

SORE BACK

"The doctor told me my back was the worst he had ever seen," said Mr. Alf. Lillierapp, of Walthamstow, when telling of what Zam-Buk had cured him.

"It was covered with eruptions which came in the form of headless pimples, and spread until my back was one mass. The itching at night was so bad that at last I had to have my hands tied to prevent me scratching myself and making the eruptions bleed. I took internal medicines and tried various salves; but in vain. One night I read about Zam-Buk and bought a box. Well I hardly know how to express my gratitude for the benefit I derived! That first box gave me relief and a few more cleared the pimples and eruptions from my body."

Similar eloquent testimony comes from Manitoba. Mr. R. J. Burgoine, of Harding, says: "I had some very bad sores on my heel but Zam-Buk cured them in a few days. It also cleared my chest of an unsightly eruption."

ZAM-BUK NEEDED IN EVERY HOME.

Zam-Buk should be in every home. It cures cuts, burns, bruises, scalds, chilblains, cold sores, chapped hands. It heals ulcers, eczema, running sores, abscesses, may be safely applied to the delicate skin of babies and also to the tenderest parts. It also cures the pain of piles. It is good as an embrocation, and excellent for rheumatism and neuralgia. All druggists sell it at 50 cents a box, or from the Zam-Buk Co., Toronto, upon receipt of price. 6 boxes for \$2.50.

Zam-Buk

FREE BOX.
Send this coupon and 10c stamp to Zam-Buk Co., Toronto, and sample box will be mailed you.

The Planet, Chatham, Nov. 23, 1906

The Wreckers of Scilly.

As far back as the time of Henry I. there were royal grants of "the islands and their wrecks," and frequent was the phrase in centuries following. With royal encouragement, why should they not be wreckers? One Sunday, long ago, in Scilly, service was in progress when there came the cry of "Wreck!" The men started from their seats. In a moment there would have been a stampede, but they covered back as the minister sternly thundered a warning. He strode to the door. Again his voice arose. "Let's all start fair!" he shouted, throwing off impeding cassock as he ran, while his congregation labored at his heels. Most curious of all wrecks was that of a bark, with a cargo of beads, that went ashore 200 years ago. So generous has been the ocean with this treasure that throughout these two centuries it has intermittently been tossing beads ashore, yet so frugally that the supply is not yet exhausted, for in a few minutes' search I found that some had been thrown there since the last search of the islanders.—Robert Shackleton in Harper's.

An Old Men's Bill.

The state historian of New York is compiling some records brought to light some amendments to laws confirmed at "ye General Court of assizes held in New York, beginning on ye 5th & ending on ye 8th day of October, 1670." The following catches the eye: "Whereas, divers complaints have been made of the great abuse of bringing dead hogs & Pork to this city & it not being discernible how long they have been killed by reason they are too often brought frozen, so not capable of being preserved by salt which tends much to ye disparagement of that commodity when sent abroad, and ye Merchants who Export it into Warner Climates, for ye reasons aforesaid it is Ordered, That henceforth no hog or hogs shall be brought dead to this place either for sale or payment of debts, except it shall be in cask well Salted & Packt according to ye Law, otherwise smokt or dried of which all persons are to take Notice, as they will answer ye contrary at their Perils."

Success the fruit of labor.

Thin Blood

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak nerves, general debility! We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks it will do for your case. Then do precisely as he says. We have no secrets! We publish Dr. J. C. Ayer & Co.'s formulae of all our medicines. Lowell, Mass.

COMMISSION AT OTTAWA

Find Fraternal Insurance Society's Shortage Near A Million

WOODMEN OF THE WORLD

Ottawa, Nov. 22.—The Royal Commission on Insurance took up the Woodmen of the World yesterday. When the investigation was resumed Mr. Shepley filed some statements to complete the evidence of the Commission. He also, at the request of Dr. Montague and counsel, added to the proceedings in connection with the Foresters, the defence of the doctor, in reference to the proceedings disclosed at an investigation in Australia.

D. Grant, an actuary, who had made certain actuarial calculations in regard to the Woodmen of the World, was examined. The witness showed that on Dec. 31, 1905, the business reported by the order was \$1,502,500, besides a monument at a cost not exceeding \$100, was promised to each member, which increased the amount by 9 per cent. Then there was a sick and funeral benefit. He made an exact valuation of 4 per cent. interest, and by the national fraternal congress mortality, of the insurance in force, and found that the reserve liability was \$1,017,100.

