In the session of 1920 in addition to moneys for demobilization purposes, Parliament appropriated \$1,180,024 for war-like stores and for munitions to be ordered from the arsenals of Quebec and Lindsay. Having regard for the fact that the war was over and that demobilization of the expeditionary not possible to reduce this afount by some \$400,000. He pointed out that the amount asked from Parliament for the training of the militia was greater by several thousands of dollars than the amount appropriated at any time previous to the war. The minister replied that the large amount was necessitated to keep the reserve up to the standard which Lord French, in 1910, in a report

furnished out of moneys appropriated Quebec, now that the war was over, by the Parliament of Canada, and raised had stated (I quote his words from 'All our heavy an outstanding national obligation." added with reference to the ammuni-"Credits arising out of a financial set- tion made at Quebec at Lindsay: tlement of accounts are to all intents doubt if any better ammunition is and purposes the same as appropriations by Parliament," said the Liberal leader. "They represent money of the people, for which there should be a like stores. How, in view of these stores. strict accounting to Parliament. planes, guns and paraphernalla of war of the kind which is generally referred "Apparently," said Mr. King,

"MORE POWER TO THE BLUE NOSE!"

NEW YORK, Oct. 26.—"More power to the Blue Nose. May her years be long and may she never know a water haul or a day's ill luck" is the wish The Tribune this morning expresses for the winner of the international fishermen's trophy races. The paper declares that all United States sportsmen will concur in wishing the best to this year's winner, adding "The Canadian schooner is a true banker and defeated our little Elsie handily and in a way that leaves a good taste way that leaves a good taste in the mouth of everybody who participated in the contests off Halifax."

WON'T RUN YOUR CAR TO-DAY

If your car is electric you know that it must be recharged after so much mileage.

It never occurs to you, when you decide you must economize, to cut out gas for your automobile-gas is essential.

Every engineer knows that in order to make his run he must steam up. The steaming up of yesterday or last week is useless to-day and

Advertising is a sort of Steaming-Up.

It must be done regularly if you want your

People who read your advertisement last week have read a great deal of other matter since then and they need reminding again.

A store may become fairly well known after a period of time, but a town is constantly growing. Newcomers want to know about you. Young folks starting out in life must be told about your goods and your bargains. Strangers in the city must never be neglected.

School children must be educated about your store and your old customers must be cordially kept informed on your store news.

No store is busy unless advertised to-day.
