GOSSIP.

(Continued from page 613.)

Broadhooks heifer, Imp. Airy Duchess Srd, is a show card that will be hard to turn down, being full of substance, quality and character, stred by Pride of All, a son of the \$6,000 bull, Brave Archer, and her dam by the Marr-bred Airy Monarch. Imp. Vanora, a roan four-year-old cow, bred by Mr. Jackson, of Durno, and got by Remus, the sire of the champion Choice Goods, is another excellent number, showing splendid character and strong constitution. Among other great breeding cows is Imp. Bella. whose produce since her importation have sold for \$2,600, one daughter fetching \$1,700 at a Chicago sale, while she is nursing another good one. The fine old matron, Louan of Browndale 2nd, now in her 14th year, is another of the profitable sort, her calves in the last six years having sold for a total of \$1,550, and she is now nursing a nice red bull calf by Wanderer's Last. Topsman's Queen, by the champion Topsman, firstprize yearling heifer at Toronto last year and one of the first-prize young herd, is in splendid two-year-old form, thick-fleshed, symmetrical and wide as a wagon, and shows herself useful as well as ornamental, as she is nursing a fine calf. The limits of space forbids more than mere mention of such as the Sonsis roan three-year-old, Village Beauty, by Village Squire, by Abbotsford; the blocky red yearling Wimple, by Wanderer's Last, and a pair of Duchesses of Gloster. Suffice it to say that the herd is a working here as well as being famous for its allow-yard record, as nearly every cow has a calf following her in the pastures or found in the comfortable boxes in the splendid basement barn, one of the most complete and commodious in the country.

Mr. J. B. Hogate, importer of Clydesdale, English Shire and Hackney stallions and Spanish Jacks, Sarnia, Ont., in ordering a change in his ad., writes: "I am pleased to report business has been very satisfactory this year, and I am satisfied that my ad. in your paper has been worth thousands to me in my business. I expect to sail for Scotland, England and Spain about July 10th to buy my stock for my next fall and winter trade, returning about September 1st. My business promises to be larger than ever next season."

J. & W. B. Watt, Salem, Ont., report the following as among recent sales of Shorthorns from their noted herd: To James Snell, Clinton, Ont., the imported yearling bull. Scottish Peer chief stock bull last year, and his stock are of the right kind. We have been very successful in past years with calves at the leading shows, and think we have as good a lot if not better this year than usual. Mr. Snell has bought several bulls from us, but none that will give him better satisfaction as a stock bull than Scottish Peer. We have shipped to British Columbia the two young bulls, Red Emperor and Proud Lad. Our herd of some ninety head are all out on the pasture, and never looked better, and as we are not going to show this season we will sell some of our show things, both imported and homebred. The country hereabout looks grand. Everything is farther advanced than usual, and as the crop was put in in the best of condition there is every prospect of a good harvest.

A MIXED FAMILY.

An Egyptian correspondent sends a report of a strange pair of twins foaled upon the Aboukir Land Co.'s mule-breeding farm. A large Syrian donkey is used for crossing on the Egyptian countrybred mares. One of the latter gave birth recently to twins, one of which is a perfect horse foal and the other a strong female mule, with all the characteristics of the mule well developed. They are living side by side in peace and joy, the maternal instincts of the dam being unaffected by the incongruity of her offspring, each receiving an equal share of the maternal attentions.

are built to stand any kind of usage for a life time, and priced so low any farmer can afford to have them. Solid round iron frames and cross-bars, all welded together—painted like

wire single or double, open in or out, self-acting latches, solid bolt hinges. "Page Gates weer hest"
