Sometime before he died, left a humber of his volumes of Sermons in the hands of mon with whom he was acquainted, with a view to have them sold. Mr. Melville, though correct and precise in the disposal of nearly all his effects, neglected to give information to his Executors in relation to his volumes of Sermons that he left in different places of the country. His soa, Mr. John Melville, who is one of his Executors, would take it as a special favor if those persons who were entrusted with a number of the volumes referred to, would tell him by letter how many volumes they received, and how many they have yet on hand. #### THEALDINE

The ART JOURNAL of America ISSUED MONTHLY.

"A Magnificent Conception Wond rfully carried out."

The neagesty of a popular medium or the representation of the productions of our great artistense always been recognized, and many attempts have been made to meet the want. The successive failures which so invariently followed each attempt in this rountry to establish an art ournal, did not prove the indifference of the people of America o. he claims of high art. So soon as a proper appreciation of the want and an ability to meet it wore shown, the public at once rallied with enthusiasant of its support, and the result was a great artistic and commercial triumple—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellancy of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—aloue and unapproached—absolutely without competition in price or character. The possessor of a complete volume or an ord upplicate the quantity of the paper and engrevings in any other shape or number of volumes for the times its cost; and then, there is the chromo, besides!

The national feature of THE ALDINE must be taken in on agrow sense. The artist cost; and then, there is the chromo, besides!
