

Daughters Meet.

The Daughters of the Empire held a meeting Saturday afternoon in the British Hall. The object of the gathering was to select the delegates to attend with the Victoria League the conference at London on June the 8th and 9th at the Royal Institution. Amongst those present will be representatives of the Guild of Loyal Women of South Africa and Imperial Order of the Daughters of Canada. Miss Goodridge and Miss Macpherson, who are now in England, were selected. A letter was read from Dr. Brehm in which he expressed his willingness to do everything in his power to forward the objects of the society. A bag and cushion sale will be held in the Presbyterian Hall on Empire Day in order to get funds to establish a building for the encampment of tuberculous patients in the first stage of their illness. The proceeds of the recent course of lectures it was announced had amounted to \$150. An offer to provide one of the outdoor sanatoria was made by Mrs. J. S. Mann. They will be erected from designs supplied by Dr. A. E. Lyster, of Chelmsford, England, and will have raised wooden floors and wooden roofs. The walls will be canvas and will be arranged so as to open and close easily, according to the condition of the weather. The site for their erection will be selected shortly. Mrs. R. G. Rendell's kind offer to put a field in the suburbs at the service of the Daughters could not be availed of because there is not an ample supply of water there. The ladies who presented bouquets to the Queen when Her Majesty was in St. John's as Duchess of York in 1901 will form a Queen's Garland chapter in connection with the ladies of Canada, who did a similar offer there on that occasion. The Queen has made a request for their autographs and they will be subscribed to a special address and forwarded to the Queen on Coronation week. Those who have the honor in this city are Miss V. Whiteway, Miss M. Winter, Miss Ethel Fox and Miss E. Herder. The address will be enclosed in a garland of roses each one representing one of the ladies, and will be forwarded as a tribute of love and loyalty to the Queen. There will be a special stand for the Daughters in London at the Coronation where the Newfoundland representatives will have seats. Judging from the enthusiasm displayed at the meeting on Saturday the programme for the season will be a successful one.

Skin Like Velvet

Is greatly to be desired and is very attractive. There is one sure way of making your skin like velvet, and that is by using Snow Cream. It is neither sticky nor greasy, and the general verdict is "It makes your skin like velvet." W. T. COURTENAY, the Prescription Pharmacy, corner Duckworth and Prescott Streets, sells the Cream at 25c per bot.—ap21f

Fogota Arrived.

The S. S. Fogota, Capt. B. Barbour, returned from the Fogota route yesterday afternoon, having been down as far as Change Islands. She brought no freight, a small mail and eighteen passengers. Those in saloon were—Miss Hann, S. Roberts and Miss C. Roberts. The return trip was pleasant and fair weather prevailed. Going down, however, almost daily spurts of unfavourable weather were met, and on Tuesday night she was forced to harbour all night at Seldom-Come-By on account of thick fog. The ship reached Change Islds. Friday evening and started on the return trip at 6.30 p.m.

Creates Sensation.

Saturday evening on Barte's Hill a man who had in his possession a dangerous looking knife and threatened to use it, caused a sensation on that thoroughfare. He sought a man whom he alleged owed him money and refused to settle. He also went searching for him on Curdigh Street, and decamped when he heard the police were coming. It is thought that the man is not right in his mind, and the belief is that had he acted the party he was looking for he would have used the knife on him unless quickly disarmed.

Harbor Mission.

At 7 a.m. yesterday the G. M. R. C. began their annual mission work on the harbor of St. John's, distributing tracts and giving invitations to church. Proceedings began in church with a celebration of Holy Communion, which was attended by the boats' crew and members of the Bible Class. They then proceeded to Ayre & Sons' wharf where Rev. J. Hill delivered an address before the boat was launched. Mr. Robert Pike then stepped on board with his crew and began the visitation of the schooner in the stream and at the pier. Last year the number visited was 789.

Uncle Walt
THE POET PHILOSOPHER.

