PARENTS GRATEFUL

"The Sick Children's Hospital, Toronto, is a grand institution," remarkonto, is a grand institution," remarked Frank Hallinan, Taylor avenue.
"I had a little instance of the work they are doing. Joshua Broton, a neighbor of mine, had a fittle son deformed from birth. The lad's feet were so badly twisted that he couldn't walk on them. Mr. Broton couldn't afford to send his boy to a hospital for four months to have the little fellow's feet fixed, and there was every chance that he would grow up a cripple. The Children's Aid Society was appealed to and through the intervention of D. S. Paterson and intervention of D. S. Paterson and Dr. R. V. Bray, Leonard Broton was got into the Sick Children's Hospital, Toronto. After being nearly three months in the hospital the little fellow returned home last week entirely low returned home last week entirely cured and his feet are as natural as any one's now. He can walk splendidly. There is no doubt that the little fellow owes the fact that he is not a cripple to the Sick Children's Hospital and to the interest Messrs. D. S. Paterson and Dr. R. V. Bray took in him. Mr. and Mrs. Broton are deeply grateful to the two gentlemen and also to the hospital for the rescuing of their boy from the life of a cripple and the evidence of how much they feel the kindness done would more than repay ill so have had a share in the case could they but see the gratitude of the parents."

"I happened to be passing McKeough school the other day," remarked Archie Park, "and I went in
to see the school. This was my first
visit and I certainly found a fine
school, well managed, but the plumbing is the cheapest and worst I ever
saw. There is something wrong somewhere when such a state of affairs
could exist in such a fine school. The
School Board ought to look into this
and attend to the plumbing arrangements at once. If they don't, they
are very liable to jeopardize the
heath of every pupil and teacher in
the school."
