

HAPPENINGS IN THE WORLD OF SPORT

Maurice McLaughlin's Defeat at Hands of Norris Williams Biggest Surprise of Season.

ROYALS FOUGHT HARD

Greys Won Their Second Game Only in 9th With Home Run After Two Were Down—Football and the War.

It was a foregone conclusion that Maurice McLaughlin would win the single championship of the United States, the other finalist, Norris Williams, being accorded an outside chance to win one set in five.

The story comes from Ottawa that Paisley will not play for McGill this year. "Pop" was elected captain of the team last fall and Ottawa rumors to the contrary will likely be seen on the line up unless physical injury is to turn out.

Father Stanton will again coach the Ottawa Football team which is an amalgamation of the City and College squads.

The Greys won again yesterday, but the Royals gave them a run for their 1 to 0 victory. A homer by Powell in the 9th with two down did the trick.

There was only one game in the National League yesterday, the Cubs winning this, making the race a tighter one than ever.

London, September 2.—The War Office has informed the Football Association that it is agreeable to a continuance of the football season.

WILL NOT COVER WAR SERVICE IN ACCIDENT POLICIES

Travellers Insurance Company of Hartford Announces That They Will Not Issue Any Such New Policies.

(Special to The Journal of Commerce.) Hartford, Conn., September 2.—The Travellers Insurance Company of this city, according to the Vice-President, Mr. Lewis F. Butler, has announced that the company will not issue new accident insurance policies to cover the war service in Europe.

NEWS OF WORLD TOLD IN BRIEF

"C" Squadron of King's Royal Horse Probably Most Erudite of the British Army.

BURNED BALLOTS TWICE

Laval Students Unable to Accept Offer of Scholarships at Sandhurst on Account of Government.

Communications which have reached Ottawa from London state that C Squadron of the King's Royal Horse, which has just been recruited, is composed entirely of Rhodes Scholars from the colonies who are attending Oxford University.

Several thousand persons assembled yesterday to watch the chimney of the Sistine Chapel.

It is not likely that the offer of the British Government to give training to five members of the Laval University Officers' Training Corps at Sandhurst will be accepted unless some wealthy citizen comes to the rescue.

Since Feb. 1, 1911, not a passenger has been killed on New York Central Railroad in a train accident.

Prof. Carter, of Harvard, agricultural expert of the United States department of agriculture, says agriculture in the United States will not profit by the European war and that production abroad will not be greatly decreased.

London American says: "The flood of orders from South America has set in. First big order of one of the South American railroads is for 100 miles of 80-pound standard rails received by United States Steel Corporation."

England can pour into France from India 238,000 trained men, of which 75,000 are British troops, including some of the crack regiments of the royal army, and the 160,000 remaining are the fighting native troops of the Indian army.

S. S. Eyeland, formerly manager of Standard Roller Bearing Co., of Philadelphia, which went into the hands of receiver October 22, 1913, is to undertake reorganization of company.

General Carranza has canceled all the concessions made by General Huerta, while the latter was President of Mexico.

The estate of Charles Kohler, who after making a fortune in the piano business, became an enthusiastic horse breeder, amounts to \$1,751,111, not including the value of his Ramapo farm or the money received from the sale of his horses in England and France.

Charles M. Pepper, former foreign trade adviser to the department of state at Washington, says future trade relations of United States with South America depend in large degree on whether this country can loan South America \$500,000,000 during next five years and \$100,000,000 during next twelve months.

Paris cable says: Business being done on the Bourse is nil. Liquidation of open accounts has been postponed until Sept. 30, but question of postponing again settlement of carry-over loans is still undecided.

ANIMOSITY STIRRED UP AMONG RUBBER MAKERS

Goodyear Tire and Rubber Co.'s President Tells of His Good Fortune in Capturing the Rubber Supply.

The New York Journal of Commerce says that the aggressive advertising of the Goodyear Tire and Rubber Company in which it announced a few days ago that it was able to continue selling tires at former prices, despite the war and the rapid advance in the price of rubber, has stirred up a good deal of animosity in the circles and rival manufacturers by no means ready to believe the Goodyear Company's assertions as to the psychological moment.

