

## Corns All Gone By Wednesday

Apply a Blue-jay plaster on Monday, and the pain stops instantly. By Wednesday the whole corn loosens and comes out. No pain, no soreness, no inconvenience. All because of a soft wax which separates the callous from the toe.

Why do you temporize with corns? Why merely pare them or protect them? Here is a way to remove the corn, harmlessly, painlessly, and in 48 hours. Millions of people use it. It has fifty times as large a sale as any other treatment for corns. Think what folly it is to suffer a corn when a simple Blue-jay plaster ends the whole trouble. Go get it now.

**A** in the picture is the soft B & B wax. It loosens the corn.  
**B** protects the corn, stopping the pain at once.  
**C** wraps around the toe. It is narrowed to be comfortable.  
**D** is rubber adhesive to fasten the plaster on.
