VISIBLE SUPPLY OF WHEAT DECREASED

Prices Hardened After Early Weakness Due to Beneficial Rains.

CHICAGO, May 27.—Wheat averaged higher today, helped by a big decrease in the world's available supply. The market closed firm at the same as last night to 1 cent advance. In corn the outcome varied from 1c decline to 1½c gain, oats finished 1-8c to 1-4c to 5-8c down, and provisions with a rise of 5c to 12½c.

Word that the European crop outlook regarding wheat was beginning to cause some anxiety gave particular significance to the fact that the falling off in the world's stocks was nearly double that of the corresponding week a year ago. There was a rather decided feeling that in view of the probable transatlantic dependence on the United States winter crop, the recent decline of four cents a bushel had more than discounted the flattering harvest outlook in Kansas and Oklahoma.

More Showers.

Rains over western states and a few showers in the territory hearer Chicago tended to make prices dip at the outset, and also had influence in willingness that holders showed to realize profits near the end of the session. On the other hand estimates were current that the spring wheat acreage in the Dakotas and Minnesota had been diminished 8 per cent, an amount much more than was recently assumed to be the case.

Corn weakened on account of needed showers in various parts of the domestic belt, but deferred options hardened later as a result of advices that the wet weather in Argentina had again become unfavorable for shippers. Besides, country offerings here were small and cash demand good.

Oats ruled easier because of the drought being somewhat relieved and owing to signs of additional moisture at hand.

Shorts in provisions took to the buying side. The incentive was knowledge that arrivals of hogs were fewer than expected.

Low Prices — Easy Terms

Kenworthy Avenue

Three years ago we sold land near St. Clair avenue and Dufferin street for $18.00 to $20.00 per foot. Today the same land cannot be bought under $60.00 per foot. This is due largely to building activity and the operation of the St. Clair car line.

We are now offering you a better chance to make money near the Danforth car line. The line is already in operation and the east end is growing much faster than the west.

The lots in Kenworthy Park are beautifully wooded and 136 feet deep. Nothing else can be found in the vicinity at the price. Three years to pay.

Start building your home now while the payments are small.

We are making a special feature of this subdivision on Saturday, May 30th. Motor cars will be waiting at end of Danforth car line. Phone or write for appointment, or watch for our sign on motors.

AMERICAN MONEY IN CANADIAN ISSUES

MONTREAL, May 27.—The growing participation of American financial houses in Canadian issues is being watched with interest here and the new departure of an American firm in London will accentuate this.

Higgins & Co., the London agency of Lee Higginson & Co., is bringing out an issue of 5 per cent. mortgage debentures of Dorman, Long & Co., a noted British industrial corporation.

This firm has participated in such Canadian issues as Bell Telephone and Canadian Car and Foundry, but this, says a cable, is the first time that any American banking house has closely assisted with the finances of a purely British industry.

Commercial circles are watching its reception by investors.

BALANCE SHEET OF POWER COMPANY.

The balance sheet shows assets of $37,480,919.40, the current assets totaling $3,165,553.11, the balance being stocks, bonds and interests in other companies, $23,691,512.40, and construction $10,623,853.89, a total of $34,315,366.29.

Current liabilities are $1,526,217.24 and surplus accounts $4,210,511.73, in addition to stock and bonds and the usual reserves the depreciation and renewal reserve has reached a total of $2,461,579.12.
