How to Use Fashions.

While English and American plates prescribe hard and fast rules for the guidance of the tailor in cutting fashionable clothing, it is for an authority on dress like Henry A. BIRTH OF A NEW REPUBLIC.

Complete Transformation of the Geography of Central America—Three Have Disappeared.

Washington, Nov. 3.—A complete transformation of the geography of Central America occurred on Nov. 1, by the birth of a new Republic, the United States of Central America, and the disappearance of the Republics of Nicaragua, Salvador and Honduras, except as States of the new union. Señor Corea, chargé d'affaires of these Republics during their transition stage, has received detailed information of the changes effected and the form of government of the new Republic, the importance of the United States of Central America. Mr. Corea points out that it has a population of about 2,000,000, an area of about 100,000 square miles, a great stretch of sea coast on the Atlantic and the Pacific, and the site of the Nicaragua Canal through which commerce will ultimately pass from ocean to ocean.

The movement to form the new Republic began on June 20, 1896, when the Republics of Nicaragua, Salvador and Honduras formed the treaty of Amalapa. This provided for a union of the three Republics, and the three countries created a diet which directed these foreign affairs.

On Aug. 27 last a constitution for the new Republic was finally drawn up and signed with due formality. The general character of the new government is shown in a communication received by the United States Secretary of the assembly. It states that the new order of things goes into force on Nov. 1, the name of the Republic being the United States of Central America, formed of Nicaragua, Salvador and Honduras. Provision is made for the admission of Guatemala and Costa Rica if they elect to enter the new union. A federal form of Government is adopted, the boundary line of the States being continued as heretofore, except as changed by one of the departments to form a federal district, similar to the district of Columbia, where the seat of federal government is to be located. This central district surrounds the Gulf of Fonseca on the Pacific side, and the capital is located temporarily at Amalapa on the Gulf of Fonseca.

The capital will remain here until the Congress of the new Republic selects a permanent site for it.

THE BIBLE A UNIQUE BOOK.

The subject of Mr. Hague's Talk Last Night. Mr. Henry O'Hara presided at the meeting of the Y.M.C.A., held last evening and night, when Mr. Hague, of Buffalo, gave an interesting talk upon the Bible. He dealt with the profound difference between the Bible and all other books. Some of his authors were scholars, others were illiterate and yet the harmony of the whole was such that the ordinary reader saw no difference between them. It was like Christ, who, as we think we understand Him, rises into glory and becomes the great unreachably divine. Its contents were written in a simple, plain, and modern, although it was written by a people who had no literary reputation and who were opposed to the principle of polygamy. EXIT AND ENTRANCE

World, Garnella and Mack.

No matter how good a farce-comedy may be, it cannot receive an adequate presentation unless the actors are bright and the plot beautiful. That is admitted by everyone that has given the subject a moment's consideration. Naturally, the theatrical manager knows all about this, and he is not likely to allow his entertainment to be spoiled by poor actors. On the contrary, he will take care to engage only those who he knows are talented, quick-witted and naturally funny. This is particularly the case with the rewritten farce-comedy "Down Topics." At the head of the cast are three star comedians whose names are a guarantee of excellence anywhere in the United States. They are John W. World, Robert Garnella and William H. Mack. Each of these comedians is noted for his original methods and spontaneous humor. While the author of the comedy can do a great deal in giving the whole performance much depends upon the actors. It is their ability to get the best out of the situation, to make a farce-comedy throw off sparks of mirth from the prism of humor. If they do not strike the light exactly right, the comedy is spoiled. Since that may be said to be no loss of humor in "Down Topics," who opened last Monday evening at the Toronto Opera House.

Go This Evening.

Only three more opportunities remain to see "When London Sleeps" at the Toronto, and those who wish to secure places for either of to-morrow's performances should reserve them immediately. Plenty of good seats are still to be had for this evening, however, and those who can do so should go to-night.

The Love Story of the Tea House.

A most important feature of "The Gelsin" is the delightful scenery and the beautiful dresses. The first scene is a representative of a tea-house, is extremely pretty, but it is outshone by the lovely, richly furnished interior of the tea-house garden, which harmonizes in the most charming manner with the dresses of "The Gelsin." The chorus effects are particularly good and the singing is of a high order. As "O Mimosa San," the chief Gelsin, Miss Helen Royton sings, dances and acts brilliantly, while the other Gelsins, especially when pleading for release from the Governor and when bidding farewell to her lover, she is especially interesting and clever. The play is a most successful one. "The Gelsin" will re-appear at the Grand Opera House the first three nights of next week, with a matinee on Wednesday.

Wonderful Science Effects.

"Devil's Island" is the current attraction at the Grand Opera House, will close its engagement with a performance to-night and two performances to-morrow at 2.15 and 8.15. The story is a most extraordinary one, and is told with splendid dramatic effect in this play and no better scenic spectacle has been seen in Toronto. The ship scene is a marvel of stagecraft.

SENATOR PROCTOR SPEAKS.

The Vermontor Says Uncle Sam Must Treat the Philippines as a Colony, if at All.

Montpelier, Vt., Nov. 3.—United States Senator Redfield Proctor, who arrived here yesterday, after a trip abroad, this afternoon addressed the joint assembly of the House and Senate, which last month re-elected him. Senator Proctor's address was brief and was confined to an outline of the foreign situation which now confronts the Government of the United States. The Senator said: "The future policy of this country is the greatest question before our people. Hawaii and Porto Rico have been added to the nation's dominion, and we have become sponsors for the good government of Cuba. We must assume some responsibility for the far East, whether it be greater or less. In my opinion the responsibilities in the far East are bound to be greater. Many wise and patriotic men in the country believe that we should retain no territory or control any part of the Philippine Islands, beyond a coalition for the purpose of maintaining the peace. I recognize the cogency of their argument, but have failed to see clearly any practical way of carrying out their suggestion. The situation in the East there is no logical stopping place short of the whole of the Philippines. To establish a divided sovereignty over the islands would be a practical impossibility. Since that may be said to be no loss of honor in "Down Topics," who opened last Monday evening at the Toronto Opera House.
