PHOSFOZONE !

The new Medicinal Combination, for Stomach, Heart & Liver Complaints.

Montreal, March, 1877.

Messrs. EVANS, MERCER & CO.

Gentlemen,—Having taken the "Phosfozone" for general debility and over-taxation of the brain, I think it only fair and just to bear my testimony to its beneficial effects. It was merely an experiment on my part, lacking all faith in the preparation, but I at once, after a few doses, experienced a pleasant effect which caused me to continue its use, and I think, in time, the great Desideratum required by all business men, particularly those of sedentary habits, and well adapted for strengthening weak and nervous constitutions.
Yours truly, R. S. LATHAM,
Chemist, Montreal.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Dead in Each Other's Arms.

[From the Philadelphia Times.]

PITTSBURG, September 26.—Abner James and his wife did not live happily together, although they had been married but fourteen months. Recently business troubles have added to the unhappiness of the couple, and a separation was looked for. Yesterday their disagreement reached a climax, and Mrs. James left home, vowing she would never live with James again. She started for the residence of her mother, Mrs. Lacock, a widow, about eight miles from the city, and was followed by her husband. They left the city together in the same train on the C. and M. V. Railroad. They got off at Delcarbe and started to walk together to Mrs. Lacock's. When last seen alive they were walking together and apparently in an excited condition. They were walking up the lane leading from the public road towards the house, but they never reached there. This morning about 8 o'clock the bodies of both were found lying in a fence corner, about 300 yards from the house. The husband had a bullet hole in his breast, and the wife one in the temple and another in the region of the heart. They were tightly locked in each other's arms, and in the left hand of the wife, held as in a vise, was a revolver, with which it is supposed the dreadful deed was done. How they came to their death is, in a measure, a mystery, as no one saw the fearful tragedy enacted. The supposition is, however, that the wife first shot the husband, and then put the two bullets into her own body before death came. There was no indication of any struggle, and it is supposed that it was a plan mutually agreed upon to put a final quietus upon all their earthly sorrows.

A writer in the American Agricultural says:—" Many of our best farmers in Connecticut use leached ashes, imported from Canada at a cost of from eighteen to twenty-eight cents or more per bushel, in preference to all other fertilizers, except barnyard and stable manure." If New England farmers find it profitable to purchase leached ashes for fertilizers in Canada, and to bear, in addition, the price paid for cost price to Canadian farmers? Are their lands so exceedingly fertile that they can afford to send away one of the best fertilizers to be obtained in the country for the sake of a few dollars they will receive in exchange? Ashes are not so lightly valued by any other agriculturists as they are here. In Ireland not only is every shovelful of ashes from their turf fires carefully saved as a most valuable fertilizer, but even earth ferns and headlands are burned in large ash fires to obtain the ashes for manure; and these ashes are not equal for the purpose to wood ashes.

We know from experience that ashes is a fertilizer of great value to all our farm and garden crops. We have used it on the growing cereals and root crops, and in all cases with advantage. To the potato crop we have found it especially beneficial, and as a top-dressing for lawns and meadows. All who have had much practical knowledge of the benefits to crops generally will fully agree that the analyses by chemists do not rate constituent element more highly than is borne out by experience. From analyses by Prof. Johnson and others, the average percentage of plant food is from forty-seven to fifty pounds per one hundred pounds-weight of wood ashes. A dressing of fifty pounds of unleached ashes to the acre would give 200 bushels of potash, 768 pounds of lime, 120 pounds of magnesia, 48 pounds of phosphoric acid, and 7 pounds of sulphuric acid.

Two fashionable marriages of interest to Canadians. At Hamilton, Mr. C. J. Ottaway, the famous English gentleman cricketer, and Miss Marion Stinson, with whom he fell in love during the visit of Mr. Grace's team in 1874. At London, England, Mr. Henry Sandfield Macdonald, son of the late Premier of Canada; and Miss Florence Molson, of the great family of brewers and bankers at Montreal. There was a most unsavory scandal about the postponement of this marriage a year or so ago, ending in several libel suits, retractions and arrests for slander.

JULIA WARD HOWE tells of six sisters, all unmarried and living together, the daughters of an Earl, now dead, who refused to allow any of his younger daughters to marry until the eldest should find a husband. She never did find one, and one at least of the younger sisters, who was asked to marry a man in a suitable position, was obliged to submit to the cruel proscription, and remained single until after her father's death, when she declared herself too old to enter a new condition.

The property left by Thiers, besides his library and objects of art, which are left to the state, amounts to $3,700,000. It comprises the hotel of the place St. Georges, Paris, three neighboring houses, in a house de l'imperatrice, mining and railroad stocks, and French, Russian and American Government bonds. Mme. Thiers is his sole executor. Among his minor legacies is one of $450 a year to Louis, his valet, and $2,000 a year to be divided among several servants.

