### A BIG PROJECT.

Steps to Buy All Canada's Telegraph Systems.

New York, Feb. 5 .- The Herald prints the following from its To-ronto correspondent: The Dominion Government has practically taken steps to purchase the telegraph system of Canada, extend them enormously and operate them in connection with the Postoffice Department. It is also seriously proposed to fol-low a similar course with the tele-phone, but in the case of the latter municipalities will be licensed, as in Britain, to operate the system within

their own areas.

The question of the absolute control of the Canadian telegraphic service has long been discussed, but not until the present Liberal Government came into office has it been possible to talk of purchase. With a surplus running from \$6,000,000 to \$7,000,000 for 1900-1901, and a prospect of an equally large surplus for 1901-1902, the plan seems feasible.
The great desire of Canadian states-

known that taken in its earlier stages consumption is curable, and that by a proper care of the blood—keeping it rich red and pure—those who are pre-disposed to the disease escape its ravages.—Consumption is now classed among the preventable diseases, and those who are pale, easily tired eman men is to get cables owned by Great Britain under the Atlantic and Pacific and joined at each ocean to wires owned by the Dominion, crossing this country, and thus practic-ally girdling the globe by a cable absolutely under Imperial control. The business men of Canada are unanimously in favor of the scheme, and believe that William Mulock, forced on Britain the adoption of the ocean penny postage, which has actually reduced the loss on Dominion mail service, would speedily make a national telegraph system a

The Great Northwestern Telegraph Company and the Canadian Pacific Company practically con-Railway trol all the wires in Canada. The valuation of the property of both concerns is being made very quietly and should the arrangements between the Government and these two companies be completed on an early date a bill dealing with the subject will go before the next session of the

Dominion Parliament. difference arising over In case of a the amount to be paid, the arbitrator will be an expert of the Imperial Government telegraph service.

get as cold as ge. As the progressed I began to lose flesh rapidly, and in a short time was only a shadow of my former self. I had good medical treatment, but did not get relief, and as a harsh cough set in I began to fear that consumption had fastened itself upon me. This was strengthened by a knowledge that several of my ancestors had died of this terrible disease. In this rather deplorable condition I was advised to try Dr. Williams' Pink Pills. I at once procured a supply and had not taken them long when I noted a chinge for the better. By the time I had taken six or eight boxes I was able to move around the house again and felt better and stronger in every way. I continued the use of the pills The Canadian Pacific system ex tends to about 10,000 miles, and it is difficult to get at the exact cost, because it is mixed up with the railaccounts, but the cost is estimated at from \$7,500,000 to \$8,000,

and felt better and stronger in every way. I continued the use of the pills until I had taken a dozen boxes, when all my old time strength and vigor had returned, and I was as well as ever. During the time I was using the pills my weight increased twenty. The Great Northwestern system will probably come near this amount, while the Bell Telephone Company of Canada has a capital of \$5,000,000, so that the purchase of these concerns means a probable expenditure of from \$20,000,000 to \$25,000,000. The Government owns several telegraph lines, and in almost all charters there are clauses providing for the purchase of the lines. In any case, the capital will be amply secured, and the employes would pre fer to be Government officials to

serving corporations.

It will be provided, in case the Government prosecutes the scheme, that newspaper telegraphic rates shall not be increased, and facilities will be given to news agencies or newspapers renting special wires, as in Britain. The only fear of commen is that United State telegraph companies may raise the rates, or otherwise act in antagonism to a Government board.

### East Queen's Vacant

Charlottetown, P.E.I., Feb. 5.

The trial of the East Queen's Dominion election petition between Messrs. Alex. Martin (Conservative) and D. A. McKinnon (Liberal) closed sudden ly and unexpectedly, after lasting five days. It was agreed between the First, to admit corrupt parties: practices by agents on both sides and to void the election; second, to withdraw the personal charges against each of them, and, third, each party to pay all his own costs.

Woodstock, Feb. 5 .- W. D. Emer on, manager of the Grand Opera House, received a telegram yesterday morning from Chicago, notifying him of the death of his grandmother, and conveying the intelligence that he was heir to \$20,000, as his share of the deceased's estate, which amounted to \$80,000. The remainder of the estate goes to Mr. Emerson's brother, sister and mother.

Struck by a Train.