I met the man who owns the mill, joy riding with a coachful, and stopped his motor on the hill, and said to him, reproachful: "A hundred damnsels weave and spin, for you, for paltry wages; and will they all be fastened in when fire around them rages?" "I guess," he said, in accents hurt, "I guess they will be, sonny; for human lives are cheap as dirt, but fire escapes cost money. The people do not realize the burden rich men carry; the way my hard-earned money flies would paralyze Old Harry. My auto always needs repairs, my yacht is always yawning for coats of paint or easy chairs or miles of silken awning. To talk of fire escapes for mills is really rather funny, for human lives are cheap as pills, but fire escapes cost money. My bill for wines alone, my friend, would scare you into trances, and there are suppers without end, and forty kinds of dances. A trip to Europe every year requires a lot of hoodle, and gems I bring to loved ones here all cost like Yankee Doodle. I cannot throw my scads away on mill equipment, sonny; for human lives are cheap as hay, but fire escapes cost money."

McMurdo's Store News.

MONDAY, May 8, '11. Sutton's Mignonette, among their very finest stocks of flower seeds. We have four varieties: Giant, Spiral, Sweet Scented, and (finest of all) Cloth of Gold. Those who grow Sutton's Mignonette will find it far superior to the kinds ordinarily sold, being as it is specially grown and selected. Price 15c. a package. Now is the time to plant in Lily of the Valley Bulbs, and if planted now they will be in bloom before the end of June. The Lily of the Valley is as everybody knows a very dainty and sweetly perfumed flower, and will repay cultivation, being easy to grow and very hardy. Price 20c. a clump.

Portia's Fishery News.

From Capt. Fitzpatrick of the Portia we learn that the fishermen at Rose Blanche, Port aux Basques and neighbourhood are getting a deal of codfish which are very plentiful and of good size and quality. Herring bait is to be had in abundance, and also at N. E. Arm, where the big hauls of herring were made last week. Fourteen of the Cape St. Mary's fleet baited Saturday morning and will leave to-day likely for the Cape. The season of 1911 at that famous fishing resort, Capt. Fitzpatrick, whose experience in fishery matters appertaining to Placentia, renders him an authority on the subject, has a good opinion of the fishery and as there is plenty of bait should present fine weather prevail he believes good initial fares must be secured at the Cape. The boats should return about a week hence from the Cape.

Dominion Inspectors at Cape Race.

Special to Evening Telegram. CAPE RACE, To-Day. Wind N. N. W., weather fine and clear. The S. S. Sandefjord passed in at 5.45 a.m. The Canadian Government steamer Montagny arrived at Cape Race, and the inspectors, Messrs. Myrick, Rabbits and Gosse leave here on Montagny this p.m. Mr. Myrick who is accompanied by his wife, takes charge of Cape Race Station; Mr. Gosse, of Harrington, and Mr. Rabbits of a station as yet unknown here. Bar. 29.42; ther. 44.

Whaling Voyage Bad.

The Portia reports that the whaler Hump which is operating at Dublin Cove, had only 5 whales to her credit up to a couple of days ago. The Cabot, fishing at Balena, has only 2 fish, and the vessel fishing from Rose au Rue has only a couple of fish to date. The big fish are anomalously scarce to date this year.

Men Going to Work.

The Portia yesterday brought down over 100 men from St. Mary's, St. Bonaventure, Trepassy, Roseau, Fermeuse and other parts of the Southern Shore, all of whom are going to Bell Island, Sydney and on the branch railways in quest of work. All are fine, hardy, able-bodied men and will have no difficulty in securing employment, as labourers are now badly wanted in these centres of industry.

A freight train arrived from Port aux Basques yesterday morning with nine horses and thirty-three head of cattle for Mr. J. Judge. Curard's Liniment Cures Colds, Etc.

Cable News.

Special Evening Telegram.

LONDON, To-day. Unless the ship-owners organization gives a satisfactory reply to the demand of the National Seamen's and Firemen's Union of the United Kingdom, an attempt may be made to bring about a world wide strike of crews in both steamers and sailing ships. A year ago, the Seamen's Union asked the Federation to agree to the formation of a National Conciliation Board, but that matter of importance could be discussed. The Federation replied that the owners were unable to entertain the proposal. Since then nothing has been done to settle grievances.

Special Evening Telegram.

MEXICO CITY, To-day. President Diaz last night issued a manifesto to the people of Mexico, declaring that he would resign the Presidency as soon as peace is restored. This means that peace is virtually assured. He demands that Francisco Madero make an announcement of his intention, while admitting that the Government has agreed to practically all the demands of the insurgents. Madero says, "While Diaz is in power, all laws will be fictitious and all promises tricks of war." To Mexico City within a month is the programme set forth by the rebel leaders.

A Big Blaze.