Mr. Blackadar of the Insurance Department made a calculation on the basis of the H. M. table of mortality and 4 per cent. interest, and the result was to place the reserve liability at \$1,026,188. The net assets of the order were \$1,027,274, and hence the present deficiency of funds was, by his calculation, \$86,986, and by Blackadar at \$86,914.

These figures for reserve liability and deficiency of funds were based upon the assumption that the rates of the order would be increased and maintained at the level of adequacy, otherwise the liability and deficiency would be much in excess of the amounts given.

Waiting For Events. Mr. C. C. Hodgson, head consultant of the order, who gets a salary of \$1,200 a year, was examined. He said that he had been trying to get the legislative committee to take action to increase the rates, but he thought it was possible to get the order to pass a resolution to increase the rates, but they were willing to see what the Commission would recommend. He thought that legislation would be the wisest and surest way to accomplish the necessary increase. There was an opposition on the part of old members to an increase of the dues.

Mr. Kent asked the witness if he was aware that the order was drifting on the rocks, and the witness answered that the drift was in the right direction.

A report of the opinions received from English companies regarding insurance business in Canada was read. It claimed that the companies in Canada conducted their affairs very incautiously. It opposed one man holding too many important offices in an insurance company.

FAITHFUL RESIST POLICE.

Barricade Churches, But They Are Overpowered By Troops.

Lille, Department of the Nord, France, Nov. 22.—A captain of the 8th Infantry, who refused to obey an order yesterday to break down the door of a church in order to enable the authorities to take the usual inventory, was replaced by a lieutenant. During the taking of the inventory the lieutenant was seriously wounded.

At Troyes, Department of the Aube, the inhabitants surrounded and barricaded their church, and the authorities attempted to take the inventory, but they were overpowered by troops. A priest, at Soligny, who violently resisted, was arrested and taken to prison.

SHIP LABORERS WON'T WORK.

Attempt to Force Ship Owners to Declare "Closed Shop."

St. John, N. B., Nov. 22.—The labor situation at the winter port is serious. The season opened yesterday with the arrival of the Donaldson liner Alcides, and the C. P. R. express of freight cars due Saturday, but the ship laborers are holding up the work of unloading because the shipping firms refuse to recognize the unions. The same thing happened two years ago, when the shipping firms brought men from Montreal and bent out the local unions, which are about 1,000 strong. The question of wages is not involved.

Inspected the Crossings.

Woodstock, Nov. 22.—The complaint of the City of Woodstock against the protection afforded by the Grand Trunk Railway Co. at Wilson street, Norwich avenue and Dundas and Peel street crossings of their main line and Dover tracks were heard before the board of railway commissioners of Canada yesterday. Considerable evidence was taken and the crossings were personally inspected by the commissioners, who, however, gave no judgment yesterday.

Will Buy Coal Elsewhere.

Montreal, Nov. 22.—The Dominion Iron and Steel Co. will now make arrangements to get a supply of coal elsewhere than from the Dominion Coal Co. This was the official announcement made yesterday by a number of the executive of the Steel Co.

Two Liberals In Montreal.

Montreal, Nov. 22.—Yesterday Mr. Walsh defeated Mr. Curran by 202 majority in St. Ann's Division, and Ald. Martin was elected in St. Mary's, over Mr. Laverne, the Labor and Bourassa candidate, by a majority of about 1,200.

GUARD SICK HEADACHE.

Have You Bought Winnipeg Lot? They are telling a story in Winnipeg these days, which, though it may not be strictly accurate in detail, is sufficiently pointed to be the end of a moral. The story runs that a farmer in the prairie surrounding Winnipeg got tired of farming, and thought he would appear more pleasant if he sat in the chair of a vendor of real estate. He conceived the idea of trading his farm for city lots, and went into Winnipeg for that purpose. The real estate agent that he met took up the tale enthusiastically and jumping into his auto whirled the farmer out to see the lots which he was willing to trade for the farm. They rode on for some time and finally the real estate man pulled up to a flourish and said: "There are the lots now, where is your farm?" "Oh," said the farmer, "we passed the farm three miles back."

WATER IN TURKEY.

Must Meet Many Conditions to Be a Perfect Beverage.

"Turks are extremely particular," writes a traveler, "in regard to the quality of the water they drink and are willing to be at much trouble and expense to obtain water of the kind they prefer. To be a perfect beverage water must issue from a rock, fall from a height, be of medium temperature, flow rapidly and copiously, taste sweet, spring in high and lonely ground and run from south to north or from east to west. The excellence of any water is accordingly determined by the number of these conditions it fulfills. It is remarkable how much pleasure Turks find in visiting a famous spring in the country, to spend the whole day beside it under the shade of trees, doing little else than drink carafe after carafe of the water as the elixir of life. Reports of this description abound on the shores and in the valleys of the upper Bosporus, and under such names as the Water of Life, the Silver Water, the Water Under the Chestnut Tree, the Water Beside the Hazels. The spectacle of the great gatherings there on Fridays, arrayed in bridal colors, seated tier above tier on the terraced platforms built against the green slope of the hill, the women above, the men below, all in the deep shade of the branches meeting overhead, forms a picture beyond a painter's power to reproduce."

