THE BRITISH BUDGET AND THE

EMPIRE AT STAKE recent imperial press conference the widespread attention given to Wells' latest book, "Tono-Bungay" (a study of modern England from the social standpoint), the present struggie over the Lloyd-George budger, a strong sidelight on which was cast by the workmen's demonstration in London on Sunday, all suggest the great question for English-speaking peoples, the future of the empire.

According to Mr. Weils Mother England has about completed her cycle, and that cycle has ended largely in failure if we are to judge from th number of miserable lives lived by the majority of her people. The spread of intemperance, the lust for betting, the lack of decent existence for a large percentage of the people are things that few soher-minded men would you know that the great bulk of the income of the nation goes into the against 45,000,000 of the masses, the you find this same 250,000 rich, who get most of this money, clamoring for ways looking exclusively after divithem by the new budget of what appause for a moment and ask where it favorably with others. But those reagainst invasion, largely made by the them into touch with the great centres saving existing social and economic great future, judged by the figures for by R. T. Shillington. He is also supconditions in England under the guise 1908 and its management should make of saving the empire rather than an the result an encouragement for fureffort to save the people and to save ther expansion. the empire at the same time, which is certainly a commendable ambition and
