The "NEMO" AUTO MASSAGE SELF-REDUCING CORSETS

With Triple Strip Reinforcement, Which Doubles the Life of the Corset Every "NEMO" Corset has the triple-strip reinforcement-the "pocket" of each bone

and steel, at top and bottom, is protected by three thicknesses of material. Bones and steels are prevented from cutting through at the top and bottom of the corset. That is one reason why "NEMO" Corsets outwear all other corsets. Three strips of cloth folded together are more than three times as strong as a single strip of the same cloth—that's a plain and simple The "NEMO" self-reducing

Self-Reducing Straps straps are tapered, and hold in the superflous flesh at the groin section. They bring style and comfort by firmly supporting the abdomen.

Studs on each end of the front steels adjust the self-reducing straps permanently in place.

Holds down the The Double Garter Attachment corset firmly, and the self-reducing straps keep the front steels close to the body. The graduated front steels strongly support the abdomen and give

ease and breathing space above. 'Nemo'' Relief Bands the abdomen and reshaping the figure than any other corset in existence, except those of the new

"NEMO" lastikops system. These bands, being partially elastic, provide for the "spread" of the figure when the wearer is seated, thus assuring complete ease and the utmost fashionable reduction.

"NEMO" Corsets induce women to maintain an erect and graceful. carriage, to walk correctly, and to breathe deeply and freely without

Have You Ever Wished That the skirt of your corset was a bit more easy and pliable—that you could find a very long corset that would allow you to sit down in comfort?

The "Nemo" Self-Reducing Front Reduces and supports the abdomen, while the broad bands of lastikops webbing at the bottom of the long skirt produces the fashionable slender hip effect, and turns the corset edge inward, so that it does not show through the thinnest dress. Your gown fits like an eelskin when you are standing, and when you sit down the lastikops webbing expands enough to give you complete ease-and the corset doesn't "ride up."

"Nemo" Style 354. Auto massage, self-reducing—a corset made with inside supporting straps of lastikops webbing—a new form of "NEMO" self-reducing straps, also with the new triple-top hose supporters. The combination of these devices subjects the figure to automatic massage, and produces permanent reduction of the figure. A corset made of fine imported coutil. Special model for full figures, as shown in illustration; sizes 21 to 36. Price, pair.....\$4.00

"Nemo" Style 319. A model specially adapted for short, stout figures, with self-reducing front, very long skirt with bands of lastikops webbing across hips; 4 lastikops supporters attached; made of white coutil; sizes 19 to

"Nemo" Style 321. For the tall, average figure, self reducing front with long skirt and bands of lastikops webbing across hips—rather high under arms and bust; two pairs hose supporters. Corset made of white coutil; sizes 19 to 36. Price \$3.50

DeBevoise Brassiere" A perfect dress foundation, and wonderfully enhances the effect of corset and gown. Stylish. comfortable, healthful. In every way superior to a corset cover-a style for your figure. Corsets-Second Floor.