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are kept in perfect health. Every ingredient entering into the world-famous "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement. The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal, but it also cures all the troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherry, Bloodroot, Marsh-mallows, and chemically pure triple refined glycerine.

The Common Sense Medical Adviser, in its 10th year, contains on receipt of 21 one-cent stamps to pay the cost of customs and mailing only. For 50 stamps the cloth-bound volume will be sent. Address Dr. B. J. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

Minard's Liniment Cures Garget in Cows.

PAINTS THE MAP RED.

Capt. Bernier Plants Union Jack on Some Islands and Finds Relics in the Arctic Regions.

Ottawa, Nov. 22.—The Marine Department has received a report from the Arctic, in command of Capt. Bernier. The captain went as far north as Lancaster Sound. He visited a spot where relics of Franklin's expedition were found and took some on board.

The Arctic is wintering at Pond's Inlet, at Baffin's Bay. He took possession of some islands, upon which he raised the Union Jack. Next spring the Arctic will push as far north as it is possible to go along the west coast of Greenland.

Mr. A. P. Low, of the Geological Survey, who commanded the Neptune's expedition of two years ago, considers that Capt. Bernier has accomplished most praiseworthy results.

Found McClinton Relics. New York, Nov. 22.—Herbert L. Bridman of Brooklyn, secretary of the Peary Arctic Club, yesterday received from Dundee, Scotland, an account of the work of Capt. Joseph E. Bernier, commanding the Canadian Government steamer Arctic, during the last summer among the Arctic islands, over which Canada has lately claimed jurisdiction.

Capt. Bernier sailed from Chateau Bay, Labrador, on Aug. 3, entering Lancaster Sound on Aug. 19. He reached Port Leopold, Bellot Island, on Aug. 23. On August 25, in sight of Bathurst Island, he was beset by ice. On Aug. 23 he reached Point Cockburn, where he found the relics and records of McClinton, placed there in 1891. He took them on board. When he entered Peel Sound on Aug. 31 he found it impossible to land on account of the ice.

The Northwest Passage. Capt. Bernier thinks that the Northwest Passage could be navigated with a ship as good as the Arctic, if there were provisions for two years aboard, to provide against it being nipped.

The monument of Sir John Franklin at Erebus Bay was found to be in bad condition. It was repaired and repainted on Sept. 2, the Arctic leaving with her flag at half-mast.

A commanding cape in Admiralty Inlet was named in honor of Lord Strathcona on Sept. 5. The Arctic went into winter quarters at Pond's Inlet on Sept. 9.

M'GILL M.D. IN PARIS MYSTERY.

Shot at Three Times While Signing Receipt For Debt.

London, Nov. 22.—Enquiries at 14 York Place, London, the address given by a doctor named Hebert, or Herbert, who stated he was shot under sensational circumstances by a man named Cesbron, by whom he had been invited to stay at his house in the Village of Brolls, near Fontainebleau, elicited that it is occupied by Paul Zottique Herbert, M.D., of McGill University.

Cesbron, it is stated, owed Herbert £360, and fired three shots while Herbert was signing receipt for the debt. Fortunately Herbert upset the lamp, and in the darkness escaped from the villa.

Mysterious circumstances connected with an alleged matrimonial agency are being investigated by the Paris police, who question Herbert's medical qualifications.

Herbert was not seriously wounded. Cesbron escaped, but was arrested. His real name is Guerin.

BRITAIN STOPS CHINAMEN.

First Attempt at Exclusion Under New Aliens Act.

London, Nov. 22.—The first attempt to exclude Chinese from landing in Great Britain is now occupying the attention of the immigration board.

Thirty-two Chinamen, from Hong Kong, who arrived at Gravesend on Monday, en route to Liverpool, were refused permission to land, the immigration officers basing their refusal on the Chinamen lacking means to support themselves.

The case was appealed to the immigration board, and after consideration, decision was postponed, the chairman of the board pointing out that this was the first case under the Aliens Act, passed last year, and was one of great importance.

Immigrants In Bad Plight.

