

began under a very light supply. As high as \$8.50 a cwt. of car was paid in Toronto during the week and on Thursday the market was quoted at \$8.25 and watered, and \$8 a cwt. f.o.b. at country points. At year ago hogs were at \$7.15 off cars. The considerably short of last year at this time. At Buffalo heavy hogs are quoted at \$8.55 to \$8.65; mixed at \$8.40 to \$8.45; Yorkers at \$8.20 to \$8.40; and light hogs at \$8.10 to \$8.30 a cwt. Danish killings continue at about \$5.00 weekly. The English market is higher. The Trade Bulletin's London cable July 22 quotes as follows: "Prices have advanced 3 since the last cable. Canadian bacon is quoted at 48 to 72."

PETERBORO HOG MARKET

Peterboro, Monday, July 19.—The market is very weak. The deliveries still are light and it is only this fact that is holding the market up. As soon as deliveries get bright, the George Matthews Co. quote heavier prices will take a drop. Prospects just now for this reason are not very bright. The George Matthews Co. quote the following prices: f.o.b. country points, 88 a cwt.; weighed off cars, \$8.50; delivered at abattoir off farmers' wagons, 88.

GOSSIP

The educational features in connection with the dairy department of the Canadian National Exhibition promise to be of unusual interest to this city, not only to farmers, but to consumers of milk in cities and towns as well. The demonstration work and lectures of the Dairy Amphitheatre will be under the immediate charge of Mr. George A. Putnam, director of dairy instruction for the province, and the Dominion Department will also furnish a man to give some definite instructions along the co-testing lines.

The proper care and handling of milk will be one of the subjects dealt with, and it will be accompanied by demonstrations of milk testing as well as charts showing the value of co-testing associations. Dr. Roberts, of Waukegan, Wis., U.S., an expert on diseases of live stock, and especially tuberculosis, will also probably give a paper or one or more lectures on the latter subject.

GET READY FOR HARVEST

Harvest time is fast approaching. It has come out you not a little more ready to plow and put the soil in condition and to drill in the grain, and you are looking forward with considerable anxiety to the time when you will reap your reward. You must be ready to harvest it quickly. There must be no delay. It may be necessary to cut and shock (if in a very few days in order that you may save it all. It is not a matter of willingness to proper machines to harvest your grain quickly and economically—a matter of saving it all so you will reap the whole reward to which you are entitled. You are not concerned as to what name is printed in your harvester or mower. But you are greatly concerned about the machine. You want your machine to be right working. You want it to be sure. You will have no time to stop and make repairs when the harvest is on. You will not tolerate waste.

What harvesting machine shall you buy? You should decide this matter without bias or prejudice. Decide it simply and solely in your own interest. What binder or mowing machine will be surest to serve your own interests best? The International Harvester Company of America offers to farmers in the Desiring and McCormick harvesters machines that are standard. There can be no question but that they represent the highest type of harvesting machinery. Their efficiency is attested by farmers everywhere. As a farmer you want dependability. They cannot make a mistake in buying a Desiring or McCormick binder. They are represented by different local agents in all countries. Any machine can be had by calling on the local agent of that machine or by writing direct to the nearest branch house or to the International Harvester Company of America at Chicago.

MORE HOLSTEIN-FRIESIANS ACCEPTED IN THE RECORD OF PERFORMANCE

G. W. CLEMONS, Secretary.

AYRSHIRE NEWS

Farm and Dairy is the official organ of The Canadian Ayrshire Breeders' Association, all of whose members are readers of the paper. Members of the Association are invited to send items of interest to Ayrshire breeders for publication in the columns.

LAKESIDE STOCK FARM

About a mile from Ravensdale Farm, overlooking Mississauga Bay at Phillipsburg, Que., is the Lakeside Stock Farm, owned by George H. Montgomery. Here may be seen a pair of fine quality Clydesdale mares, a splendid herd of Ayrshire and their grades to the number of over 30, as well as a choice lot of Yorkshire sows. While much of the 300 acres in this farm is under bush, yet there is a large area under cultivation. As at Ravensdale, large areas of corn are grown for silage. Winter dairying has been practised for several years, the product being cream, which is shipped to Montreal daily from St. Armand Station, about two miles distant, on the line of the Central Vermont Railway. This accounts for the splendid class of young stock reared on this farm—the skin milk being the chief article of diet for the young stock.

The Clydesdale mare, Mrs. Watson (imp.) 14478, by Caribrier, and Lady McConnell (imp.) by Argosy, are a strong heavy pair with grand quality feet and legs.

We commend the enterprise of these men in bringing into this section such efforts will be appreciated by their fellow farmers so that the class of horses now being reared will be supplanted by this superior and more profitable breed.

The registered Ayrshire number about 35 head. The stock bull used on this herd for the past four years was Jock of Maple Hill 18660, by Jock of Maple Hill 18704. He has proved a grand stock get-ter, judged by the number of choice superior and more profitable calves that will be taken by an imported bull in a few some grand dairy cows that have produced their good qualities in their progeny. Cherry of Boghill 9961 (imp.) by Victor of Boghill, Gleana Sully 11454, by Commander of Graff (imp.) 9181, Rose of Gleana Sully 1674, by Black Prince of White Hall 12300, Garbrough Enchantress (imp.) 16761, are all worthy of note. Among the cows just coming to their prime are the four year old Woodroffe Nymph 22510 and Woodroffe Clarissa 2nd 23071, both by Topsman of

MISCELLANEOUS

Cherry Bank Stock Farm AYRSHIRES

High-Class Producers

The richly bred bull, 18 months of age, Cherry Bank Superior 26069, for sale. Bire Barcheak King's Own (imp.) 26726, Dam, Pansy 5th, of Carleton (imp.) 23431.

P. D. MCARTHUR, North Georgetown, Railway Station, Howick, Que.

Woodroffe 1791, and Woodroffe Dairymaid 3rd, 21449, by Beaulieu 16774. The three year old heifer Woodroffe Jemima 21819, by King of Beaulieu 17918 is a choice one, as is several of her mates. The heifers sired by Jock of Maple Hill 18660, who has 20 of Lakeville 22662, Pearl of Lakeville 22684, and Lily of Lakeville 22685, are all of the right stamp and are built for production. The bull calves of last fall are uniform in size and conformation. These will make strong vigorous bodies. They are fit to head almost any herd.

Among the Yorkshires worthy of note is the bred cow Belle of Carleton 1310, a litter brother of sow Belvoir Miss Holingsworth 10th 14444, which denotes choice breeding. He is evenly built with great depth of rib and length of body, just the kind that is needed in the community to produce the lean bacon type of swine that is so much needed in that part of the province of Quebec. The sow Mary Queen 14943, and her mate, are of the Right stamp to breed to such a sire as Belvoir Cartier. We trust breeders in need of stock to improve their herds will find the stock for themselves. W. F. E.

HOLSTEINS

BERTRAM HOSKIN

Mount Pleasant Farm, The Gully, Ont. Breeder of Holstein Cattle, Tamworth Swine. High-Class young stock for sale. Long Distance Phone 0-10-26-09