"We are running our factory with three shifts of men, twenty-four hours a day. So long as we remain in this fortunate position on rubber, we must supply tires to us at before-war prices to the limit of our capacity," said President F. A. Steiering of the Goodyear Company.

"We advanced Goodyear prices, as others did theirs when the rubber panic came. Almost in a day crude rubber rose in New York from 86 per pound to much over a dollar. And, as most of the world's rubber comes via London or Antwerp, we saw no way out for a time. The New York supply was too small to consider. European exchange was entirely suspended. Merchant ships had ceased running."

"But we have an almost world-wide organization, and we brought it at once into play. We are the world's largest buyers of high-grade rubber, so we have our own experts in London, Colombo, Singapore and Para. We cabled our London people to buy the pick of the rubber there. By acting quickly and paying cash they obtained 1,500,000 pounds of the finest rubber there. They bought before the advance—before the other buyers saw a way to get London exchange or to bring the rubber here."

"That big supply of rubber is now nearly all on the way to the Goodyear factory in Akron. It constitutes the best of the London supply. On the inferior grades remaining, prices have since been rapidly advanced. "We have since taken other steps to insure a continuous supply, all of the highest grade rubber. In all the chief sources of rubber supply we have experts on the ground. All is being done that can be done to secure the best rubber, the exchange to pay for it and the ships to bring it here."

"The result is that Goodyear's prices are now the same as in June. We are using the same grade of rubber, and the same amount of it as we always have used in these tires."

AROUND THE CITY HALL

Reduction in Water Rates Did not Cause Much of Falling Off in Tax Receipts.

When the City Treasurer's Department was closed last night at the City Hall Assistant Treasurer Collins announced that the total collections of water and business taxes from August 1 to September 1 amounted to \$1,095,872. And that in spite of the reduction of the water tax from 5 to 4 per cent, there has been but a falling off of \$20,000 as compared with the same date for 1913.

Yesterday being the last day for the allowance of the 2 per cent discount, the receipts were the largest of the week, the total being \$382,000. The largest individual account paid was that by the Canadian Pacific Railway, which sent in a cheque for \$42,000.

Following a suggestion made by Alderman Giroux at a meeting of the City Council some months ago, the Board of Control yesterday decided to recommend to Council that the Montreal Tramways Company be asked to try out, for a period of six months, a new line to connect with one of the north and south lines, and to run east on St. Catherine street.

We Can Have Pie

There was once a good woman who couldn't make pies, but had two kind neighbors who kept her supplied with that article of food.

One day her two neighbors got to fighting, and so badly injured one another that neither of them was able to make pies for some considerable time.

What did the pie-less one do? Go without pie? Not much. SHE HUNTED UP A COOK BOOK AND FOUND OUT HOW TO BAKE PIES HERSELF.

Canada to-day is in the position of the lady-who-couldn't-make-pies.

There are many things she does not make at home because she has been getting them so easily from Continental Europe. But now her neighbors in Europe are at war with one another and so— for some time to come—cannot supply those things.

Canada is too thrifty and serious and sensible a housewife to sit with hands folded at such a time.

While loyally contributing a number of her best sons to help settle things in Europe, Canada will not entirely overlook her other sons who remain at home.

The manufacturers of Canada will get out the recipe book and learn how to MAKE many of the things that Europe can no longer send us because of the war. And in the making of those things the manufacturers of Canada should have the support of the financial interests and the people of Canada.

The manufacturers of Canada are now making much of the woolen goods, motor cars, rubber goods, corsets, millinery, hosiery, silverware—and countless other things—that are used in Canada, and generally speaking are making these goods at least as well as they are being made anywhere else. The people of Canada know that most of these things are being made by the manufacturers of this country. They do not know yet whether the manufacturers of Canada are going to serve them still more by making many of the things that were formerly imported from Continental Europe.

The manufacturers of Canada should tell the people of Canada at this time more than ever, just what they are making and the merits of their products. Let them drive home the facts through the great message medium—advertising. Let them use the newspapers to inform the people that they "have the goods." Let them explain that notwithstanding the war the people of Canada CAN have "the pie"—"home made pie," and all the better for being home-made.

And after the war is over—if not before—perhaps our neighbors in Europe will be coming to Canada for some of this "pie"—importing from Canada some of the things Canada now imports from them.