"Prowse's Folly" Destroyed Saturday Night. Shortly after 9 o'clock Saturday night citizens were surprised to notice the old hospital building in Ross Valley on fire, and by 9.30 the fabric was a mass of flame and illuminated the Narrows and the general surroundings for upwards of two hours. From all vantage points and from the city wharves crowds watched the progress of the blaze which afforded a splendid spectacle for the beholder. Though the hospital was burned down by 11.30, it smouldered till 2 a.m. yesterday. The old building was put up in 1892 and was erected there to take cases of infectious disease such as cholera, small-pox, etc. The building has been of little or no use since its inception. Three of the seamen of the Grace who arrived from Europe with small-pox on board in 1899 were placed there, and a domestic from the Crosbie Hotel a few years ago when the disease developed there. When repairs were being made to the Signal Hill Hospital, doors, windows, etc., were taken from it, and it was left open to any who might go there. It was very difficult of access and few would care to go there by land there being only a narrow path to the place. Up to yesterday it could not be determined if the fire was or was not the work of an incendiary. Mr. Stamp of the Battery, kept an occasional watch on the place, but no suspicious people were there Saturday, and it would take a man of great nerve to go to the place after dark. When the fire started Const. P. Devine doing duty at the Signal Hill Hospital, hastened to the scene but could only look at the conflagration. I. G. Sullivan despatched Sgt. Noseworthy and Constable Keefe to the scene also and they kept about there till after 11 o'clock when they returned. The police are now investigating the occurrence and the belief is that boys went there Saturday and lit a fire and this smouldering set the woodwork on fire during the night and caused the blaze.

Fire Alarm Yesterday.

At 12.25 p.m. yesterday an alarm of fire was turned in from box 226 for a blaze on Cabot Street, at the residence of Mr. Timothy Duggan, No. 49. The wind blew a gale from the westward and had a fire in that section made any headway yesterday serious consequences must ensue. A spark falling from the chimney caught in the shingles and quickly lit up. Mr. Morris and others ran up a ladder to the room and procuring water in buckets soon flooded the fire out. Several rows of shingles were also torn off the roof to prevent the fire spreading. The Central and Western firemen responded but their services were not required.

Sick People Arrive.

Const. Gardiner arrived here by the Portia yesterday from Harbor Breton with a woman who has been insane for some time past. Const. Barlett came along on the ship also with a woman patient. She is a resident of Belleoram, is also mentally affected, and both patients, who had violent periods, were driven to the Lunatic Asylum. A man named Skinner, was also brought along in the ship from Richards' Cove suffering from a tumor on the neck. He was taken to the Hospital on arrival.

No Good to Catch Fish.

Editor Evening Telegram: Dear Sir,—As I was asked to go snowballing snow some time this winter, I went along with the other men, not knowing when or how we were going to be paid. We thought it would be through the Chairman of the Road Board, but it was not so. Now, Mr. Editor, I thought it very nice when Mr. Whiteway sent something of his own. I received a Halifax Evening Mail of March 10th. A few more received the same paper. Another man got a Halifax Morning Chronicle from Jan. 25th. I don't say that we shall not get more for our work, but if we do not it will matter much. Was it not a nice gift, sir? But I must say to Mr. Whiteway a Nova Scotia paper is no good to catch fish or to sweeten tea in Newfoundland. ROBERT EMBERLY. Bay-de-Verde, May 4th, 1911.

Makes Hair Grow.

McMurdo & Co. has an invigorator that will grow hair or money back. The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, it cannot be long before the spot appears. The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed. A large bottle for 50c.

Passengers From Sydney by Invermore

The S. S. Invermore, Capt. Delany, arrived at Port aux Basques from Sydney at 8 a.m. yesterday having made the run in 8 hours and 20 minutes. She brought a full freight and these passengers in saloon:—J. F. Downey, J. W. N. Johnstone, F. McCabe, Mrs. J. Patten, Geo. Neal, J. E. Hunt, W. C. Harvey, E. W. Taylor, R. Rogers and H. Ross. The express is due this afternoon. ICEBERGS PLENTIFUL.—The s.s. Carthaginian's officers report that icebergs are anomalously plentiful on the route from Philadelphia about 100 miles along this coast. They are very thick from Cape Race down to Cape Spear. Mariners are warned to keep a sharp lookout. Stafford's Liniment will cure all aches and pains, etc. Buy a bottle for 15c and prove it.
