

SKIN DISEASES

These troublesome afflictions are caused wholly by bad blood and an unhealthy state of the system, and can be easily cured by the wonderful blood cleansing properties of

Burdock Blood Bitters

Many remarkable cures have been made by this remedy, and not only have the unsightly skin diseases been removed, and a bright clear complexion been produced, but the entire system has been renovated and invigorated at the same time.

SALT RHEUM CURED.

Mrs. John O'Connor, Burlington, N.B., writes:—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine."

WORDS CHEAPER THAN STONES.

Some years ago, George Meredith had a house built for himself which was rather small, although very comfortable. One day a lady visited him, and with great pride he showed her over the place. After their tour of inspection, the visitor turned to her host, and with a disappointed expression said: "In your books you describe huge castles and baronial halls, but when you come to build you put up a little house like this. Why is this?" "Well," replied the author with a twinkle in his eye, "the reason is because words are cheaper than stones."

GOT TO THE ROOT OF HIS TROUBLE

And Dodd's Kidney Pills Cured W. Wright's Backache.

He had suffered for several years, but the old Reliable Kidney Remedy gave him quick relief.

Kelvington, Sask., May 24.—(Special.)—"Yes, Dodd's Kidney Pills cured me of backache, and I have recommended them to others who have also been cured." These are the words of William Wright, a farmer well known here. "I believe I inherited my trouble," Mr. Wright continues. "At times, for several years, it was very severe. I also suffered from lumbago, and in the morning I had a bitter taste in my mouth, and was troubled with dizziness, and my skin was dry and harsh, and there was a sediment in my urine."

"No treatment I could find gave me any permanent relief till, finally believing that my kidneys were the root of my trouble, I determined to try Dodd's Kidney Pills. Four boxes cured me."

Mr. Wright went at his trouble sensibly. He examined his symptoms, and they showed him that Kidney Disease was his trouble. Do as much for yourself, and if your symptoms point to disordered or diseased kidneys, the case is easy. Dodd's Kidney Pills will do it. They never fail.

QUESTIONS AND ANSWERS. Miscellaneous.

TO PROMOTE GROWTH OF HAIR —WART—TROUBLESOME DOG.

1. What is a good cure for hair that has been killed by ringworm, and cannot get it to grow?

2. What is good for a long wart which is always a sort of lump, only broken into a sort of strings?

3. We have a dog who would never ramble till a neighbor's dog started coming, and he has started. Could we shoot the dog if he was caught chasing the sheep?

Ontario.

Ans.—1. It is rarely, if ever, that the hair roots are killed by ringworm, and you will probably find that it will grow out in time. A mixture of lard and sulphur, well rubbed in two or three times, will kill at least one common form of ringworm, and greasing or oiling the parts afterwards will encourage the growth of hair.

2. If the wart has a long slim neck it may be taken off by tying a strong fine cord or a horsehair tightly around the neck of it, and renewing the ligature as it slackens, or it may be clipped off with a pair of shears, and the wound dressed with a ten-per-cent. solution of carbolic acid. If the wart has a thick neck and lies close to the skin, it should be dissected out by a veterinarian.

3. Yes.

RETENTION OF MECONIUM.

I have an imported Clydesdale mare, six years old. In May of 1907 she raised a mare foal; had no trouble with it at all. On the 6th of May, 1909, she gave birth to a colt. This foal was weak; could not get up. I helped it up to drink every hour, or as often as it would take it; seemed to be getting stronger. In twelve hours I found it had no passage. I gave it an injection of warm water and soap, and gave it two teaspoonfuls of sweet cascara in about four or five spoons of mare's milk. In two hours I gave it another injection, and the same amount of cascara. It seemed to get livelier for a while, but died in less than thirty-six hours. I opened it and found its stomach full of hard stuff; passage also full of hard stuff, to about nine inches from root of tail. The mare was worked up until January, after which she was turned into barnyard every day that was at all fit. She was fed on oat straw and wheat straw until about the middle of March. At this time she got a feed of good clover and timothy hay, mixed at noon, till April 1st; after this hay three times a day. She got two quarts of oats and one quart of bran at a feed all winter. The mare was in good spirits, and seemed to be in the best of health. Can you give me any reason why this foal should be bound up? Is there anything a person can give a foal when it comes to prevent this, and still not cause diarrhea?

W. F. F.

Ans.—As a rule the dam's milk serves to rid the bowels of this dark putty-like material, formed during fetal life, but occasionally the foal fails to force it through the anus. It is a serious mistake to administer a purgative. The trouble exists in the rectum, and a purgative would merely liquefy the contents of the intestines, which would be forced against the resisting meconium in the rectum. Foals are often started scouring and lost by purgatives given at this time. It is better to use an injection of warm water and oil; or, still better, when possible, to remove by inserting the oiled finger and removing the lumps one at a time by manipulation. After removing all possible, inject equal parts warm water and linseed oil. In course of three or four hours, oil the finger again and repeat the operation. Continue the treatment until the faeces come yellow. In the case under consideration the foal appears to have been weak, which helps to account for the difficulty in getting rid of the meconium, which appears to have been unusually abundant in quantity. Nothing can be suggested to prevent this trouble, except, possibly, to feed the mare during the latter stages of pregnancy on laxative food, which can, at all events, do no harm, and is, in any event, good for the dam.

SEA GREEN & PURPLE SLATE

SEA GREEN AND PURPLE SLATE is nature's own product—not man made. Quarried from solid rock—split into convenient form for laying, and then in its natural state ready for the roof. **SOLID ROCK CAN NOT WEAR OUT.** It can't burn, rust, warp, crack, tear, or decay. That's why Sea Green or Purple Slate Roofs never wear out and never require painting and repairing like all other roofing. Sea Green & Purple Slate Roofs are suitable for any building, new or old. Give perfect protection. Reduce insurance rates because spark and fire-proof. Afford clean cistern water. Not affected by heat or cold. First cost—only a trifle more than short lived roofing. Settle your roof question for all time. Don't spend more money for poor roofing. Write to us for our free book "ROOFS"—it will save you money. Give name of your local roofer. Write today. **AMERICAN SEA GREEN SLATE CO., Box 3 Granville, N. Y.**

ROOFS NEVER WEAR OUT
