NOTICE TO PARENTS. The Schools and Colleges whose announcements appear in this Guide are institutions of proven standing in their respective branches of education and The Guide believes that parents will make no mistake in selecting from them those which they consider best suited for the education of their sons and daughters.

UNIVERSITY of MANITOBA WINNIPEG

Offers courses leading to degrees in Arts, Science, Medicine, Pharmacy, Law, Civil and Electrical Engineering and Architecture.

The faculty consists of some forty-six professors, lecturers and demonstrators, and with them are associated the staffs of five affiliated colleges.

The range and variety of courses in Arts is greater than ever before and the facilities for clinical work in connection with the course in Medicine are surpassed in few institutions on the continent.

For terms of admission, details of courses, information as to fees, etc., apply here.

W. J. SPENCE, Registrar,
University of Manitoba, Winnipeg

A Good Training

In all commercial subjects may be had through our thorough system of individual instruction. Positions found for all as soon as qualified. Send for **FREE PROSPECTUS.**

Dominion Business College
Carlton Bldg., Portage Ave.
WINNIPEG

Luther Burbank, the world's plant-breeding wizard, has announced perfection of a "super" wheat. He says its yield is five times the average production throughout United States and Canada today. It is the product of 16 years' extensive experiments and has been carefully tested, he says, in competition with 68 of the world's best wheats and excels any in productiveness. Burbank said, "I have perfected and have ready for market the most productive wheat ever evolved by man. The average yield will run around 50 to 70 bushels per acre. It is hardy, beardless, smooth and will grow anywhere in the temperate zone. Were it universally planted the same acreage today under cultivation would yield many times as much wheat."

The Irish convention for the settlement of Irish troubles is sitting in Dublin. The Sinn Feiners and O'Brienites (the Ultra Radical wing of the Nationalist Irish Party) completely ignore it. Sir Horace Plunkett, the father of Irish Co-operation has been chosen as chairman.

The Compulsory Military Service Bill passed its third reading in the House of Commons on July 23. The attendance was not as large as on the passing of the second reading and the majority was 58, i.e., 102 to 44.

Liberals who supported the third reading were: Messrs. Graham, Farde, Guthrie, Curzon, A. K. McLean, Turpin, Charlton, Knowles, Nesbitt, McCull, McCreaney, Levi Thompson, Champagne, Buchanan, Ross, Mac Millan, Neely, Cruise, Douglass, White (Victoria), MacNutt and Dr. Michael Clark, in all, which was four fewer than at the second reading.

The Nationalists who voted against the bill were: Messrs. Patenaude, Hollemere, Girard and Barrett. Mr. Achim, who also voted against the bill, has said the Liberal vote shows the second reading.

The Bill has now gone to the Senate where it will take some time for discussion.

Large deposits of Manganese Dioxide have been discovered in the Cypress Hills in South Eastern Alberta. Eight hundred thousand tons worth \$53,000,000 are said to have been blocked out with post hole augers in the last few months and is being sold to the British War Office at \$68.00 per ton. The Manganese lies on top of the ground and is largely controlled now by private interests. This is an important element in toughening iron and most valuable for munition making. The Germans have secured much of their supply in Lens, the place recently captured by the Canadians.