London, Nov. 22.—(C. A. P.)—The liner Volca arrived in the Thames from Lohan with 500 transmigrants bound for Canada. Their condition is pitiable, as many had sold all to pay their fares and were most inadequately attired. Fifty Nestorian Christians from Persia for the Saskatchewan, and 17 British emigrants sailed from Liverpool for Canada under the auspices of the Salvation Army.

IT WAS NOT SMALLPOX.

Hamilton Strikebreaker Sick But Not With Dread Disease Says M.H.O.

Hamilton, Nov. 22.—The development in the strike situation was a sensational rumor—the company says "malicious"—rumor that smallpox had broken out in the strike-breakers' camp. Dr. Roberts, the medical health officer, has made an investigation, and found that the report is not true. He did find that one of the strike-breakers was ill, and his body was covered with rash, but several doctors decided that it was not smallpox. The patient will be taken to the hospital for treatment.

Things are at a standstill until the Ontario Railway and Municipal Board arrive to-day.

The first question the board will be asked to decide is whether the men are justified in going out on strike. The only thing between the men and the company is the question of talking back to the employees.

Yesterday morning William Morgan and Robert Rankin, coal wagon drivers, were acquitted of the charge of blocking the street so that cars could not pass by their wagons.

When passion is on the throne reason is out of doors.

The plain man is often the one the women fancy.

The best way to defy sin is to deny self.

Gray's Syrup of Red Spruce Gum

For Coughs and Colds.

Relief at Last.
Housekeeper—I hear your brother, who died in California, left you \$1,000. Dinah. That will be a great help to you. Washday—Deedy it will, missis! Ah! been needin' a planner an' a phoenograph an' a oil paintin' ob mahsalf in a gilt frame fo' yeahs, an' now, bress de good Lord, Ah kin hab 'em!

Every man will find his own private affairs more difficult to manage and control than any public affairs in which he may be engaged.—Lord Melbourne.

Zossels, Nov. 22.—The Government of the Congo Independent State has accepted the recommendation of the commission of enquiry into the administration of that state, and has abolished compulsory labor in the district of Katanga. Hereafter the negroes will pay their taxes in money.

London, Nov. 22.—A Dresden china figure, 11 inches high, representing a lady wearing a huge crinoline and carrying a pug dog, with another pug dog at her feet, brought 1,000 guineas (\$5,250) at Christie's auction rooms here Tuesday. This group was made during a famous period in the history of the Dresden factory, from 1785 to 1795.

This is the season's most popular model in Men's Sack Suits.

It is a

"Progress Brand"

creation. Distinctive and elegant.

Whenever and wherever you buy

look for the label that protects.

C. AUSTIN & CO.

Easy Answer.
A Liverpool paper tells the pathetic story of one A., who is compelled to grow a beard to ward off pneumonia and other ills. The woman with whom he has fallen in love, however, declines to marry him unless he will shave. "What," asks our contemporary, "should A. do?" The answer seems easy: Keep the beard and cut the woman.

Friendship.
There is a certain development of love in which the covetous longing of two people for one another has yielded to a higher mutual thirst for an ideal above them both. But who has found such love, who has experienced it? Its true name is friendship.

On the Safe Side.
Schroeder (to his neighbor, a widower)—Why did you send your housekeeper away, since she was such a good cook? The widower—She made such splendid puddings I was afraid I should marry her.

A Possible Exception.
A high schoolteacher was examining the physiology class.
"How many ribs have you, Charles?" he asked.
"Wny—er—I don't know," said Charles.
"Didn't the text books state?" he then queried somewhat sharply.
"Yes—oh, yes—of course, but, you see, I'm long waited."

Ben Butler's Retort.
An old lawyer in speaking about General Ben Butler said: "Ben Butler was a terror and a torment to the judges. On one occasion Judge Sanger, having been bullied and badgered out of all patience, petulantly asked, 'What does the counsel suppose I am on this bench for?' Scratching his head a minute, Butler replied, 'Well, I confess your honor's got me there.'"

Attainments of any sort do not come without something in the nature of toil.

SURPRISE A PURE HARD SOAP.

HOUSE WORK.

It is easy to keep a hard-wood floor as clean and shiny as a mirror by using "SURPRISE" Soap. You can make a suds in a twinkling with half a bucket of hot water and a little "SURPRISE" Soap. Then just go over the floor with a scrubbing-brush, lightly. Don't dig, or make your back and arms ache by rubbing. "SURPRISE" Soap will do the work quicker and easier and cheaper than you can. It gets between the dirt and the wood fibres and makes them separate. All you have to do is wash up the dirt with water. "SURPRISE" Soap is just as good for laundry as for house cleaning. It's a pure, hard soap of the highest grade, and costs no more than common kinds.
