

Manly Strength

HOW TO REGAIN IT WITHOUT COST UNTIL CURED

Manly strength—strength of brain and body, is nature's highest perfected work. With it man is success; without it failure. Nearly all men have been fitted with a constitution fit to build such a structure upon, but through foolish dissipations have wasted the material nature gave them. Men live too fast these days. The search for imaginary pleasure, trying to squeeze the happiness of a lifetime into a few years, exhausts the strength, and they are wrecked in man's grandest ambition—robust strength of brain and body. There are thousands of these weak, timid, puny men—half men—who can be made perfect specimens of manhood when the grand element that has been drained from their system is restored. This element is life, without it. This being the fact, can there be a more natural remedy? I say there is not, and tens of thousands of cures during my nearly forty years' practice in Electricity say the same. I have the greatest invention for self-treatment by electricity the world has ever known, and so sure am I of what it will do, that any man who needs it can have the use of my latest model Herculex

Electricity. We know there is no strength, no vitality, in fact, no life, without it. This being the fact, can there be a more natural remedy? I say there is not, and tens of thousands of cures during my nearly forty years' practice in Electricity say the same. I have the greatest invention for self-treatment by electricity the world has ever known, and so sure am I of what it will do, that any man who needs it can have the use of my latest model Herculex

Dr. Sanden Electric Belt Free Until Cured.

I don't ask one cent in advance or on deposit, but on request I furnish you the belt, and if you are well or satisfied in say two months, pay me my price—most cases as low as \$4.00. If not satisfied, return it and the transaction is closed. I have made a sworn statement to faithfully carry out this offer, and trust you will not confound it with the C.O.D. shams advertised, as I send no goods C.O.D. unless you so order.

What would you not give to have your old vim back; to feel as you did a few years ago; to have the same snap and energy; the same gladness, joyous, light-hearted spirit and the physical strength you used to have? You might as well have these blessings, for my offer must convince you what I feel I can do for you. I will give you the use of the best Electric Belt the world knows—and you probably know I am the father of the electric appliance system of treatment—and advice gathered from the experience of nearly forty years' success in my line. But this does not mean that I am giving belts away; but does mean you are not to pay one penny until you are cured. By this method I do tenfold the business and good I would were I trying to sell "a pig in a bag." It pays me and it pays my patients. Of course imitators imitate my goods (what good thing is not imitated?), but my great knowledge from long, successful experience is mine alone and free to my patients.

This offer is especially to men who want more strength and vitality, who suffer from impotency, drains, varicocele, etc.; but my belt also cures Rheumatism, Lame Back, Stomach, Liver and Kidney Troubles, General ill-health, etc., and I give it on same terms. It is simply worn around the body while you sleep; in the morning you wake up full of strength and vim, prepared to face the world however you find it.

Call or write to-day and let me assist you to health and happiness as I have so many thousand others. I will at once arrange to give you my belt on terms mentioned above, and two best little books ever written upon Electricity and its medical uses. Free, sealed, by mail. Address,

DR. C. F. SANDEN 140 YONGE STREET TORONTO, ONT. OFFICE HOURS: 9 to 6. Saturdays until 9 p.m.

1,800,000 People

Have Asked Us to Buy Them a 50c. Bottle of Liquozone.

We offer to buy the first bottle of Liquozone, and give it free to each sick one who asks for it. And we have spent over one million dollars to announce and fulfill this offer. Our object has been to let Liquozone itself show what it can do. A test is better than testimonials, better than argument. In one year 1,800,000 people have accepted this offer. They have told others what Liquozone does, and the others told others. The result is that millions now use it. It is more widely employed than any medicine ever was—more widely prescribed by the better physicians. And your own neighbors—wherever you are—can tell you of people whom Liquozone has cured.

Not Medicine.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is so certain that we put every bottle an offer of \$1.00 for the first bottle that it can

not kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquozone its worth to humanity. And that worth is so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

- Eczema—Erysipelas
- Fever—Gall Stones
- Gout—Gout
- Gonorrhoea—Gleet
- Throat Troubles
- Tuberculosis
- Tumors—Ulcers
- Varicocele
- Wen
- Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON.

Form for cutting out a coupon to request a free bottle of Liquozone. Includes fields for name, address, and a return address for the coupon.

GOSSIP.

PERCENTAGE OF FOALS.

Among horse breeders, a proportion of anything over 70 per cent. of foals to the number of services given by a stallion is usually regarded as a highly-satisfactory performance. In other words, a sire is considered to have done his work extra well if seventy out of every hundred mares served by him produce foals. As a rule, however, the actual percentage of foals is considerably lower than this, and perhaps a good average proportion may be said to be from 50 to 60 per cent. In this connection it is interesting to observe a statement which has been presented to the Hunters' Improvement Society showing the percentage of foals got by nine stallions registered under the 1903 scheme of the Society. From this return it appeared that the first prize of £20 had been won by the hunter-bred stallion, Privado, who had to his credit the very fine record of 77.14 per cent. of foals, and the second prize of £10 went to Clarendon, whose proportion of foals to services amounted to 75 per cent. In all, the nine stallions included in the scheme served 402 mares, of which 235 foaled, thus representing a percentage of 58.45—[Ag. Gazette (British).

FARM TELEPHONES PAY.

A cattle buyer drove into the yard of a farmer about fifty miles from Chicago the other day and made an offer for all the cattle and pigs on hand, delivery to be made at once. The offer seemed a good one, but before closing the farmer said he would speak to his wife. Going to the house he asked his wife to call up a Chicago commission house by telephone, says a writer in the Chicago Tribune. In less than two minutes he was in communication with Chicago, and was informed of a rise in prices and advised what a good offer would be at that moment. Within five minutes he closed a deal with the buyer at prices which paid him \$300 more than the first offer. At a neighbor's the threshing gang was hard at work. Twenty-five men and a huge machine were making quick work of the big barley stacks. All at once a sharp report was heard; there was a stoppage, and investigation showed an important part of the machine broken. No similar part was at hand, and it was doubtful if it could be obtained in the nearest town, seven miles away. Perhaps it would be necessary to send to the manufacturer. There was just one chance that it might be obtained in Elgin. Naturally the first thing to get at was the telephone. The exchange, seven miles away, was called, and within a minute over the twenty-mile line to Elgin the mishap was discussed with the dealer in that city. The train left Elgin in fifteen minutes with the missing piece aboard. In an hour and a half it had reached the nearest railway station, and before dinner was over it had arrived, was put in place, and again the wheels were whirling and the barley running into sacks. If no telephone had been at hand, there would certainly have been twenty-four hours' delay.

Thousands of instances of the above character go to show every day that the telephone is indispensable in the house of an up-to-date farmer. Few people in Chicago realize that there are more than five thousand telephones in farmhouses within fifty miles of that city. The farmer, with all his great freedom of operations and his opportunities in broad acres and smiling fields, is just as closely in touch with the facilities of the great city as if he were next door to it. In the farmhouse the telephone begins to get busy at five o'clock in the morning. At dinner time calls of many kinds go back and forth over the line, but it is in the evening, after supper that neighbor meets neighbor, discussing the crops and all matters of mutual interest. Housewives gossip of family affairs, and a community of interest is had not only over all the county, but all over as much of the country as may be desired. When the farmer goes to bed he does not feel that he is cut off from the world, nor have any regrets of his isolation. If the metropolitan lawyer is hitched on to the line, with the very decided advantage that he is close enough to get burned, and if the rural society has done much for the country, the telephone is doing more.
