The Verve and Aileen, deep draughts, had the best of it all the way through as against the other boats, all of which are centre boards. Mr. Cochran sailed a splendid race. The Verve showed the way from the start and won purely on her merits, without time allowance. Although the Aileen started at the end of the string she had crept up to second place by the time the first beat had been made round the triangle, which position she maintained to the finish. The Belleville yacht came in third, and the Cygnet fourth, but as Commodore McGaw's yacht had an allowance of 18 minutes from the Atalanta she noe of 18 minutes from the Atalanta she was credited with third place on the prize ist. GUELPH, July 30.—The Maple Leafs and Clippers played off their Bradley gam here to-day. Everybody expected a walk. over for the Clippers, but contrary to expectation the Leafs made quite a stand and ten innings were played before the game was decided in favor of the Clippers. Nelson and Hunter were the visitors' battery for the first four innings, but the Leafs batted Nelson so hard that Chamberlain was put in the box and Moore sent behind the bat. After this change three strikes and out were more numerous than base hits on the Lafs' side. Fitz-gerald pitched for the Leafs with Purvis catching. Fitzgerald was hit treely and he let nine men to first on balls. Atkinson at first base carried off the batting and fielding honor for the leafs. The Clippers played a good game all round, Chamber-lain's work in the box being a feature. Dyson umpired very unsatisfactorily

Mr. Murphy gave several instances of punishment which had been inflicted on punishment which had been inflicted on prisoners and which had not been properly entered in the books. As an example one case may be specified. During the winter of 1883-4 a prisoner named O'Neil was confined to his own cell on bread and water, and remained there for upwards of three months without a bed and only one blanket. This prisoner was partially insane. No mention is made of this punishment on the warden's monthly report.

The witness admitted that a prisoner named Michael Wynn, who was confined in his cell on bread and water, was in the habit of shaking the bars of his cell door, and crying and begging for food. When he was released he ran down and commenced eating refuse from which one of the guards had to drag him away. Mr. Murphy showed that several men who had been sentenced twice in one day to 72 hours in showed that several men who had been sentenced twice in one day to 72 hours in the dark cell completed both terms without intermission, thus putting in 144 hours without seeing the light. Several other prisoners were punished in the same way. Following is a synopsis of evidence brought forward by Mr. Murphy in the second charge: In 1884 the minute book showed 28 punishments by "deprival of all privileges," whilst the offence book only showed 4. The minute book shows 53 dark cell punishments, while the offence showed 4. The minute book shows 53 dark cell punishments, while the offence book showed the same. It says he is only good at insulting his superiors, and his very ordinary talents are lauded by an interested olique. The article pontinues: "It is time to speak out. We will not be imposed upon by this overgrown school boy, verging on middle age, but without a man's sense. Lord Salisbury must decide quickly, or Churchill, having already worked irreparable harm, will ruin the conservative party." FRANCE AND HER COLONIES.

RIS, July 31,—In the chambe ties last night M. Clemenceau decl deputies last night M. Clemenoeau declared that careful examination showed that no colony yielded advantages in proportion to the cost of its maintenance. The seeking after fresh colonies had been a source of loss to France. M. Ferry's theory that it was the duty of the superior races to civilize the inferior ones was opposed to the rights, of man. Could M. Ferry define the terms "superior" and "inferior" as applied to races? The Germans in 1830 described the French as inferior. Were the Chinese inferior to the French? A forcible colonial policy was madness. It was the duty of the government to secure the sanctity of France, not to scatter its force. (Applanes). M. Brisson said the cabinet aimed at uniting the forces of the republic and preserving the national prosperity. He appealed to the chamber to vote the Madagascar credit and promised that the government would do its utmost to arrange that the colonies should cost less and contribute more than at present. The credit was voted by 291 to 142.
