SUIT MAKING TO ORDER

Our capacity for Ladies' Tailoring this season is considerably increased. Despite this, however, we are rapidly reaching the point where delayed deliveries will be inevitable. Half the pleasure in a new suit is in getting it home when promised. This we it home when promised. This we always endeavor to carry out, but you must not leave your order too late. Place it this week.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood the impurities remained within and the good accomplish ed was only temporary. or suffering from any disease that drugs have failed to cure—I want you to come to me. I can cure you with my wonderful Electric Belt, and I'll give it free to any weak man or woman. I want every weak, puny man, every man with a pain or an ache, to get the benefit of my invention. Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for. If you are that kind of a man, this Belt its yours without a cent of cost to you until you are cured. That's trusting you a good deal, and it is showing a good deal of confience in my Belt; but I know that I have a good remedy. DR. McLAUCHLIN'S ELECTRIC BELT

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dope their stomachs with the stuff that is sold for medicine. That doesn't help any; in fact, it does a great deal of harm. The dope that you put into your stomach is poison, and poison weakens the organs and nerves of your body. What Nature needs is electricity.

Get back to nature. Consider how she cures and gives her assistance. Nature will cure you if she has the power. This power is electricity. That's because electricity builds up—supplies nourishment, strength to the body. Drugs destroy, tear down, because they contain poison instead of nourishment. Of course, poison will ease pain. Why? Because it paralyzes the nerves. The nerves are delicate wires that enable you to feel pain. If you poison your nerves with drugs you can't feel the pain until the stupor wears off. Then/the pain comes back and you have to repeat the dose until nature removes the cause of the pain.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. Instead of swallowing a lot of poisonous drugs, which wreck the nerves and stomach,

to do by unnatural means. Instead of swallowing a lot of poisonous drugs, which wreck the nerves and stomach, you apply my Belt about your body, and feel the soothing, vitalizing force of electricity penetrating your vitals, giving health and restoring strength to every part that is weak.

I believe in finding the cause of every ailment and removing it. If it is in the stomach, I restore the power there; if in the nervous system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause, nature will cure the disease.

MR. ANDREW W. LANGFORD. MR. ANDREW W. LANGFORD, Stratford, Ont., writes: I will state that your Belt cured me completely of indigestion and lost vitality.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and you can