Springfield, Ont., Feb. 5 .- Loole Millard, while crossing the track or his way home from church Sunday night, was struck by express going west, on the M. C. Four or five of his ribs are broken and both bones in one arm. He aisc received two slight cuts on the head, but is not unconscious and the doc tor has hopes of his recovery,

Another Shooting Accident. Windsor, Ont., Feb. . - Henry Ellis, a son of John Ellis of Maidstone, Ont., was out hunting yesterday. He slipped off a log and fell into the snow. His shotgun was accidentally discharged, and the load struck young Ellis in the face and mouth. He is not expected to recover.

Squealing of the First Pig. Stouffville, Ont., Feb. 5 .- The

Stouffville pork factory commenced operations yesterday. Precisely at 4 p. m. the squealing of the irst pig announced to the onlookers that bacon was being manufactured for the British market in the new factory. First Cast of iron at Sydney. Sydney, C. B., Feb. 5.-The first

cast of iron, about 65 tons, was made at the Dominion Iron & Steel Company's blast furnace yesterday. The cast was very successful in every Duke of Cornwall Able to Sit Up. London, Feb. 5.—The Duke of Cornwall and York had recovered enugh to sit up for a brief period

## WHAT LIFE IS. THE WHITE PLAGUE.

A little crib beside the bed.
A little tace above the spread;
A little frock behind the door,
A little shoe upon the floor.

A little lad with dark brown hair,
A little blue eyed face and fair;
A little lass that leads to school,
A little pencil, slate and rule.

A little blithesome, winsome maid, A little hand within his laid; A little cottage, acres four, A little old time fashioned store.

A little family gathering round.
A little turf heaped, tear dewed mound?
A little added to his soil,
A little rest from hardest toil. A little silver in his hair, little stool and easy chair; little night of earth lit gloom, little cortege to the tomb.

WHAT WE CALL OUR WEIGHT.

and What It Would Be In Entirely Different Cirenmstances. You step upon a weighing machine drop a penny in the slot, the hand goes around the tigured dial and, stopping at a certain point, tells you that your weight so many pounds. You know by this, in a sort of comparative way, that there is a certain amount of the matter which composes the universe confined under your skin. You have appropriated a cersymptoms of general debility should at once fortify the system by enriching and purifying the blood — thus strengthening and only the lungs, but all parts of the body.

Among those who have escaped a threatened death from consumption is Mrs. Robert McCracken, of Marshville, Cnt. Mrs. McCracken gives her experience that it may be of benefit to some other sufferer. She says:

"A few years ago I began to experience a general weakness. My appetite was poor; I was very pale; was troubled with shortness of breath and a smothering feeling in my chest. Besides these symptoms I became very nervous, at times dizzy and faint, and my hands and feet would get as cold as ige. As the trouble progressed I began to lose flesh rapidly, and in a short time was only a shidery of my former self. I had tain portion of it in the construction of your flesh and bones. There is a definite amount of the elements combined together which produces an effect upon the machine, and that effect is translated into pounds. You do not know exactly what a pound is, but it is some sort of an arbitrary measure of the force of gravitation, and after reading the figures on the scale you know about how much there is of you by comparison with other objects that have weight and

density. When you stand outside of yourself, there seems to be no reason why you should have any weight. The mind, which is the most important part of you, does not appear to have any weight, is a matter entirely outside of yourself. You can-not increase or diminish it by any act of will, though sometimes in dreams you seem to have divested your body of the downward pull which you call weight and find yourself floating as easily as a mote in a sunbeam. It may be that this is a sort of recollection on the part of the matter which enters into our composition of a time when it was really not subject to this tugging called gravitation and floated free. In our present environment, however, this law of matter has us in full control, and we cannot escape it for the smallest fraction of a second. It operates steadily all the time, and we are obliged always to take it into account.

But does the scale actually tell us how

much we weigh? It simply calculates the balance between two forces that are working against each other, the one tending to drag us down to the center of the earth and the other to send us spinning out into space. The puil of gravitation has the advantage by so many pounds, otherwise we should leave our happy homes in a hurry and start on a journey from which we would never return-go ing out into space to hobnob with comets and asteroids and other celestial wander ers. This old earth is a whirler and twirler. It has more curves than a base-ball in the hands of an expert pitcher. and not a purgative medicine. They enrich the blood from the first dose to the last and thus bring health and You have seen the experiment of swinging a pail of water over the head without

spilling the water over the head without spilling the water. The earth is giving us the same sort of a swing.

