

b242 6673(E)  
b242 6675(F)

The preparation of this booklet was undertaken to pave the way for the introduction of SIGNET to External Affairs and International Trade Canada. SIGNET is a global communications system which will link nearly 8 000 employees worldwide via their desktop computers. The booklet is the product of a cooperative effort by User Services Division, Information Services Bureau and the Occupational Safety and Health unit of the Personnel Administration Bureau.
