THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST

Basketball. The West End Boys' Club defeated the crack Dufferin School team Saturday by the score of 28-5. This match was looked forward to with great interest, as the Dufferin boys have been developing their work as the opening of the school season. The West End boys were not behind that as in all other games, they have won with a safe margin. To-night there should be one of the most exciting matches in the city, when the West End Boys' Club will play the Dufferin School team at the West End Gymnasium. The Dufferin boys are on a tour, and are winning laurels from the smartest teams in Canada. Their variable record has been gained by defeating the strong teams at both Hamilton and Brantford, and a team from the Empire of the West End boys. During the intermission Mr. J. Howard Peck, physical director of Central Y.M.C.A., will give an exhibition of tumbling

Men's Spring Suits

The vexatious problem of suit buying finds an easy solution here, for our clothing reaches the summit of style, the zenith of workmanship and the pinnacle of material. This has never been called into question. To wear our suits is to assert a dressy individuality and a personal taste compelling admiration. "Honestly right" are the words we emphasize in reference to the prices. These nine lines are standard values—not here-to-day and away-to-morrow—but always present:

NO COMPROMISE.

South Africa must be either British or Dutch. That has been the well-settled conviction of the Boers ever since the two races came in contact with each other. They cannot be two masters in the same household. The Boers pronounced their ultimatum that South Africa was to be Dutch, and they proceeded to drive the English into the sea. The fight for supremacy is pretty nearly over now, but the proposition yet has to be made that South Africa must be either British or Dutch. In fact, the stubbornness with which the war has been carried on only accentuates the necessity for the absolute supremacy of one or other of the races in South Africa. No sentimental weakness should influence the British to part from the theory laid down by the Boers themselves, viz., that the country must be either British or Dutch. On this fundamental principle there must be no compromise whatever. The slightest deviation from it will result disastrously for both contending parties. The only way by which the principle can be made good is thru the unconditional surrender of the Boers. Great Britain would gladly welcome this event, but she must not try to anticipate it by making concessions to the Boers. The Boers must be beaten until there is no gaining the absolute supremacy of the British. Temporarily, this great fundamental principle of undivided supremacy was the cause of the present unfortunate war, and it will lead to similar trouble in the future if the unspoken principle is recognized. When terms of peace are arranged, everything should be conceded to the Boers that is consistent with the absolute supremacy of the British. The Boers should be generously dealt with, but care must be taken that no privilege is granted them which may have them on the future to strain every nerve in their attempt to regain their independence. The recognition of their nationality in any official capacity, in the same way for instance, as French is recognized in Canada, would be a great mistake. It is the official equality of the French and English languages in the Federal Government, has more than any other factor, prevented the assimilation of the two races. If due consideration is given to the effect of dual language in Canada the same under will certainly not be repeated in South Africa.

MR. CHAMBERLAIN TO VISIT CANADA.

Hon. Mr. Chamberlain is not the only Englishman we should like to see visit the Dominion. The industrial capitalists of the Mother Country ought to visit Canada so that they may realize that this country possesses nearly all the resources that have contributed to the industrial supremacy of the United States. The way to repel the so-called defensive measures of the Mother Country is to be confined to Great Britain as a bold, aggressive policy, the scene of which should be located in Canada. The way for Britain to fight the steel trust is to invite a number of plants operated by the trust in the United States. Canada is a rich iron ore and the United States, and all that is required to make Canada a rival of the United States as an iron producer is the necessary capital and experience. Great Britain can supply these. It seems to us that Great Britain's all hope of resisting the American invasion is by taking advantage of the industrial possibilities of Canada. But a big change in the relationship between Canada and the Mother Country is necessary before this development can be expected. The statesmen and manufacturers of Great Britain will have to emerge from their insular isolation. They will have to extend the scope of their vision and their operations. Canada must be annexed industrially to the Mother Country in the same way as the south and west are annexed to the east in the United States. What is needed is a rapid and economic communication across the Atlantic. This can be accomplished by cheap telegraph cables, especially on newspapers and magazines, a rapid steamship service and low freight rates. The iron masters of Great Britain ought to be able to reach Sydney in three or four days, and state-owned cables, transmitting messages at a penny a word, should completely annihilate space in the dissemination of intelligence and business correspondence. But we can never hope for Englishmen to take a substantial interest in this country until they shake off their insularity. And the best way to secure this much-desired object is for the statesmen and industrial capitalists of Great Britain to get in closer touch with Canada and to realize its great possibilities, which they can only do by visiting the country and seeing the situation for themselves. Englishmen will see that not only has Canada the same natural resources as the United States, but that her people have the same business instincts and capacity as the people to the south. The history of Canada during the last decade shows that Canadians are just as swift as the Americans. Prime Henry summed up the national characteristics of the American people by referring to them as "a fast moving nation." Taking into consideration the disparity in population and wealth between the two countries, Canada is just as fast-moving as the United States. New propositions of magnitude are coming to the front every day in Canada, the

outcome of Canadian enterprise and ability. If the capitalists and business men of the Mother Country would come across and take a hand in the development of the country, we would witness the same activity that has been characteristic of the United States in recent years. It is to be hoped, therefore, that the report is true that Mr. Chamberlain proposes to visit Canada and that his example will be followed by scores of the business people of the Mother Country. Great Britain is not only very limited in area, but its resources are becoming exhausted. Canada, on the other hand, is practically limitless in extent, and its great resources have as yet scarcely been touched. The great fact the Mother Country should bear in mind is that the increase in the effective population of the empire will be almost wholly in the colonies, and principally in Canada. Canada can easily maintain a population of fifty millions. Great Britain should shake off its insularity and grasp the significance of this fact.

CANADA AND WORLD POLITICS.

