sued in the province should be represented. The exhibits should not be confined to agricultural products; manufactures, minerals, the fisheries, the fine arts, should be included in the list, and a spirit of competition would be encouraged among all producers that would stimulate all classes of producers to renewed exertions. I remember in the 1890 show, being struck with the excellence of the sheep exhibits. The Hudson Bay Co. had established several farms near Victoria and stocked them with the purest Southdown and Leicester sheep that money would buy. The descendants of these flocks are still to be found in the neixhborhood, and will no doubt make their presence felt at the Capital show of 1901. Whink that Mr. Helmcken, M.P.P., is entitled to the thanks of the business and farming community for his revival of the annual shows. That he has met with ready co-operation from all classes, the meeting of Tuesday is evidence. D. W. HIGGINS.

Consumptives Need not Leave Their Own Homes to be Cured.

The Slocum System

Of Treatment is Offered you Absolutely Free.

A consideration not to be overlooked in the treatment of consumptions is the patients to go long distances in the hope hat change of air will do them good. A tot of solemn nonsense is being said, and written, about change of climate, and it indence on the patient. "Stick to low altitudes", says one. "Go the mountains", says another. How is a poor perplexed outfleter with sore lungs, to decide among hese different authorities? The fact is, people die of consumption in all climates. They recover from it too, in all climates. They recover from it too, in all climates. If they are treated properly. The only positive cure for the disease is to kill the green that produce it. This is accomplished under the Slocum system of treatment. The disease must have nothing to feed on. That is the principle underlying the Slocum system. You can try it at your home.

MONTREAL. JOHN JAMESON ATTACK of Royal Canadians at Paardeberg.

The present is a time when war plctures are in greater demand than ever. The conduct of the British so-wers on the battlefields has WON THE PLAUDITS of admiring nations. We have, at great expense, published four large, beautiful pictures, size 20x24 on heavy, superfine, calendered paper. A picture that will commend itself and send a THRILL to the heart of every FRUE Canadian is the one called ATTACK OF ROYAL CANADANS AT PAARDEBBRG, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the GALLANT MAJOR ARNOLD met death unfilinchingly. Indeed, it is only too CHEERING THOUSANDS bade them GOD SPEED as they salled from Canada's shores, now lie still forever in lonely graves on the other side of the world under African skies.
