A NEW ONE FOR THE PITCHERS

The "Shirt Waist Ball"

Latest Discovery in the Pitching Line.

You've heard about the knuckle ball, the spitball, the curve and endless others, but the versatile twirler has added still another to the list. The latest discovery is the shirt waist ball. More properly it should be called the "shirt waist" ball, for the garment generally termed "shirt waist" does not figure in its delivery. They call it that just to give it a fancy title. It is now used exclusively on the south-end grounds in Chicago, but Detroit pitchers, Eddie Siever, especially, figure on working it in Detroit with that new bleacher in right center as an aid.

The shirt ball is really only a fast one, shoulder high, in Chicago. It is used only on hot days, for it is then that all the fans in the bleachers in center field take off their coats. When they do this there is a straight white line parallel with the shoulder of the pitcher and the batsman's eyes. When the ball shoots toward him he cannot see it because of the white shirt.

"The ball is generally recognized around the circuit," says Siever. "All the Chicago twirlers use it and it helps them win many a game. With a new ball it is almost impossible to see it."—Detroit Journal.

BASEBALL

National League.

At Baltimore—Baltimore—Buffalo, rain.

At Jersey City—Jersey City—Rochester, rain.

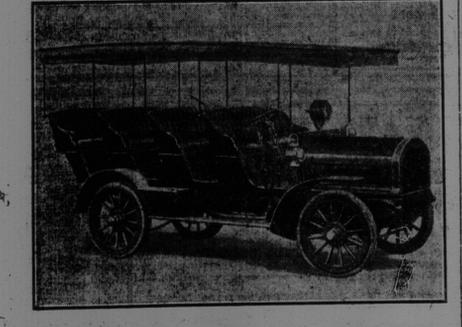

EASTERN LEAGUE PENNANT.

The race for the pennant in the Eastern League this year promises to be an exciting one. Nearly all the teams have a good lot of men. The Toronto team seems to be getting into proper form, and expects to work gradually up to the top of the list of averages. Montreal is also doing well. There is a good chance of one of the Canadian teams winning out.

SUMMERS-McGOVERN STOPPED BY POLICE

New York, April 30.—The police Tuesday night prevented the scheduled ten round boxing bout between Terry McGovern and Johnny Summers, of England, at the Old Broadway Athletic Club. The five hundred persons who gathered to witness the event were informed by the management of the hall that for police reasons they had declined to permit the fight to take place.

The spectators were then informed that the bout would take place at the Sharky Athletic Club. The police, however, were on hand when the crowd arrived there and informed the spectators that the projected fight encounter would not be permitted.

CRESCUS HAS BEEN SOLD FOR \$25,000

After negotiations lasting three years, M. V. Savage of Minneapolis has sold Crescus, 2:02 1/4, the fastest trotting stallion in the world, to a syndicate of Russians for \$25,000. Crescus is a chestnut horse foaled in 1894, by Robert McGregor, 2:17 1/4, dam Mabel by Mambrino Howard. He made his record of 2:02 1/4 at Columbus, O., Aug. 2, 1901. As a sire he has nine trotters and one pacer in the list, and one that has sired one performer.

Crescus' day as a race horse is believed by many to be over, but as he was the fastest trotting stallion in the world he will be immensely valuable for breeding purposes.

LOU DILLON FOALS A FILLY BY JOHN A. MCKERRON

Cleveland, Ohio, May 1.—The trotting champion Lou Dillon, 1:58 1/2, has foaled a filly by John A. McKerron, 2:04 1/2. The youngster is without a spot of mark and said to be in perfect condition. C. K. G. Billings, the owner of the trotter, said Lou Dillon would not be trotted this season and probably never again. John A. McKerron is owned by H. K. Devereaux.

Joe Page who has just recovered from severe illness arrived in the city yesterday. Mr. Page says that Ned Small is doing good work at Hartford, Conn., and Ramsey was at Holyoke. Mr. Page said that he had been corresponding local amusement men with a view of bringing Goteh and Rogers to this city. Sprague of the Montreal Eastern league club he said John Scott was the secretary.

Frederickton, April 30.—(Special).—The steamer Victoria arrived at 6 o'clock this evening on her first trip of the season. She brought a heavy cargo of freight but few passengers.

