The committee beg leave to remark that the contingencies of the legislative council for the present session exceed those of last year by more than £400, while a considerable decrease is observable in those of the assembly.

JONAS JONES, Chairman.

17th February 1827.

Mr. Jonas Jones, seconded by Mr. Thompson, moves that the house do now resolve itself into a committee of the whole on the reports of the committee upon the contingent accounts of the present session.

Which was carried, and Mr. Atkinson was called to the chair.

The house resumed, the black rod being at the door.

The master in chancery brought down from the honorable the legislative council the bill entitled "an act to provide for a further survey of the works done at the Burlington bay canal, and also to afford further aid to complete the same," which they had passed without amendment, and a message, which the speaker read as follows :--

MR. SPEAKER :--

The honorable the legislative council request a conference with the house of assembly on the subject matter of a bill sent up from that house entitled, "an act to grant to his majesty a certain sum of money for the purposes therein mentioned," and have appointed a committee of two members, to meet a committee of that house in the joint committee room forthwith.

WILLIAM CAMPBELL, Speaker.

Legislative Council Chamber, 17 February, 1827.
