THE COLONIST, VICTORIA

THE DIAMOND JUBILEE.

THE EDITOR.—It is proposed as early as possible to hold a public meeting in connection with the late night's meeting to celebrate in some fitting and commemorative manner the centenary of the late night's meeting. Gracious Majesty's diamond jubilee is being celebrated in some fitting and commemorative manner the centenary of the late night's meeting. THE SALMON OUTPUT.

An Approximation of What This Year's Fleet Will Carry—Early Preparations.

Victoria May Be Made the Calling Port for a New Japanese Steamship Line.

Unprecedentedly extensive are the preparations now being made for exporting this year's salmon pack to the English markets. Never before in the history of the industry has such preliminary work been done. Indeed, some shippers are weighing in their minds the prudence of the steps they have taken in view of the possibility of gathering together a quantity of tonnage for a product of unknown dimensions to engage it, even though present rates are very reasonable.

FIGHTING FOR STEAMSHIP LINES.

Fully awake to the interests of this port, Mr. F. C. Davidge, the Pacific coast manager of the O. R. & N. steamship line, is allowing no opportunity to pass that would in any way add to the commercial prestige of Victoria. His plan to extend his steamship connections by a direct monthly service to Central America, submitted to the board of trade and referred to in the report of a recent meeting of that body, has already found its way into a practical way and to-day sends his representative to Ottawa.

LUMBER FOR JAPAN.

The Victoria agents of the Chemainus mills say they have not received any orders for Japanese lumber orders to date, as reported in an article reprinted from the Seattle Press-Times yesterday morning. The mill could not yesterday keep it running night and day for that length of time. No one in the lumber business in Victoria appears to have heard of the large order referred to although all consider that the wants of Japan are enormous.

SATISFIED WITH RESULTS.

Judge Burke of Seattle, who is connected with the Great Northern railway, in an interview recently said that he had been in the Nippon Yusen Kaisha line of steamships in an interesting and profitable way. He said: "Captain Griffiths informs me that the Japanese company is delighted and surprised at the showing. Our next steamer will bring a tremendous cargo of the new tea crop and our first 'tea train' will start across the continent immediately upon its leaving."

TORONTO, MARCH 18.—A large delegation of citizens of Toronto, Kingston, Rat Portage, Fort William, Port Arthur and other places have petitioned the Ontario government to subsidize the St. Lawrence railway to the extent of \$5,000,000 for 150 miles.

Premier Hardy promised its consideration and said some of his colleagues were convinced of the necessity of the road.

THE HOME HELPERS.

A Meeting at the City Hall Endorses Lady Aberdeen's Diamond Jubilee Idea.

A Central Committee Appointed to Raise Funds to Carry Out the Scheme.

Lady Aberdeen's proposal to celebrate the Queen's diamond jubilee by instituting the Victorian Order of Home Helpers formed the topic of discussion at the public meeting which the Mayor called at the city hall last night by request of the local Council of Women. There were a number of nice little speeches and some good-natured difference of opinion as to the best method of a Dominion celebration of the jubilee, but all finally resolved into a couple of resolutions endorsing the scheme and forming a central committee to raise the funds.

NEWS OF THE PROVINCE

A Remedy For the Distressed Suburban Municipalities—Latest From the Mines.

Opening of the Inquiry Into Timber Agency Officials—To Clear His Good Name.

VANCOUVER, March 19.—(Special.)—In the recent debate in the legislature in regard to the Municipalities Act Amendment, Reeve Schorn of Burnaby, states that a rather mistaken idea was given of existing conditions in Burnaby and South Vancouver. These corporations are not liable to the loss of their charter rights although the electors are disfranchised and the choice of a council restricted to a small majority of those even there resident. The only municipalities temporarily disfranchised in effect in North Vancouver, Mr. Schorn adds speaking of the general principle of the act, are those which have been incorporated in effect in North Vancouver, Mr. Schorn adds speaking of the general principle of the act, are those which have been incorporated in effect in North Vancouver.

WESTMINSTER, MARCH 19.—(Special.)—The investigation into the affairs of the Crown Timber agency in this city opened this morning. Owing to some misunderstanding, Inspector Higginson was not present at the opening of the inquiry, but was subpoenaed so that there might be no further misunderstanding. The construction of the road was not touched a morsel of food of any kind. I often found it difficult to obtain sleep. I did get at these times, but was often broken by horrid dreams. This was the result of the dyspepsia. But in addition to my discomfort was added liver complaint. I was subject to indigestion and was to some extent bloating of the bowels and was pale, haggard and despondent. It will be readily seen that I was in a bad condition. I kept doctoring and dosing myself with out the slightest benefit, and finally gave up in disgust, feeling that I would have to live out my life in this miserable condition. A friend suggested Dr. Williams' Pink Pills, but I was very skeptical at first. I was told that it was a good medicine, but I was very skeptical at first. I was subject to indigestion and was to some extent bloating of the bowels and was pale, haggard and despondent. It will be readily seen that I was in a bad condition. I kept doctoring and dosing myself with out the slightest benefit, and finally gave up in disgust, feeling that I would have to live out my life in this miserable condition. A friend suggested Dr. Williams' Pink Pills, but I was very skeptical at first. I was told that it was a good medicine, but I was very skeptical at first.

WESTMINSTER, MARCH 19.—(Special.)—The investigation into the affairs of the Crown Timber agency in this city opened this morning. Owing to some misunderstanding, Inspector Higginson was not present at the opening of the inquiry, but was subpoenaed so that there might be no further misunderstanding. The construction of the road was not touched a morsel of food of any kind. I often found it difficult to obtain sleep. I did get at these times, but was often broken by horrid dreams. This was the result of the dyspepsia. But in addition to my discomfort was added liver complaint.
