# Feed Your Fruit Trees <sup>and</sup> Gardens

Practical Fruit Growers and Vegetable Gardeners realize that to obtain the largest profits from their land **it is just as necessary to fertilize their trees as it is to spray them.** We manufacture brands of Animal Fertilizer especially designed for the use of Fruit Growers and Market Gardeners. Some of our brands that are specially suitable for these purposes and their guaranteed analyses are :

BRAND	GUARANTEED ANALYSIS		
	Nitrogen	Phos. Acid	Potash
Potato Special .....	3.30	8	8
General Vegetable and Market Garden .....	4.11	9	5
Early Vegetable Manure .....	4.93	9	5
General Crop Fertilizer .....	2.47	10	2
Fine Steamed Bone .....	4.93	22	—
Sol. Bone and Potash .....	1.64	10	5
Tobacco Grower .....	4.11	9	6
Greenhouse Special .....	4.11	5.5	5

**Remember** our brands are based on materials of animal origin and are not purely chemical fertilizers. The effect is therefore more permanent and the plant foods not so liable to loss through leaching, etc. The advantages are all outlined in our **Fertilizer Booklet. Send for one.**

Our Fertilizer Department is under the management of a graduate of the Ontario Agricultural College and of Macdonald College, Que., who is well qualified to advise you regarding fertilizers suitable for your soil and the crop for which it is required. He will be pleased to give any information possible on this subject.

Write for literature and quotations. We have agents in some sections and want men for others. Easy terms and satisfaction guaranteed to our patrons. Orders by mail promptly filled—no extra cost. Write:
