American Waterworks Down by Jones, Easton, McCallum Company Five Points From Its Early High.

New York, July 11.—Further irregularity developed before noon. Another wave of profit-taking in American Waterworks common sent it down 5 points from its early high Several other public utilities mounted to new maximum prices for the year including Conmum prices for the year, including Con-solidated Gas, Brooklyn Union Gas, North American preferred, and Montana Tower. Standard industrials barely held North American preferred, and Montana Power. Standard industrials barely held their own, but good buying was noted in American Linseed common and preferred, International Paper, U. S. Industrial Alcohol, Dupont and Union Tank Car. American Sumatra Tobacco common and preferred, and Munsingwear fell back 1 to 3 points to new low prices for the year. Rails moved a point or so either way, in reflection of the mixed nature in the June earnings report. Call money opened at 2 per cent. In line with the recent practice of bidding up of special stocks when the upward movement showed signs of petering out, the coalers were given a whirl upward after midday, with the lifties and Chesapeake and Ohio climbing to new high prices for the year.