It is as if some giant were stationed at the point of space where the center of the to the last and thus bring health and strength to every organ in the body. The genuine pills are sold only in boxes with the full name, "iDr. Williams' Pink Pills for Pale People," printed on the wrapper. If your dealer cannot supply you send direct to the Dr. Williams' Medicine Co., Brockyills, Ont., and the pills will be mail. earth is, with a string upward of 3,000 miles in length attached to us and were rate of circular motion is approximately 1,000 miles an hour. It is a pretty rapid swing, and the fact that on account of this rapidity we have a considerable tendency to take a long jump several thousand miles into space must make a con siderable difference in the pressure when we step on the weighing machine. If the men of sense, hiving a certain end in earth were to stop its whirling some day view, adapt their means to the attain-ment of that end.—W. E. Gladstone. for a short time, we should all suddenly become heavy weights, and it is a ques-"It is the little rift within the lute tion whether the ordinary weighing ma which, ever widening, makes the mu-sic mute." It is just a little rift in the health of a woman often, which chine would be adequate to measure the lendency which our bodies would have to press toward the center of the earth. It is plain, therefore, that we should weigh gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from a good deal more if it wasn't for the giant swing given us by the planet upon which her voice. Perhaps the bug-bear which has frightened the woman from we are involuntary, residents. the timely help needed at the beginning his been the dreaded questions,

The Kentucky Parson's Guarantee. A good joke is told on a certain minister of the gospel living in this city who likes to trade horses by way of recrea-tion. By some means the preacher came into possession of a horse that wouldn' pull at all when he came to a hill. The parson found a purchaser who inquired particularly as to age, condition and qualities of the parson's steed. At last be asked if he was a tried puller. do your soul good to see him pull." was the enthusiastic response. The trade was made, and in a few days the new owner came back and claimed the parson had misrepresented the qualities of the augood to see him pull, and would it not have done so?" The purchaser saw the point and dropped the subject.

A Marvelous Linguist.

Professor Thomas Davidson was a master of many languages. On one occasion he had an interview with the pope. The conversation was carried on in several languages, including ecclesiastical Latin. At this last his holiness remarked that his visitor must be an Italian. "Ego sum Scotus," replied Professor Davidson; " am a Scotchman."-London Sketch.

# Sore

One Night Cure for Red, Rough Hands, Itching Palms and Painful Finger Ends

TREATMENT. Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with Cuticura Ointment, the great skin cure and purest of emollients. Wear, during the night, old loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails; and painful finger ends, this treatment is simply wonderful.

WILLIONS OF PEOPLE
Use Curicura Soap assisted by Cuticura Ointment for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings and irritations, and for all the purposes of the tolet, bath, and nursery. Millions of Women use Cutterna Soap in the form of baths for annoying inflammations, chafings, and excertations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative autiseptic purposes which readily snegest themselves to women, especially mothers. No other nuesticated soap is to be compared with it for preservings purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic triflet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in One Soap at One Price, the next tellet and baby soap in the world.

Complete Treatment for Every Mamour.—Currena Soap, to cleanse the skin of crusts and sea eas and soften the thickened cuttele, and Curicura Onyments, to instantly aliay itching in flammation, and irritation, and soothe ad heal. A SINGLE SET is often sufficient to cure the severest skin, scalp, and blood humour, with loss of hair, when all else fails.

Sold by ald ruggists. Brits h Depot St-Scharterhouse the severest skin, scalp, as Course, Trops., Boston. MILLIONS OF PEOPLE

Sold by all druggists. British Depot: 27-28 Charterhouse

The women of the poorer classes make sacrifices and run risks, and bear privations, and exercise patience and kindness to a degree that the world never knows of, and would scarcely believe, even if it did.—Same uel Smiles.

Those Worrying Piles! - One application of Dr. Agnew's Ointment will give you comfort. Applied every night for three to six nights and a cure is effected in the most stubborn cases of Blind, Bleeding, or Itching Piles. Dr. Agnew's Ointment cures Eczema and all itching and burning skin diseases. It acts like magic.

35 cents.—15
Sold by J. W. McLaren, Chatham. Love without return is like a ques tion without an answer.
