Montreal and Maritime Provinces-A. McKim & Co., Montreal, Que.

London, Friday, March 7.

IN SCRIBNER'S MAGAZINE a writer undertakes to tell "how the boomerang is made." Charley Rykert has yet time to get a copy and study up the subject before Sir Richard Cartwright arraigns him for laying by Dominion timber limit proceeds for his old age. The member for Lincoln is in the soup, so far.

HAMILTON TIMES: The Legislature has indorsed the Ontario Government's Bill to give Provincial aid towards the establishgive Provincial aid towards the establishment of county poorhouses or industrial farms. We regret that there is any need for such institutions, but the necessity is sure to increase so long as the Dominion Parliament frames its system of taxation to make the poor poore and the rich vicher. When the poor poorer and the rich richer. When a truly Liberal Government gets into office at Ottawa, the poorhouse population will thin out, for then workers will be able to save something out of their wages and make provision for their own old age.

THE Tory managers do not like the system of balloting pursued at the elections for the This is to be regretted. But inasmuch as the system has been in use for years in this Province without a single scandal arising from it, and the same law has been enforced in Great Britain for sixteen the attention of the Free Press, seized with years, with no prospects of a change being made, we are afraid that it will be some made, we are afraid that it will be some little time before the people of Ontario demand a change. The Ontario ballot is all right. If it is not so regarded by our Tory friends, will some responsible follower of Mr. Meredith tell us of a single authentime to the stationary of the some responsible follower of of cated instance in which a vote was proved to have been corruptly menaced by those brought down, and every important Govcharged with the administration of the law governing polling? We have asked this question before, but the critics of the Mowat Government have fought shy of it.

MINING LEGISLATION.

Two bills are now before the Local Legislature on the subject of mining. One mines, and appears to be very satisfactory in all its provisions. It is based on the British regulations, but embodies also regulations adopted in some of the Australian colonies; and although it may be said that the condition of the mining industry here is hardly yet on a scale to call for such ducing laws for the well-being of miners is record has proved. This is the wise the duty. of accidents. and humane policy, and we think Mr. Hardy is to be warmly commended for the step he has taken. The bill also provides important Government measures till statistical returns yearly to the Govern-

The other bill provides for the staking out of mining claims in certain districts of the Province to be defined by Order-in-thwarted by the Liberals. It is a liberal and sensible measure, simple in its provisions, and well calculated to serve the interests of that worthy class, the explorers and prospectors. We hope to see both of these bills carry this session. They will serve a very useful purpose, and we do not doubt that they will greatly promote mining enterprise.

HEROICS IN OPPOSITION.

The Toronto Empire recently broadly asserted that Hon. C. F. Fraser, Commissioner of Public Works, had been guilty of corrupt acts in connection with the erection of the new Parliamentary buildings. This Tory organ is managed by Mr. Creighton, M.P.P., and Hon. Mr. Fraser holds him responsible for the charge. Mr. Fraser challenges the libeler to make good his altegations before a commission—if he dares. The Commissioner of Public Works has been sixteen years in office, and not one charge of corruption or of misappropriation of public moneys has ever been established against him. We believe that the honorable gentleman is now falsely accused; at all events, Mr. Creighton refuses to adopt means to establish his charges and that seems to be sufficient to vindicate the Minister, if he required any vindication.

We rather think the member for North Grey has profited by the experience of his leader, who on one memorable occasion—at Mount Brydges—arraigned the late Hon. T. B. Pardee "before high heaven" (and a Tory gathering) as a most corrupt administrator. Mr. Meredith promised to lay before the Legislature such evidence as would drive the Minister from public life; but from that memorable outburst to the dying day of the member for West Lambton not a word of the dreadful indictment was heard in the House.

Is it not reasonable to believe that foolish Mr. Creighton took a leaf out of Mr. Mcredith's book, and stage-thundered through the subsidized organ for the sole benefit of the americal greaders of that the subsidized organ for the sole benefit of the americal greaders of that the subsidized organ for the sole benefit of the americal greaders of that the subsidized organ for the sole benefit of the americal greaders of that

citizens, be they Protestants or Catholics, properly. hould be ashamed to acknowledge. Lord Durham called it a Tory conspiracy, and very many of the lodges have been used as if their directors were determined to ad-

mit the truthfulness of that Governor's assertion. These lodges have been permanent committees of the Tory party, always working for that party from one election to another, and for that reason alone they they now are had we never seen an Orange

NOTHING TO DO.

regalia in our streets.

Our city contemporary recently berated the Liberals in the House of Commons for wasting the time of Parliament in discussing the expensiveness and uselessness of the a fit of economy the moment the Liberals expose the wastefulness of its friends in nearly seven weeks, the Budget not yet ment measure held back! Yet the Ministers in attendance asserted that they really had no work for the members to perform, and that they must wait for the return of Sir John Macdonald, who was reported to be sick, but who was really talking politics at a hole-and-corner dinner of civil service clerks and Government hangers-on. Is it of these deals principally with the health and safety of miners and other employes of save the country a few hundred thousand dollars by exposing a useless and unnecessary expenditure than that they should consent to the policy of thumb-twirling which the

Tory leaders have decreed?

The dilatoriness of the Ottawa Government is in marked contrast with the conduct of the Ontario Government, is hardly yet on a scale to call for such legislation as this bill provides, we have to consider that the proper time for intronot when accidents occur, but before they that Hon. Peter Mitchell lost patience with have occurred. The duty of the Legisthe Ministerial dawdlers, and called upon lature is to make the employment of mineworkers as safe as law can make it, and so if possible prevent the occurrence who were ready and willing to undertake It is much to be feared that it is the in-

important Government measures till late day in the session and for the inspection of mines by a proper a late day in the session and officer, as well as for the making of then try and get objectionable legislation rushed through without investigation. That is an old trick of Sir John Macdonald and his associates, but in the interests of the people it should be

> PUBLIC AND SEPARATE SCHOOLS. Hon. G. W. Ross has introduced into the Legislature a bill to remove all doubts as to the provisions of the Public and Separate Schools Act so far as they relate to those citizens who desire to become supporters of separate schools. The following is the full

paper? The Opposition leaders in the Legislature cannot rate the intelligence of the people very highly when they take it for granted that political capital so manufactured is worth anything.

ORANGE INCORPORATION.

The Orangemen stand a reasonable chance of getting incorporation at last. A narrow majority in the Commons was secured on the third reading of their bill, and now it is in the hands of the Senate. How it may fare there we shall know before long, but should it be thrown out in the chamber the brotherhood will know the reason why. It is not the first time Sir John Macdonald, having either not the power or not the will to defeat a measure in the Commons, has caused it to be kniled by the old geutlemen who are his personal representatives in the other place. It may have been on this understanding with Langevin, Thompson & Co. that the bill got through the Commons as it has; but we say again that if the Senators reject it, it is because their master has ordered them to do so. We cannot congratulate the Orangemen even on the measure of successthat they have already at tained. The order has been used by designing politicians to forward the Tory interests, and to support legislation that intelligent citizens, be they Protestants or Catholics, should be ashamed to acknowledge. Lord the control of the sand to support legislation that intelligent citizens, be they Protestants or Catholics, should be ashamed to acknowledge.
