 7-lb. sack, 65¢. 12-lb. sack, \$1.

It is a scientific compound of the essential elements that are lacking in the various foods upon which horses, cattle, hogs and sheep generally subsist. It produces flesh by compelling the system to do its best. It permits no food to pass off undigested. It wards off diseases. It is called a food for want of a better name. It is not exactly a medicine, nor a substitute for hay and grain and other foods. It is both nutritious and curative.

It is not a stimulant, but a tonic. It aids digestion, and thereby gets the most muscle and fat and milk and wool out of the various foods that the horses and hogs and cows and sheep eat. Sold by dealers generally, or address: **THE GREIG MFG. CO., MONTREAL.** For the asking, we will mail you our 64-page veterinary book, which tells how to doctor your own stock.

Makers of these articles, in many instances, do not pay the necessary attention to the quality of the Salt they use. Some people think that "Salt is Salt," and it does not matter where it comes from or who makes it. This is a great mistake, for it is essential that to produce the best Butter or Cheese nothing but the purest Salt should be used. The number of prizes obtained by users of—

at the various exhibitions is conclusive proof that these brands of Salt stand unrivalled.
