Rye. The movement in the local market has been small since our last, but firm markets outside, and small supplies here have contributed to keep prices firm with us. All the grain offered has been wanted, and of some sorts still more would have been faken. In all cases prices have been well maintained, and in some they have advanced. The seeding season having now set in, it seems probable that small supplies will remain the sale for a short time, after which period we are likely to understand how stocks in farmers hands may be. Those here are running down in most cases. Monday's report was as follows:—Flour, 2260 bbbs.; fall wheat. 94,800 bush; spring wheat 103,459 bush; oats, fill bush; bariey, 29,291 bush.; peas, 50,821 bush; rye, nit bush; sarginst the corresponding date last year:—Flour, 2500 bbbs.; fall wheat, 29,464 bush; spring wheat, 185,156 bush; oats, 200 cush; bariey, 194,445 bush; peas, 17,747 bush; rye, 19 bush. English quotations show an silyance of 2d, on red winter, and No. 1 white wheat; of 'id,' on No. 2 white, and of 2d. on corn: with a fall of 2d. on peas and 'id. on spring wheat. Markets have been decidedly firmer throughout the week; country markets were at the close reported firm; and an advance was quoted on cargoes which is a way that they might fairly be expected to have forgotten by this time. The quantity of wheat and flour in transit for the United Kingdom on the 17th inst. was 2,200,000 quarters, against 121,000 quarters on the 3rd mat, and 2,479,000 quarters on the 3rd mat, and 2,479,000 quarters on the principal ports on the lat instant were 2,004,000 quarters, against 2,124,000 on January I, showing a reduction of 748,000, or about 25 per cent, in the first, three months of the calendar year. Flour stocks, also, have been decreasing, save in London. This decrease of stocks was expected to continue during April and, as well as we can judge from cable reports of supplies, the expectation seems to have been justified. Stocks on the Continent, also, were decreasing; but the tendency of tr Rye ... The movement in the local market has been small since our last, but irm markets outside. Dinckens, per par Ducks, do. of—if even equal to—those held in former years at this season. New rolls have been coming forward fairly well, but any of good quality offered have soid readily, usually at 18 to 19c. There seems now no probability of the stocks on hand being moved until after the opening of navigation throughout, when we may find some demand for them from the Lower Provinces. Street receipts have again failen off, and prices have been steady at 25 to 27c. for choice pound rolls and 20 to 23c. for inferior: and 19 to 22c. for tubs and crocks of dairy, with scarcely any of the latter offered.

CHERSE—The first make of the new season has come forward and has been offered at 133 to 134c.; and old has gone off as before at 11 to 14c. for small lots of the, and 124c. for inferior.

EGGS—Receipts have failen off during the last few days, when prices have been rather firmer; closing at 15c. for round lots. Street receipts small and 16 to 17c. paid.

PORK—Very quiet, but held more firmly in sympathy with the rise in the western markets, closing at \$21.00 for small lots.

BACON—Has remained inactive; buyers have continued to take only enough for immediate wants, and holders have not been inclined to push sales. The chief movement has been in case-lots of long-clear, which have usually soid at 11c.; a few cases of Cumberland may also have gone at 10c, but these must have been very few. Hound lots of long-clear have been offered at 19c. HAMS—Have continued in steady demand and have been going off at 12½ to 13c., but generally only in small lots.

LARD—Seems rather quiet and easy. Tinnets in lots of 25 to 50 tinnets go at 12c., and small lots in 124c, for tinnets, and 13c for pails.

Call'Skins—Have been coming forward fairly well; green have been unchanged in price, and cured sold in small lots.

Shekfyskins—Receipts have been on the decrease; but still as many as were wanted. Prices steady; choice green usually \$1.25, with a few going slightly higher country lots ranging from 75c, for dry to \$1 to \$1.10 for green.

Wool—Offerings have been very small, and prices steady. There was one lot of 5,000 and another of 1,600 lbs, of selected fleece sold at 20c.; and small lots medium and coarse brought 15 to 16c., which prices would have been repeated had any more been offering. Super quiet, as there has been very little demand from the factories.

Tallow—No change in the situation; offerings have been of fair amount and sufficient, being taken at 63 to 7c, for rendered, and 34c, for rough. No movement reported in car-lots, but holders firm.

W. Dur's empound of t'ure out ver it and Lime. The advantage of this compound over the plain oil is that the nauseating taste of the oil is removed and the whole rendered palitable. The offensive taste of the oil has long acted as a great objection to its use: but in this form the trouble is entirely obviated. A host of certificates might be given here to estify to the excellence and success of "Withor's Cod-Liver-Oil and Lime;" but the fact that it is prescribed by the medical faculty is sufficient. offered by any publisher in the world.

The sender of the last correct answer will get number one reward, the gold watch. The next to the last, number two reward and so on, till the whole of these last or consolation rewards are given out. Don't overlook the fact that the letters must all be postmarked at office where mailed, not later than the closing day of this competition, which is May 27th. The farther you live away from Toronto the better your chances are for any of these consolation rewards. It will therefore not be possible to announce the successful ones, in these consolation rewards, till thirteen days after the close of the competition, so as to give letters, even from the most remote points, time to reach TRUTH office. The full list of the prize-winners in the first and middle competitions will appear in TRUTH of 30th of May. Post-office address, and street and number, when in the city, will be given of all the prize-winners in order that all may be satisfied as to the genuineness of the whole affair.

be satisfied as to the genuineness of the whole affair.

The interest now taken in these Bible competitions is somewhat keener than at first. It is the aim of the propretor of TRUTH to increase the study of the good old Book, somewhat out of fashion nowadays, and we are certain that he is accomplishing what he set out to do. We wish TRUTH a still greater measure of success than it has even yet enjoyed. It is one of the brightest and best weekly magazines that come to our sanctum. Every issue consists of 28 pages of the choicest reading matter, and contains something to interest every member of the family. The music, the fashions, the household, the health, temperance, farmers', young folks', and ladies' departments, the stories, short and serial, the Bible enigmas propounded every week (and prizesof valuable booksoffered), the short, sharp pointed editornals articles on current events, make TRUTH altogether one of the best investments that can be made for a six months' or a year's subscription. Address S. Frank Wilson, 33 and 35 Adelaide street, Toronto, Canada, and don't delay after reading this, but send in the answers and doilar at once; and whether you get a prize or not you will be well pleased with your investment. You will certainly get a reward if your answers are correct and they arrive in time.