New York, March 30.—The following letter appears in The New York Sun. To the Editor of The Sun: Sir,—The report that Great Britain has called upon Canada to furnish 2000 additional cavalry for South Africa, suggests some grave consideration for the American government. Is not the employment of Canadian troops in a war with which this hemisphere has no concern a source of danger to the Monroe Doctrine? The Dominion, having voluntarily involved itself in a predatory war in behalf of England, cannot avoid being called upon to give military aid to the imperial authorities in the future. Under the Monroe Doctrine, we claim paramountcy over this continent, but we cannot object to Russia or France invading and holding Canadian territory, should Canadian troops be employed against them. Congress should protest, therefore, without delay against the drafting of Canadian troops in a predatory war unless it is prepared to abandon the rights we claim under the most vital and fundamental principle of our national policy. Should our government now by its silence seemingly admit the right of Britain to recruit her armies from American dependencies, we may yet have to face the prospect of dismemberment among the European powers when the inevitable day of reckoning comes for the European empire. T. St. John Gaffney.

POLITICAL INTELLIGENCE.

The ninth legislature of Ontario expired on Saturday by effluxion of time. The announcement of the dissolution of the House was expected all week, but the government, for reasons best known to themselves, did not now avoid themselves the act passed at the session of 1901 extending the life of the legislature. It is said that R. J. Reardon of Kilmuir, a member of Dufferin County Council, will be an independent candidate in Dufferin. W. T. Bailey of Rossley is in the field as the pro-Conservative candidate, the latter having held the seat by large majorities, and his re-election is said to be conceded. The annual meeting of the Conservatives of West Huron will be held at Smith's Hall on Wednesday, April 9. The convention for the nomination of a candidate will be held at the same time. The Conservatives of South Huron will hold their convention at Hensall on Thursday next. That Mr. Elber, the present representative, will be the choice goes without saying. The Dufferin Post calls upon John Smith, M.L.A. for Peel, to retire. It says: "Surely it is time that he should retire and give a young man of the vigor, eloquence and enthusiasm of Mr. Charters a chance in the public life of the country. This monopoly of office is tolerated too much in Canada, and the independent and intelligent electors of Peel should vote for passing parliamentary honors around."

The Borden Conservative Club of Niagara Falls Intend to Invite a Number of the Leading Conservatives of the Province to Address them in the Near Future.

It is said that Dr. Preston, New- boro, will be a Conservative candidate in Leeds in the coming provincial campaign. Walter Beatty says he will again be the Conservative candidate. It is probable that T. B. Lucas, M.L.A. for East Grey, "The Boy Orator" of Canada, will have one of his opponents in the coming election. Reeve Davis of Furphrasa, who is mentioned as a possible prohibition candidate. The hopes of the Liberals of Fort William and Lake of the Woods are centered in D. C. Cameron, who was nominated the other day at a convention held in Rat Portage. The following question will be put to every candidate for the legislature by the prohibitionists: "Are you in favor of the prohibition of the liquor traffic to the full extent of the ascertained powers of the province?" E. C. Carpenter, the sitting member for North Norfolk, will be opposed at the coming elections by Dr. Snider, who is looked upon as the strongest man available. The prohibitionists of North Oxford have decided to have their own candidate in the local elections. The prohibitionists of Lincoln will bring out a candidate, thus making a three-cornered fight. R. R. Gamay of Gore Bay, the Conservative candidate for Manitowish, says that the people in New Ontario are dissatisfied with the way the government is treating them. Peter White, Jr., was the unanimous choice of the North Renfrew Conservative Convention at Pembroke, Saturday, for the local elections. The Liberals of South Huron, at Hensall, on Saturday, nominated M.

Druggists say it's the biggest seller. Users say it will cure anything that ails you. It's a great liniment anyway. If it fails to cure the Grifflins & Macpherson Co., Limited, would like to know it.

Carpet Co.'s Team Won By 3 to 0.

A fast and well-played game of Association football was played on the Queen City baseball grounds Saturday afternoon between the Toronto Carpet Company football team and the Street Railway Company's team. The game opened in favor of the Carpet men, and for the first 15 minutes the play was all at the Carpet Company's end. J. Robinson cleared, crossed between Dale, Phillips and Silman, and the pass-over from the left wing Brown passed the first point for the Carpet Company. After five minutes play the Carpet Company worked the ball toward their opponents, and after a combined assault, in which all the forwards participated, Brown scored the first goal for the Carpet Company. The play from that half-time was of a very even character. The change of ends left the game 2 to 0 in favor of the Carpet Company. After the interval the Carpet Company again got to work, and after about 10 minutes play a third goal was added by A. Robinson. Special mention should be made of Halfbacks E. Crossland, A. Robinson and A. Hooper, who played the positions nicely, and J. Robinson, full-back; in fact, each member of the team contributed his share toward the victory. The team for the Carpet Company was as follows: Goal, F. Long; backs, J. Robinson, E. Elberly, halves, E. Crossland, A. Robinson, Hooper, forwards, A. Silman, J. Phillips, T. Dale, E. Brown, F. Packet. The Carpet Company would like to hear from the fans of the other teams who would like to arrange a game for Saturday, April 6. Address James E. Phillips, 254 Dufferin-street.

Streetcar's Best North Toronto.

The Strathcona baseball team played the North Toronto team on Saturday, winning by the score of 10 to 0. A. Tobin pitched a fast game all the while, and the team behind the plate, with a North behind the bat, failed to get a run. The best of the team, which brought them in the game, was the team lined up as follows: Avison, 1b; Morrison, 2b; Hamilton, 3b; Tomlin, 4b; Day, cf; Collier, 5b; Battery for North Toronto, Sweeney and Clevens. Any team wishing to arrange a game with the Strathcona should address H. H. Harrison, secretary of the team, 305 Parliament-street.