FIFTEEN THOUSAND dollars in gold was paid for a watch chain and locket to a jeweller in Manchester, England. They contain 340 diamonds, and in the centre of the lock is a stone of eleven karats. There are twenty links to the chain, all of which are studded with diamonds, and the locket contains the monogram of the owner.

" Mount Constable John's horse quick !" called a detective to Deputy Coroner Britt; " there's a woman fell dead in Pinch, and Squire Quigley will get ahead of you."

Away galloped the Coroner, and arriving at the place, he sprang from the saddle and rushed into the house. " Hus-sh !" called one of the group as he entered.

" Then came the voice of Squire Quigley: " She's going now—she's gone!" Looking up, he met the eye of the foiled Deputy Coroner. " Got a jury?" sneered the D. C. " Mike Butler is out getting one," replied the Squire. Then, politely, to the D. C. : " Take the inquest ; I didn't want to serve, sir." " Neither did I till she died," replied Britt, briskly.

It looked a little cold-blooded, but competition is the life of trade.

Two or three doses of Sheridan's Cavalry Condition Powders will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

There is no disease flesh is heir to more troublesome to manage than rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is Johnson's Anodyne Liniment.

Bryan's Wafers have now been in use over twenty years, hence it cannot be said that they are on trial. They have been thoroughly tried, and pronounced (on the authority of those whose health and lives they have preserved) to be a harmless and eminently salutary preparation, and, taken in season, they will invariably cure colds, coughs, sore throat, and all Bronchial affections. One fair trial will convince the most skeptical. Sold by all medicine dealers at 25cts. a box.

From a physician.—Messrs. Seth W. Fowle & Sons, Boston, Gentlemen,—For nearly two years my wife was troubled with a lung difficulty. After enduring the trial of much medicine, she was persuaded to use Dr. Wistar's Balsam of Wild Cherry. After using two bottles she experienced great relief, and after taking six bottles the wife was freed of her cough. With regard to the experience of others, I would recommend Dr. Wistar's Balsam of Wild Cherry.—J. T. PAYNE, M. D.
50 cents and $1 per bottle. Sold by all druggists.

Father Drumgoole's Protegee.—In New York lives a very worthy Catholic priest, whose heart warmed years ago towards the friendless urchins who circulate the great newspapers of the metropolis. Agents as they are, in their small way, of some of the most prosperous institutions in the country, until Father Drumgoole rose up as their advocate two-thirds of the little host lived as carelessly as wild beasts. He established a refuge for them, supplied the lacking care and protection of their own parents, saw that they were clean and well-clothed, and when they came to him, cut, wounded, and bruised, he applied Giles' Liniment Iodide of Ammonia to their sores. This is the only surgery that he uses, and his honorable name is one of its strongest endorsements.

Somebody says, " There is something peculiarly attractive in a horse. His intelligent eye and ear, his lofty carriage, his free and graceful motion, his vast strength, his obedient temper, and indispensable use all endear him to us. We have to look at his fine proportions, and take in the inspiration of his energy and power," but its only when the horse is properly cared for, that he will exhibit these points of attraction, and without which he is of little value. A package of " Darley's Condition Powders and Arabian Heave Remedy," should be in the possession of every man who owns a horse, to be used in case of emergency. Don't fail to get it. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont. proprietors for Canada. Sold by all Medicine Dealers.

Read Carefully.—Samuel Osborne, Sophiasburg, says—" I was affected with Dyspepsia for nearly four years, my lungs becoming affected towards the last. I was induced to try the "Shoshonees Remedy." After using three or four bottles I felt much better, and gained strength rapidly, my health improved steadily and rapidly, and when I had taken three or four bottles more, I was quite recovered to health and strength, and have experienced better health than forty years before. I had been under the treatment of a number of physicians before, but never received any material aid until I used your remedy."

A. McKAY, Truro, N. S., says " He was very bad with the Liver Complaint, but used the "Shoshonees Remedy," and in a month was as well as he had ever been in his life. I am now in business and wish you to send me three boxes by express."

A. Woop, Gananoque, says—"That he has tried the " Remedy" for Liver Complaint and Dyspepsia with great success. I have also used the "shoshonees Pills," and find that they are as good as any I ever tried."

Rev. JOHN SCOTT says—" Mr. McKenzie Botting suffered from an attack of rheumatism, and was unable to move without help; but after taking a few bottles of the "Shoshonees" was able to walk as well as ever." Price of the Remedy in pint bottles $1; Pills 25 cents a box.

Electricity ! Thomas' Excelsior Eclectric Oil—Worth Ten Times its Weight in Gold.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured cricks in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical : J. Collard, of Sparta, Ont., writes, " Send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you, and want more now; its effects are truly wonderful." Wm. McGuire, of Franklin, writes, " I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, " Please forward 6 dozen Thomas, Eclectric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville writes, " Send at once a further supply of Eclectric Oil, I have only one bottle left, I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, " Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P. Q., write, " The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply of Eclectric Oil."

BEWARE of Imitations.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and Take no other. Sold by all medicine dealers. Price 25 cts. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.
