RADIAL RAILWAY SCHEME.

An Appeal Will Be Made to the Legislature for the Control of Electric Railway Franchises.

YORK COUNTY COUNCIL YESTERDAY.

The Matter of Paying \$100 to Sutton Left Over Till June—Must Show Fees and Mileage.

Electric railway matters occupied the attention of the York County Council yesterday; but beyond speaking to a resolution proposed by Messrs. Ley and High— which did not carry—to rescind the motion authorizing the Legislative Committee to petition the Local Legislature for the control of electric railway franchises in the county, no action was taken.

Mr. Evans, whose amendments seem to leave a strong impression upon the Council, said that it was not of much importance to the County Council whether they owned the street railway franchises or not. Anything of that nature which they owned, they should necessarily assume extra responsibility and extra duties.

He believed that either the County Council or the Legislature should be the defined body to deal with these franchises. The County Council should be the defined body to deal with these franchises, but the majority of the Council rather disapproved this idea. Messrs. Ley and High favored the townships and villages, regarding the franchises as suit themselves, independent of the County Council. It was considered where the right to cross county bridges was required.

The Warden suggested that joint committees of the County Council and the various municipalities should deal with franchises; but the majority of the Council rather disapproved this idea. Messrs. Ley and High favored the townships and villages, regarding the franchises as suit themselves, independent of the County Council. It was considered where the right to cross county bridges was required.

Mr. High charged the Council with being grasping on county funds, even charging the county with lamp glasses broken in the village streets, and the matches which they left their lights. The matter was left over until June.

Mr. Lundy got through his resolution instructing the County Treasurer to show his account of the money received by each councillor in fees and mileage, and the Treasurer was empowered to borrow \$100,000 on the security of the County Council, after which Council adjourned, and the members took the Metropolitan electric car to the station, to participate in the banquet to the Warden.

ALMOST BLEED TO DEATH.

Accident Which Overtook Mr. Elliott While Chopping Down a Tree.

Samuel, Feb. 3.—Word has reached here that Mr. John Elliott of the 12th-line of Moore met with a terrible accident on Tuesday night, while chopping down a tree, which was leaning over a fence, and the tree came down unexpectedly, striking him to the ground. He was severely injured, and his head was fractured. He was taken to the hospital here. His skull is fractured.

RUG AND MAT MAKERS

Color Their Rags and Yarns With Diamond Dyes.

The World Famed Dyes for Producing Brilliant and Unfading Colors.

Go on.

I have made several very handsome Rugs and Mats, and I am very proud of them. The rugs and mats are made of wool and are very durable. They are also very cheap. I am now making more and I am sure you will be interested in them. I am now making more and I am sure you will be interested in them.

The Bank Clearings.

New York, Feb. 3.—Bank clearings at all the principal cities for the week ending Feb. 2, as telegraphed to Bradstreet's, show: Total clearings, \$2,000,000,000, an increase of \$100,000,000 over the week ending Jan. 26. The clearing of the Dominion of Canada was as follows: Montreal, \$1,494,542, increase 30 per cent.; Toronto, \$1,008,100, increase 20 per cent.; Winnipeg, \$1,088,437, increase 22.4 per cent.; Halifax, \$1,254,079, increase 17 per cent.; Hamilton, \$727,427, increase 12.0 per cent.; St. John, N.B., \$502,627, increase 27.7 per cent.; Vancouver, \$315,442, Victoria, \$315,425.

A sign of refinement is the use of Baker's Dandruff Shampoo Soap.

York County News.

Linton has organized a literary society, with William Stewart president, James Taylor secretary and W. M. Perry clerk. The society will meet on Wednesday, Feb. 9, at 8 o'clock, at the Newmarket Club by 9 o'clock on Wednesday.

Dan McCormick of Moose Jaw, Sask., died from heart failure on Thursday. The remains are being brought to Newmarket for interment. They will probably arrive on Tuesday.

Mr. William Ashman, the boss spinner in the Hawthorn mill, has returned to Lambton Mills a physical wreck. He weighs only 150 pounds, and is but a shadow of his former self. He loses weight daily.

At a meeting of the Board of Directors of the York County Council, held last night, the annual session of the York County Council was opened. The session will be held on Tuesday, Feb. 7, at 8 o'clock, at the Newmarket Club by 9 o'clock on Wednesday.

FEED YOUR BOYS THIS WAY

Prof. Robertson Delivers an Up-to-Date Lecture to the Women of Toronto.

RIGHT SORT OF FOOD FOR PEOPLE

To Give Them Brains and Sound Structures—The Good and the Bad Estates.

Fully 300 women met in the theatre of the Normal School yesterday afternoon to hear Prof. Robertson of Ottawa lecture on "Food." Miss Carter, president of the Local Council of Women, introduced him. The lecturer had planned a dozen chairs on the wall, and went right to work.

The struggle for food. Half the struggle is the struggle for food, and it was found to become more so as time went on, said the professor.

He had found among mothers a lamentable ignorance of what to feed a boy between the years of 3 and 10. There were many women who knew how to feed calves, but were ignorant of the feeding of boys. He had made experiments in feeding calves and knew that a boy should be fed in a similar way.

Food was substance conveying energy, taken to sustain life, furnish energy, repair waste, and produce growth. A boy's definition of whole food was "food that tastes nasty." This was a reduction to a minimum.

Water was the vehicle of the body for carrying foods around. Albuminoids, fats, carbohydrates and minerals composed the body, and foods containing these should be used. Food must contain a sufficient proportion of albuminoids, which in a boy weighing 140 pounds made up 90 pounds.

He dealt upon the cultivation of the soil, and declared the success of all products depended upon the work of minute microbes, and the better the man in the end. The cure of the material body was the first foundation of a good boy.

The kinds of food.

Few housewives asked as they prepared a meal, how much would be required to do a given work? A man working all day in an office needed as good food as a wood chopper. The best food in the most easily digested form.

A standard food was one in which proper nutritive ratio was 1 of albuminoids, 1 of fats and 5 of carbohydrates. Oatmeal was the best food to give to a standard food, but in making it, the oatmeal should be dropped into boiling water and left there for one hour without stirring. "It satisfies and supplies."

When bread was not good food by itself. Boys should be allowed to butter both sides of the bread, if the butter is good. But it is good brain food.

Beef and potatoes made a well balanced food. The beef should be well cooked in a low temperature for a long time—give more nourishment than the best.

Milk was all digestible. It was well balanced, and gave the nervous system the bones, and gave something that no other food seemed to give.

It would be a good idea to use a little milk in the morning, and a little in the evening. It would be a good idea to use a little milk in the morning, and a little in the evening.

Favors Fat Chickens.