TIRE CHAINS ARE BARRED IN BOSTON

Boston, April 30.—Beginning the first day of May no automobiles equipped with tire chains, armored or metal-studded tires, or other devices of metal designed to give the driver a grip on the roadway will be permitted to be driven on any of the parkways under the jurisdiction of the Metropolitan Park Commission under penalty of a fine of not more than \$20. An order of prohibition has recently been framed by the commissioners and will become effective on Friday. The order reads as follows: "No person shall have in his control or operate upon any roadway, driveway or parkway an automobile which has upon, about or attached to it wheels or tires of any metal tread, a chain or any other metal burr, metal stud or other projection of metal which may come in contact with the surface of such roadway, driveway or parkway."

It is the claim of the commission that tire chains and studded tires tend to increase the wear of automobile traffic by tearing up the road surface. Such devices are used to prevent skidding and their prohibition will necessitate much more careful driving on wet days.

LONGBOATS STANDING LEFT TO C. A. A. U.

Ottawa, April 30.—It was learned yesterday that the Canadian Olympic Committee, comprising Col. Hanbury Williams, P. D. Ross and Mr. Macdonald (Toronto), has decided that the question of Longboat's amateur standing should be left to the Canadian Amateur Athletic Union. This would appear to settle the controversy that has been going on for some time past as to whether Longboat is a real amateur or not. For months the argument between the American and Canadian unions has been going on as to the position of the great Indian runner from an amateur viewpoint, and the general charge has been made and denied so many times as to be monotonous that Longboat is not an amateur.

Last summer during the Carnival here the question of expenses paid to Tom Flanagan's Irish-Canadian brought about an investigation by the C.A.A.U., as to the Irishman in general and Longboat in particular, and in a statement that was forwarded to the Olympic committee it appeared that the Irish and Longboat were in no way guilty of transgressing the amateur laws.

It would appear that while the charges against Longboat have been all general, there have been none that laid their fingers on anything specific.

It also develops that one or two recently arrived English sports have been very busy in casting doubt on Longboat and his standing.

CUP DEFENDER A FISHING SMACK

Famous Yacht Columbia That Defended America's Cup and Other Well Known Ones in the Fishing Business.

New York, April 30.—Two of the best known of American yachts are to be converted into fishing smacks. One is the old America's cup defender Columbia, which was disabled in a race with the Livonia in 1871 and is the only defender of the cup ever beaten in a single race with a British challenger. The other is the famous Atlantic, built at Bay Ridge in 1886, for a syndicate of Sea Gate yachtmen.

Both will be sent south and used in taking from turtle and terrapin for the New York market. Edward S. Reiss, of No. 32 Broadway, who purchased them, said they will add new laurels to their careers.

The Atlantic left Newport, L.I., under command of Capt. Nolan, of this city, and a crew of five men. She will come West through the Sound and be headed out at Astoria to be converted into a fishing smack. The Columbia is in Ward's dry dock at Astoria.

The old cup defender's last race, when she succumbed to the Livonia, has been almost forgotten here in the triumphs of her successors, but it will never be forgotten by British yachtmen. The America yacht broke down as a race horse does, after defeating the Livonia twice. When she was towed down the bay to the yard, the rigging was in need of setting up, her foremast was sprung in the hounds and her crew were worn out. They had "collebrated" their victories. Sailors from the yacht Dauntless were sent aboard the Columbia, and Andrew Comstock, sailing master of the Magio, took her wheel. Lester Wallace, the actor, and Henry Stears, brother of George Stears, designer of the America, were on board. So much sail was set before the start and once the defender went down to her sheer poles.

All hands stood ready to jump, fearing she would capsize. Her foremast toppled split, and her flying jibstay went by the board. In consequence she was deprived of the starting line but she did not give up. She held her own enough to give her proper balance under her full mainsail.

Then her steering gear broke, the standard holding the spinnaker and the flying way. She was helpless for some minutes, until her crew knocked her mahogany wheel box to pieces. She was headed on her course again, but her troubles were not over. In a few minutes her mainmast was struck and she was headed on her course again. Two days afterward the Sappho beat the Livonia twice.

