METALS AND HARDWARE.—A circular from Kidston & Co. just to hand states that the position of the pig iron market in Glasgow is much the same as it has been for some time, and that there is nothing particularly cheerful in the outlook. Although the Scotch colliers' strike is now regularly on, pig iron is not likely to advance materially, because although a number of furnaces are damped down the consumption is naturally much curtailed, owing to the cessation of operations by many manufacturing works and foundries. In tin, the same circular says, the tendency is downwards, if anything, sales being reported in the East at lower figures. Lead is reported as strengthening, with sellers scarce. In the local market there is little doing. Some moderate transactions are noted in Summerlee iron at \$19.25, while others hold at \$19.50. No. 1 Siemens has been quoted at \$16.25 in fair lots. Galvanized sheets, No. 28, have sold at \$4.15. DRUGS AND MEDICINES.—We cannot find much to base a report on this week. Business appears to be on the quiet side, and there is no excitement in any article; opium is quoted lower; morphia has been easier under former advices about the condition of the opium market, but affected by later opium advices morphia has stiffened; essential oils are reduced under the altered tariff to 10 per cent. duty, instead of 20 per cent., which will have the effect of lowering
