OIT'S BROMA. The following observations having reference to the preparation of Broma, uppeared in a law number of the Bo ton Medical Journal: A few years since a great manufacturer of Broma

A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully successed. Hospitaes, infirmeries, and households generally, smould always be provided with it. When gruel, arrow-root, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the from a is sometimes relished. It is helieved that those who use it as a barerage will have manifest distetic advantage over the consumers of tea and coffee. We see it stated that during the last summer those individuals who were continually using Ciocolate or Broma meither had attacks of cholora or desenteric affections, while others of the same families, taking their daily potations in tea, coffee, or simple cold water, were the sufferers, if any. was annot vouch for the truth of this, but it has recallad to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking cod liver oil for chronic difficulties, during the prevalence of the late epide nic, were not affected by it. Vegetable of in the next instance, and animal off in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafts of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other intected crics."

TO INTENDING EMICIKANTS FROM NOVA SCOTTIA THE CANADA CONCAST would submit to the various consideration of parties who may contemplate leasing Nova Scotia whether the Western Section of Canada (formerly the Province of Upper Canada,) does not offer every inducement for the at to settle there, rather that that they should proceed to the United States. In Upper Canada they will find a most healthy elimate, the soil very fertile, and abundance of excellent Eand to be obtained upon easy terms from the Government and Cona la Company. The great success which has attended Settlers in Upper Canada is abundantly evidenced by the prosperous condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New as condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New Brunswick and Nova Scotia who have settled in many Townships of the Country;—and the individual progress made by several thousands of people who have taken lands from the Company, corroborates the success which has attended settlement in Upper Cameda. The Camada Company's Lands are offered by way of Lease for Ten Years to for Sale Cash alown. The plan of 1-5th Cash and Balance in Instalments, hing done away with.

The Rents, payable 1-st February each Year, are about the Interest, at six per Cent., upon the Cash Price of the Land. Upon most of the Lots, when Leased, no Monry to required done; whilst upon the others, according to locality, One, Two, or Twee Years' Rent must be paid in atmosphere, but these payments will for the Settler from further Calls, until the Second, Third or Fourth year of his Term of Lease.