TAX COLLECTORS WILL BE PAID SALARY

This Was Recommended by the Treasury Board Last Evening—Every Day Club Gets Grant—Other Grants Awarded.

The treasury board had a busy session last evening and transacted considerable business. Grants were made to the playground committee, the free kindergarten, Every Day Club, Horticultural Association, Associated Charities, Natural History Society and Tourist Association. Police Magistrate Ritchie's application for an increase in salary was referred to a special meeting. John A. Boves was awarded the contract for printing the chamberlain's report. The matter of issuing bonds to cover a deficit of \$131,351.55 in various departments was referred to a special meeting. The street railway account shortage was ordered charged up to the "Sandall account." A recommendation was passed that in future all tax collectors should receive a salary instead of commissions.

Several delegations were first heard regarding their applications for grants and after they had withdrawn the matter was generally discussed. It was shown that altogether \$11,000 was given various institutions in grants.

Ald. Vanwart moved that the playground committee be given \$300; the free kindergarten committee \$200; and Every Day Club, \$200. The motion was adopted.

This is an increase of \$100 each over last year for the playgrounds and the free kindergarten, while the Every Day Club is a new grant.

The usual grants were passed for the following institutions: Horticultural Association, \$4,000; Associated Charities, \$250; Natural History Society, \$200; Tourist Association, \$750. No action was taken in the matter of a grant for Riverview Park on Douglas avenue. The grant last year was \$300. It was the general opinion of the board that the city could not take over the work of the playgrounds.

A communication from the Commercial Gazette asking that the city have a drawing of the city made at a cost of \$250 was referred back for further information.

A committee appointed to consider a proposition from the "Standard of Empire," regarding an advertisement in that paper reported they had met with a committee of the board of trade and recommended that the matter be taken up in conjunction with the provincial government. The report was adopted.

Applications from A. A. Sherwood and William H. Logan to be appointed constables, were referred to the meeting of the board on Tuesday next.

Ald. Kelley moved that before the constables were sworn in they should furnish bonds of \$400 to indemnify all employers against loss. The motion was adopted.

Tenders for printing the annual reports of the city were opened.

Barnes & Co. offered to furnish 300 copies at \$1 a page for long primer type, or \$1.30 a page for nonpareil, and A. A. Boves offered to do the work for 55¢ a page for 10-point type or \$1.15 a page for 6-point. Certified cheques were enclosed with each tender.

On motion of Ald. Kelley, the tender of J. A. Boves was accepted.

A motion was passed requesting the city order to submit his bill against the city quarterly, in future.

The matter of a bill to be presented to the legislature by the hospital committee and the recorder for his opinion as to what attitude the city should take concerning the bill.

The regular monthly accounts of the various departments were passed, vote.

Ald. Kelley's motion regarding tax collectors was as follows: "That the treasury department recommend that the services of all tax collectors now employed by the city on commission basis be discontinued and that in lieu thereof, collectors be engaged on a salary. Carried."

AN EXPRESSIVE INTERVIEW.

Washington, May 1.—Speaker Cannon used some more language when asked about the impression created on his mind by the wood pulp hearings. He pondered for some time, smoked heavily and then said: "Blank, dash, bang, blank, boom, to blinkety dash-blank-bang."

Further than this the Speaker refused to be quoted.

MR. BORDEN DEMANDS THAT CIVIL SERVICE BE PROBED

He Moves For Independent Commission to Inquire Into All Departments.

Ottawa, April 30.—"That the investigation conducted by the Civil Service Commission was confessedly partial and incomplete."

"That the proposed inquiry before Justice Casella is un satisfactory and inefficient, inasmuch as it relates to only one paragraph of the report of that commission and touches but a portion of the administration of the department."

"That this house regrets the deplorable extravagance, waste, inefficiency and maladministration revealed by that report and declares that immediate steps should be taken to reform and redress the same."

"That the public interest imperatively demands the appointment of an independent commission with full powers to make a thorough and searching investigation into the several departments of the public service."

The above resolution was moved by R. L. Borden at the close of a magnificent speech in the house this afternoon. The report of the Civil Service Commission was reviewed in detail and, indeed, but little argument was needed beyond citations from that report to back up the resolutions which proposed.

