get and always expensive.

Wouldn't a farm tractor that will do the work of FIVE MEN AND TWENTY-TWO HORSES, INTEREST you, when all that is required to operate it is one man and a supply of gasoline or kerosene?

The above is a sample of what the **Hart-Parr Gas Tractor** will do. Its success on hundreds of Farms has demonstrated that it is more than a substitute for the horse.

We would like very much to tell you about our Engine, for we are confident that we can put you in the way of doubling the output of your Farm in 1910 and at the same time decrease your operating expenses.

Would that mean anything to you as a Farmer? If so, write us and we will cheerfully tell you what this "**Modern Farm Horse**" can do for you and your Farm.

Results are what count—read the following

Nanton, Alberta, November 15th, 1909.

We, the undersigned, certify that the following work, most of which was done for us by Messrs. Bowser & Patterson, with a 22 H.P. Hart-Parr gasoline traction engine, from April 9th to October 28th. The work was done to our satisfaction.

957 1/4 acres breaking in 47 days, at \$3.00 per acre,	\$2872 50
Having pulled packer behind plows on 536 acres of above breaking at 50c. per acre,	268 00
408 acres stubble plowing in 17 days, at \$2.50 per acre,	1020 00
541 acres double discing and harrowing, at \$1.25 an acre,	676 25
77 241 bushels of grain threshed in 25 1/4 days	4223 40
Two buildings moved at 5.00 each,	10 00
Total,	\$9072 65

Greatest number of acres plowed in one day,	34 1/2
Greatest number of acres broken in one week,	147
Greatest number of miles travelled in one day,	38
Greatest number of bushel oats threshed in one day,	5118

Plowing was done with a six bottom 16-inch Emerson Engine gang. The Threshing was done with a 36 x 56 Aultman Taylor Separator.

Name	Address	Occupation
J. R. Eckert.	Nanton.	Agent for S. Development Co.
A. H. Maryland.	Nanton.	Farmer.
Oscar Lind.	Nanton.	Farmer.
L. Rue.	Nanton.	Farmer.
H. A. Brown.	Nanton.	Farmer.

We have not had the least bit of trouble with our Hart-Parr, and it has been working every day the weather would permit, pulling seven 14-inch Cockshutt Plows with perfect ease, lots of the land being heavy gumbo and every plow cutting from fifteen and a half to fifteen and three quarter inches at a depth of three and a half to four inches. Some days we broke over 25 acres. The Hart-Parr will never need a gold medal to sell it. Wishing you success, we remain,

Yours very truly, SWERDFEGAR BROS.

W. Gordon Smith of Eyebrow, Sask., broke 1,200 acres, disced 1,200 acres. Net profits, \$1,350.00.
