## A LOSS TO THE CONTINENT.

The Burning of the Battle Creek Sanitarium One of the Most Regrettable Incidents of the Year.

The burning of the Battle Creek Sanitarium, at Battle Creek, Mich., is one of the most regrettable incidents of the year, for Dr. Kellogg's big sanitarium was an institution that has done and was doing a wonderful amount of good. Thousands of persons with but slight hope of living have been restored to good health, and thousands more have been taught to live so that the best of good health would be theirs. While the burning of such an institution is undoubtedly a great loss to the people of this continent, it is to be hoped that it will only be a temporary one, and that the sanitarium will be rebuilt on a larger scale, with increased capabilities for going good work. In any event, "Good deeds can never die," and the good deeds of the Battle Creek Sanitarium will live forever, while the lessons in the matter of good living that they have taught will continue to bear fruit long after the present generation have passed away.

At the sanitarium's Canadian branch, at London, Ont., where their justly celebrated health foods are manufactured, all is life and activity. They are working overtime, and Manager Robinson is of the opinion that larger premises will very soon be required. This is another case of success being thoroughly deserved, for these Battle Creek Sanitarium foods possess merit of a remarkable nature. Granose, Granola, Life Chips, and the food-drink, Carmel Cereal, are their names, and they are manufactured in London, just as they were at Battle Creek, for the patients of the sanitarium. Originally they were foods for sick people; now they are eaten by people who are as healthy as the proverbial trout. Even trained athletes give them a preference on account of the large amount of nutriment they yield. Come to think of it, why shouldn't food that is good for sick people be good for well people? Pre-digested, rich in nutriment and wonderfully appetizing. Such foods should be good for pretty nearly any person. Try some of these foods yourself, and, when you have eaten them, you will feel like doffing your hat to them as being considered by the finest foods you know of.

### DROWNED IN MOLASSES.

A night watchman named Thain, at the Hammersmith distillery, Fulham Palace road, was discovered dead in a vat containing many thousand gallons of molasses. There was no evidence at the inquest to show how he had got into the vat, and a verdict of found drowned was returned.

### A NEW DEPARTURE.

Mrs. Conger, wife of the United States minister at Peking, assisted by the ladies of the American legation and of the mission, entertained at lunch on Friday eleven princesses and ladies of the court. This departure from the exclusiveness of the Chinese court is quite unprecedented. The dowager empress sent her greetings, and expressed the hope that the kindly relations established will remain unbroken.

### CAMPION SMOKING.

The opium and other morphomania is going out, but all neuritis in Paris are taking to smoking champion. The women especially, because, taken in small quantities, it is supposed to produce a brilliant complexion. But it soon becomes a passion and produces somnolence, apathy and weakness. This innovation, like others, is attributed to America.

### FRANCE MAY BE REPRESENTED.

The Echo de Paris, commenting on the adoption of a resolution by the United States Congress inviting France to participate in the inauguration of the Rochambeau monument at Washington, May 24, says: "M. Cambon, the French ambassador at Washington, has strongly urged the French Government to send a warship to represent France at the ceremony. We hope the ministers of war and of the navy will also be represented by high officials. There is no doubt that it is an excellent opportunity on the morrow of Prince Henry's visit to make the exercises at the Franco-American manifestation of sympathy with Rochambeau imposing in character, and invest them with solemnity and grandeur."

C., and a member of one of the oldest families in that section, was held for the action of the grand jury as the result of an inquest over the body of a prematurely born baby, found alive and dead up in a shoe-box thrown into a garbage can.

## SELL PART OF YORK STREET.

Finance Committee Grant Request of John Mann & Son.

Memo Re Sanitarium Filed—Recommend Increases in Two Salaries—Other Business.

The finance committee held a two-hour session at the city hall yesterday afternoon. The business transacted was mostly of a minor nature, most of the old business being again laid over. The members present were Ald. Beattie (in the chair), Douglass, Stevely and Greenlees, and Treasurer Pope.

Engineer Ironside reported that there should be no objection to the sale of the south 33 feet of York street, between Colborne and Burwell streets, to John Mann & Sons, and the Waggoner Ladder Company, as this would bring the street line level with that east and west. He recommended that the purchasers be asked to petition for a permanent sidewalk of extra thickness, in order to carry the heavy traffic over it. There is no sidewalk at present.

Assessment Commissioner Grant reported that the latest in question had a frontage on Burwell street of 33 feet, with a depth on York street of 180 feet 6 inches. If the lot could be sold to an outside party, it would be worth \$600 in all, but as the right of way belongs to Mann & Sons, \$350 to \$400 would be a reasonable price. The land in question was owned by the Waggoner Ladder Company, which was worth about \$167.

Ald. Greenlees moved that Mann & Sons be given title in front of their premises at \$250, and that the Waggoner Ladder Company pay \$167, the purchasers to petition for a cement walk. The motion was carried.

The engineer reported that Mr. Alex. Harvey had not carried out the condition of the agreement whereby certain lands on the Fulham, assisted by the ladies of the city, Mr. Harvey had agreed to erect houses on the property or on the adjacent land within five years, and this Mr. Harvey had not done.

On motion of Ald. Greenlees, the matter was laid over till next meeting, and Mr. Harvey will be asked to be present to make any explanation he desired.

A deputation, consisting of Sheriff Cameron, J. H. Flock, K. C. V. Cronyn, K. C. T. E. Everett and Andrew Thomson, addressed the committee on behalf of the various charitable institutions. They spoke of the good work done by these charities, and urged that they be treated at least as liberally as in former years.

Ex-Ald. Carrothers and E. T. Essery headed a deputation of Horton street ratepayers, between Wellington and Waterloo streets, who ask for remission of certain sewerage charges. The matter was laid over.

The resolution passed by the hospital trust, disapproving of Ald. Campbell's plan for the government of Victoria Hospital, was received and filed. The memo, from the council of 1901, re issue of debentures for sanitarium for consumptives, was filed for reference.

Council will be asked to authorize a bylaw to borrow \$80,000 from the Molsons Bank, to meet current expenditure.

The sum of \$3.70 paid by Allan Swanwick on land which did not owe taxes due to the government, was applied on \$13.70 taxes due on other property.

The taxes of Mrs. Jane Lloyd were remitted.

The communication of Geo. H. Flanagan, asking for remission of income tax, was filed, the committee having no power.

The applications of Robert Ironside, assistant engineer, and A. E. Jolly, assessment commissioner's clerk, for increases of salary were received.

The trading stamp bylaw, the South street railway extension, the request for a grant to the trades and labor demonstration, and the conveyance of part of Parke avenue to John Christie, et al., were again laid over.