The system of political pull and patronage, which the commissioners so strongly condemned, was thoroughly discussed by Mr. Borden who declared that it was to be found the great source of utter demoralization existing both in Ottawa and throughout the Dominion. Promotions were made and salaries fixed, not by ability, and industry but by the amount of political pull which the civil servants could bring to bear. The service at Ottawa was, he believed, "overmanned and underpaid." In the outside service men were put into responsible positions who had no qualifications whatever and were practically useless.

The opposition leader recalled the fact that when the opposition laid charges against the minister department two years ago, the premier had pronounced them "froth and wild-talk." Now, the Civil Service Commission's report proved the truth of these charges. The premier would hardly call his findings "froth and wild talk."

The claim had been made that the conditions existing in the marine department were a legacy from their Conservative predecessors. Mr. Borden read from the report of the commission of 1892 which had found no such conditions as are described in the 1908 report.

The hon. member existed in 1892 had apparently been assassinated or destroyed under the Liberals.

Mr. Borden quoted from parliamentary authorities to show that in England the head of a department is held responsible for everything in his department and he could not agree that a Canadian minister should be held responsible, that he "should be a mere machine." He stoutly criticized the appointment of Messrs. Watson and Perron to assist Justice Casella in the investigation. He said that he is absolutely satisfied with the appointment of Mr. Watson, "and quite satisfied with the appointment of Mr. Perron. I do not believe that the Civil Service Commission should have completed their investigation and put their finger upon the guilty parties and falling to do so, Judge Casella had been appointed to complete their work. He defended the appointment of Watson and Perron to assist Judge Casella, holding that their legal honor would prevent politics influencing them. He wished it understood that the civil service commissioners were not in any sense on trial. He could not see the necessity of a general investigation of departmental affairs as called for by the opposition. He thought statements made in the report about the militia department were "quite uncalled for" and claimed that in comparing the militia expenditures as Mr. Broder, Dundas, had made outside the house, an appeal was being made to the worst prejudices.

G. E. Foster, who followed, said the Premier's speech in reply to Mr. Borden was inadequate, he either did not fully appreciate the seriousness of the situation or was trying to sidetrack it. The Premier's reply was clear and his (Foster) did not expect such a report as had been made by the commissioners. Mr. Broder's responsibility was clear and the minister could not escape. He had neglected the efficiency of his department in order to devote his time to the political end of it. He was not a man of high caliber, because, Mr. Aylesworth had made an attempt to shift the responsibility to "Tory goals." Mr. Gregory, of Quebec, for instance, a man who had been over-ruled by letters from Mr. Prefontaine, the former minister of the crown.

Continuing, Mr. Foster said that in order to save Mr. Broder from responsibility, Justice Casella's hands had been tied. He could inquire only as to the dishonesty of officials. Messrs. Watson and Perron would decide what matters would be investigated. He did not take any stock in the Premier's argument that no lawyer would be influenced by his political leanings or affections. It was something that was never forgotten by a government in making such appointments.

Mr. Foster declared that if the government would investigate all matters of a non-partisan civil service he would give his hearty support.

After brief speeches by Hon. Mr. Fisher and Andrew Broder (Dundas), the minister of marine and fisheries defended the attitude of the government. Mr. Foster said he had read all sorts of insinuations against him but he never risked his seat by making charges. Dealing with Mr. Borden's resolution he said that a paragraph in the first paragraph of it would be a vote against the investigation, which is proposed to have made under Judge Casella.

It was true Mr. Broder said that the department had spent a good deal of money, but the expenditure was made necessary to a great extent by the fact that the Conservatives, when in power, had neglected to develop the country. He read resolutions adopted by the Board of Trade and Shipping Federation approving what had been done by the government to improve navigation.

Returns brought down yesterday show that last year \$31,000 was spent for clothing, food, etc. for immigrants after landing in the country, as compared with \$7,500 in the nine months previous.

The debate was closed by Mr. Guthrie. The division resulted in the resolution being carried 92 to 45.

Mr. Borden read a telegram from the Board of Trade, of Yorkton, protesting against the dumping of a train load of naked potatoes on the prairie.

All Sir Wilfrid said was that they were amenable to the laws of Saskatchewan. The house adjourned at 1:30 a. m.
