New Westminster, Aug. 30.—A Frenchman named Suter, eloped from Vancouver last night with the wife of M. Liberty, proprietor of the Sherman House. The couple came here, registered at Queen's hotel and took a room. Two hours later Liberty arrived and with a constable visited the couple, who were in great dread of a tragedy. Liberty, however, only took a look at them in the room, secured a watch and goldheaded cane that Mrs. Liberty had taken, and bid them good night. Liberty had taken, and bid them good night. Liberty had taken, and bid them good night. Liberty says he simply wanted evidence of their guilt in case he determined to ask for a divorce.

English BAY, Aug. 30.—For the past few months English Bay has been quite a Scarborough for Vancouver, To an older, it would be almost impossible to timer, it would be almost impossible to imagine the scene, where a few years ago it was only visited along shore by Indians fishing, and here and there a rack of limbs of trees covered with fish, drying for their winter supply, and the only sound that of the sea, washing on the sand, the sea gull's cry and hoot of loons. Now, hundreds of children, in all colors of bathing costumes, are running the beach, their merry voices ringing out the full enjoyment of their holiday, while the bank is strewn with cottages and tents occupied by families for the summer months, their camp fires and gay lanterns presenting a very pleasing picture.

summer months, their camp nies and gay lanterns presenting a very pleasing picture. There is a large bathing house, where a room and bathing suit can be hired for five cents, and also a tea garden, where refreshments and tea or hot water can be obtained for a small sum. It is, no doubt, a great boon to Vancouver, having a watering-place so near, as families who could not otherwise afford to give their children an outing can now enjoy weeks with little or no expendiafford to give their contaren an outing can now enjoy weeks with little or no expendi-ture. The electric trams run within five or six blocks of the place, giving those who live in the extreme east as great an advantage as those near by.
