TWO NEW AN ACT TO **FURNACES FOR** THE GRANBY

(Special to The Miner.)

GRAND FORKS, B. C., Nov. 15 .- J. P. Graves, general manager of the Granby Mining & Smelting Company,

He will also visit Phoenix where Porter brothers, contractors, have just completed the initial task of stripping the ledge on the surface of the Knob Hill preparatory to opening up new quarries. taking steps to order two new furnaces for the Granby smelter, thus increasing the number of furnaces to six, with a

total capacity of 2200 tons daily. V., V. & E. RAILWAY SPUR. Completed Into Depot Site in

> Last Week. (Special to The Miner.)

GRAND FORKS, B. C., Nov. 12 .-The V., V. & E. railway spur into the depot site at Columbia was completed late this afternoon. The event attracted a large crowd. As soon as the last rail was laid the thirsty track-layers were hospitably entertained by the local council. No little enthusiasm was displayed, especially after the railway men had sampled the liquid refreshments provided for the occasion.

The progress of the construction work was watched today by S. F. Forest, superintendent of the Spokane Falls & Northern, Spokane, and A. Stewart, divisional engineer of the Great Northern, Spokane. The officials left for Rossland

The entry of the V., V. & E. into this city was celebrated in the upper town tonight by a display of bonfires and fireworks. Local orators dwelt upon the importance of the event. It is understood that the spur into the Granby smelter will be built forthwith. The work will probably occupy four months, and means the employment of 400 or 500 men in this vicinity.

J. W. Stewart and P. Welch were awarded the contract over a year ago. Mr. Welch, it is stated, will have charge of the work, most of which will probably be sublet. There will be considerable rock work on the north side of Obser-

vation mountain. The unexpected arrival here of A. H. Hogeland of St. Paul has revived the report that the extension of the line o Phoenix and Greenwood will be built during the coming winter. Mr. Hogeland, although not the nominal chief engineer of the Great Northern, has been virtualperforming these duties since the prootion of John F. Stevens to the general managership of the system. Mr. Hogeland left here this afternoon to inspect the route between here and Phoenix and to hasten the extension of his system to all the Boundary mining camps, in order to be able to compete for a share of the ore tonnage, exceeding one million tons annually, now being produced the Boundary mines. The V., V. & E. has already located the line to Phoenix, where the Granby mines are situated. An easy grade from here will be red by building up Fourth of July creek. The difference betwen the elevain the Kettle river valley and Phoenix is about thirty-two hundred feet. Various spurs have also been surveyed other camps. From a point near Eholt he line will descend the divide and ch at Greenwood before traversing

the valley of Boundary creek to Mid-

a proposed twelve-mile extension of the Vashington & Great Northern north

INCORPORATE A RAILWAY

(Special to The Miner.)

VICTORIA, B. C., Nov. 15 .- Application will be made at the next session of arrived here today from Spokane on a parliament for an act to incorporate as a Dominion railway the Nicola, Kamloops & Similkameen Coal & Railway Company, to fix a point of commencement of the railway, and to enable the company to construct and operate the It is understood that Mr. Graves is extension of a line from Nicola Valley, along Nicola river, to connect at or near Hope and thence to Chilliwack, with power to construct a bridge over the

for an extension of time for the commencement and completion of its rail-

FROM KASLO-ON-KOOTENAY. (Special to The Miner.)

KASLO, B. C., Nov. 14.-Advices from the South Fork section of the Kaslo river give the information that the Cork mine is doing a considerable amount of development work on that property just now, some 15 men are on the payroll and it is the intention of the management to run a crosscut tunnel some 1200 feet so as tap the ore veins. About 1000 feet of pipe line is also to be laid, and

commenced shortly. The Gillis brothers of this city arrived down from their claim at Hall creek on Wednesday and report that a two-foot lead of galena, running a distance of 20 feet, was uncovered by them re-

it is anticipated that further improve-

ments and development work is to be

Very high assays have been obtained from samples recently brought down from the Shareholder claim at Bear Lake, just adjoining the rich Silver Glance. The Shareholder is owned by Customs Officer J. F. McIntosh, Colonel O. T. Stone of this city and others. The owners are intending to extensively prove the property at an early date.

James Waugh, who has been in charge of the Deserter lime quarry in the Lardo went to Cascade this week for the purpose of making arrangements for the working of the new C. P. R. quarry in that place.

Notwithstanding the uncertainty in regard to the tariff question on zinc the Bosun shipped 60 tons of zinc ore to Iola last week and also a shipment to Quite a number of other mines are holding back zinc ores until the duty is arranged.

Dominion writs are issued for Massonneuve, Yarmouth and Argenteuil.

A SUBSIDY PROMISED.

Agreement Reached Between Kettle River, R. R. and V., V. & E.

(.Special to The Miner.)

VICTORIA, B. C., Nov. 13 .- An Ottawa dispatch states that Wells has been successful in obtaining the premise of a subsidy for Westminster from the

Dominion government, Cowan, solicitor for the Kettle River Railway, says an arrangement has been reached between his company and the V., V. & E., whereby each agrees to drop all injunctions and legal proceedings with the other in British Columbia and Wash-

RICH ISLANDS.

The Mines at Princess Royal Are Turning Out High Grade Copper Ore.

VICTORIA, B. C., Nov. 14.—The Tees on her latest trip down brought from Princess Royal island a considerable quantity of sacked ore for the smelter it Crofton. The ore was unloaded at Vancouver, and will be sent over to Crofton from that point. This ore is sent from the Findlay mines, which have been sending a quantify to the smelter for some time. It has given splendid values, going \$120 a ton and upwards in value.

Several portages have to be made lafere the journey is completed. In spits of these obstacles the management are continuing to send their ore to the smelter. They have a strong fissure vein in the granite, which has turned out remack-

On Gribbel island, not far distant from Princess Royal, prospectors have been busy during the summer with good results. The prospects are excellent, a party of those engaged in the develop-ment of the claims there having come down on the Tees.

MUST REDUCE THE TARIFF

(Special to The Miner.)

VICTORIA, B. C., Nov. 14.-The imperial blue book, with the proceedings of the colonial conference, has reached here. It is plain from the speech of Chamberlain that the only way for inter-imperial trade is by free trade within the Empire: He says Canada has not yet gone far enough in reducing the tariff to get preference in the Brit-

TRIED TO APPROACH QUEEN ALEXANDRA
