# THESE STURDY LIFE-PARTNERS

# ATTRIBUTE THEIR GOOD HEALTH TO "FRUIT-A-TIVES"

Everyone for miles around Grande Ligne, P.Q., knows Mr. N. Joubert. He was born and raised in St. John's Co., went in business for himself, prospered, and then retired to enjoy the fruits of his industry. Mr. Joubert and his esteemed wife have the respect of a wide circle of friends and acquaintances. Although Mr. Joubert is now 80 years old, and Mrs. Joubert is 75 years, they are enjoying the best of health. This is due to ne marvelous powers of "Fruit-a-tives."

SATURDAY MORNING

Grand Ligne, Que., Jan. 2, 1910.

"I heartily recommend 'Fruit-a-tives' to all who suffer from Constipation and the painful consequences I am now over 80 years of age and suffered for over 20 years with Constipation and Piles. I tried all kinds of remedies, saw the doctors and took their medicines, but nothing cured me. About four years ago I received a sample of 'Fruit-a-tives'. After taking a few doses, I really felt that 'Fruit-a-tives' were doing me yould good. As 'Fruit-a-tives' were not sold here, I wrote to Ottawa for several boxes. My previous opinion of the years was more than confirmed by the wonderful good they did me. After taking four boxes aged partner he will retire from active life, locating in Aurora.

"My wife was troubled for three years with Asthma and Eczema on the hands, which made her hands

almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to use rubber gloves (she wore out three pairs). I persuaded her, as a last resort, to try 'Fruit-a-tives.' The effect was marvelous. Her hands are cured and the Asthma has also left here. We both attribute our present

It does seem wonderful to think of one remedy curing four such diseases as Constipation, Piles, Ecczma and Asthma. Yet when you think of it, all four troubles are caused by one thing—poisoned, blood. Old age brings a certain weakness. The liver becomes clogged and does not give up enough bile to move the bowels regularly, causing Constipation and the Constipation in turn causes Piles. Waste matter in the system is carried to the skin and fungs, causing Eczema and Asthma. "Fruit-a-tives" cures all such diseases be is not made by a drug trust—nor some chemist who knows nothing about disease. No! ## Sinking Spells Every Few Days

"At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless and without appetite; had neuralgia in my head and heart. After taking the remedy a short time all this disappeared and in a few weeks all the heart trouble was gone."

Wedding Gifts That Are Different. Answering the question, "What shall give?" at Christmas and on birthdays is much more simple than answering it when the flood of June wedding-invitations begins pouring in. Of course, when the bride-to-be is a dear friend and you know all of her tastes and preferences, it is not hard to se-lect a present, but when she is comparatively—or perhaps entirely—un-known, you must trust largely to luck I always say, "When in doubt, give sugar-tongs." A pair of plain heavy silver sugar-tongs, with the bride's monogram on it, is a present that isn't likely to be duplicated, and will be immensely liked and used every day. A tea-caddy, too, of Sheffield plate preferably, makes an attractive gift which may be bought for as little as five dollars. Indeed, Sheffield plate offers great possibilities in the way of wedding-presents. Most brides would appreciate a set of casters in Sheffield. while a pierced sugar-basket with a lining of dark blue glass looks like a real antique, tho it is only a modern replica. A Sheffield sauce-boat and tray (they form one piece) would be liked by any girl who is going to keep house.-Caroline Denton in Woman's

City.

KINGSTON, July 8 .- (Special.) -- Dominion Parole Officer Archibald is un an ojcial visit to the penitentiary. This Canada eleven years ago, Mr. Archi-baild said that he was at the present time making out a report for the de-partment, but could perhaps give ap-proximate figures. Since the system was established in 1899, he said about 2100 prisoners were released on paroje. Out of that number only about 65 had forfeited their liberty. That is a spiendid record, Mr. Archibald said. Nearly 2000 have won their full liberty and are in the enjoyment of good citizenship. showing that they were not criminals, but had yielded to temptation in mo-ments of weakness, and afterwards deeply regretted their acts and repented in sackcloth and ashes. One thousand prisoners are still reporting. Last year 450 prisoners completed their paroles. Of the 3100 pisoners paroled in eleven years, 1800 were from the peni-

reformatories.

The number of paroles has been steadily increasing, but Mr. Archibald thinks that the limit has now been reached. Last year the paroles totalled about 578, or about 100 more than in the previous year. In the prisons of Canada Mr. Archibald said that there were about one-third of the priscners in whom the utmost could be put if they were released on parole. There were probably from 15 to 20 per cent. who would be better, incarcerated for life, as they were genuine criminals.

One year Mr. Archibald followed up the prisoners paroled, of whom the were 300, and found that they wer earning a total of about \$120,000. The, chad "made good," and were valuable

"Imagine it! Just a common, barnyard rooster and yet he is the new fashion fad of the hour," says Grace Margaret Gould in Woman's Home Companion. "Perhaps, in days gone by, before Edmund Rostand's 'Chantecler.' electrified Paris. were roosters stattered here and there in prosperous-looking barn-yards who thought themselves quite the finest things ever in their own feathered world. Vain and domineering, they were, but never, oh, never, in their wildest dreams of the happy future did they picture themselves strutting into the fashion world of both Paris

and New York. "And yet that is just what has hap-pened. Since Rostand chose the fowls of the barn-yard for the characters in his play, the fair Parisienne has been wearing the chantecler hat in varied forms.
