## THANKS, MR. ROCHE

Why did Mr. Roche, M. P. of Halifax, ask in parliament concerning the fact that the Empress of Britain did not at once come up to her berth on arrival at St. John harbor on the evening of Dec. 7th? The steamer had no mail on board, blizzard weather prevailed, and she lay outside until the following day. Had there been mail, and had it been necessary, the mails and passengers could have been sent ashore by tender. But the mails had been landed at Halifax, causing a delay which brought the steamer to St. John at low tide in the evening. Had the steamer come direct to St. John, her mails would have reached Montreal as early as they did by way of Halifax. This is the vital point to be noted.

"Why did not the postmaster general direct attention to this fact in his reply? And why did he say the steamer was delayed by fog? There was no fog, but a white vapor low on the water, caused by intense cold. The wind was out of the north and no fog ever comes from that quarter."

Perhaps Mr. Roche, M. P., has done this port a service. He has directed the attention of all Canada to the fact that the entrance to the chief winter port of Canada should be dredged by the government without delay. The government cannot afford to have one of the principal supports of the country left in this condition any longer. The channel must be made straight and dredged out, so that vessels of the Empress class may come up at even dead low tide. The dredge fishing is now at Yarmouth. If she is in proper condition she should be sent here to do this work. The government must see, since Mr. Roche of Halifax has so pointedly directed attention to it, that this dredging must be done as soon as possible. It is a work called for in the interests of the whole country, and will doubtless receive the warm support of the able member for Halifax.

In the meantime, tide or no tide, fog or no fog, by bringing the mails direct to St. John, the C. P. R. can land them in Montreal at least as soon as they can reach that city via Halifax. St. John is good enough for the overseas mail, and they were taken on board here today, but they must be delayed at Halifax to take on other mails that should also be received at St. John. The country cannot long endure this sort of thing. Sectionalism must go, and the interests of the whole country be regarded.

## THE FIRST STEP

It should be a natural inference from the tenor of the speeches at the luncheon on the steamship Empress of Britain on Wednesday afternoon that steps would be taken without delay to provide for the construction of another steamship berth, in addition to the one now contracted for.

The dredge Beaver will soon have completed the dredging necessary in connection with the wharf which Mr. Clark is building, and will then begin digging at the site of the next one, for which as yet no tenders have been called. That berth should also be completed before the winter of 1907, so that then two more berths than are available this winter will be at the service of the steamship lines. The members of the city council are kept very busy at present, but this subject is one that should command their immediate attention.

## REALIZATION

At the luncheon on Wednesday Mr. W. S. Fisher appropriately referred to the late Governor Boyd, who so long ago, in a memorable address, declared that western trade must eventually come to St. John, and who referred to this port as the coming "Liverpool of America." These are days when one likes to recall the memory of those whose abounding faith in the future of this city sustained the spirits of the citizens in many an hour of doubt and struggle and disaster. Happily there always have been such, in the city's eventful history, and their memory should be cherished.

To a newspaper man who for nearly a score of years had found it a portion of his duty to attend board of trade and other meetings, where the condition of the port, its future prospects, and the possibilities of trade expansion in various directions, but especially as a winter port, were discussed, the speeches on Wednesday were especially interesting, because they summed up so much that had been from year to year the vital thought, the hope and the desire of the people.

## OPEN AIR RINKS

The Times recently suggested that the Weldon Lot, at the corner of St. James and Wentworth streets should be converted into an open air skating rink for the children. No response has been made to this suggestion. In a letter in today's Times, Miss Mabel Peters points out that the city of Detroit devotes \$1,000 to the purpose of providing such rinks in various parts of that city. Why should not arrangements be made in some way to make a rink on the Weldon Lot, which is eminently suitable, being very large, and being the property of the school board?

One of the city churches has decided to convert a vacant space in rear of the church edifice into a rink for the use of the children of the congregation. This is an excellent example, but there is no reason why a large public rink should not be provided. It would be a great boon to the children and the expense would be comparatively small. Very many children cannot afford to pay for each sport, and their opportunities are therefore very limited.

## CONTINUE THE WORK

Mr. W. H. Thorne, a member of the board of trade committee that has for a long time been giving special attention to the question of providing St. John with a complete system of docks, with all the necessary dredging and other work required, is of opinion that an expenditure of between four and five million dollars could be profitably made by the government in a few years, converting St. John into a properly equipped national port. The Canadian Pacific Railway officials make it clear that in their opinion the growth of trade will warrant this expenditure, and if it is not made the trade will go elsewhere. Everybody concedes that the city has done more already than should have been expected of it, but the expenditure has not been in vain. If \$200,000 or more per week is paid out in wages in connection with winter port traffic, there is a tangible return to the people for their confidence and enterprise. Therefore, while the effort is being made to get the port nationalized the construction work must not lag nor trade be permitted to pass by.

Some of those English women who want the power to vote continue to submit evidence of their ability to scratch the honorable gentlemen opposite, whatever they might be able to do with a ballot.

The Times Montreal correspondent intimates that as a result of the Tennyson Smith campaign there has been a marked falling off in drunkenness in the railway town.

The mayor should keep a diary. Busy merchants have something due to do at this season than to sit at city hall twiddling their thumbs and waiting for him to keep an appointment.

Western liberals have informed the government in emphatic terms that they consider the Canadian tariff high enough. They could endure it if it were lower.

President Roosevelt has abandoned simplified spelling. The St. Louis incident suggests that he might with profit abandon all kinds of spelling on paper.

Legislative action to prevent a tie-up of coal mines by strike or lock-out would be in the public interest.

## A PLEASANT RECEPTION

Doors of Protestant Orphan Asylum Thrown Open to Visitors Last Night.

The doors of the Protestant Orphan Asylum were thrown open to guests last night. Among those present were Mayor and Mrs. Sears, Revs. W. E. Hand, R. Mathews, David Lang and W. E. Marshall; School Inspector Carter and Mrs. Carter, Dr. and Mrs. Frank, T. S. Simms, Mr. and Mrs. W. C. Cross, T. H. Estabrook, Rev. W. W. McMaster, Dr. and Mrs. W. S. Fisher, Mrs. E. J. Smith, Mrs. Thomas Walker, Mrs. H. L. McLean and others.

In the absence of the chairman, W. S. Fisher was in the chair. The children sang an anthem, and the chairman followed with a brief address. He stated that there were sixteen boys and twenty-three girls sheltered in the asylum, and traced the history of the institution. Mr. Fisher made an earnest appeal for aid as he said that there was a deficit of nearly \$200. The chairman also stated that many orphans could not be accommodated on account of want of more room.

Mr. Fisher told of the good work done by Mrs. Adams in the school room, by Mrs. Frost and her sister, and also by the medical men, who give their attendance free of charge.

Rev. Thomas Marshall spoke a few words after Miss Edith had given a recitation. The orphans then repeated a psalm.

Mayor Sears complimented the staff on the good work done and the chairman then announced that Mrs. H. L. McLean had invited all the children to visit her residence for Christmas afternoon at four o'clock.

The entertainment was brought to a close with a dialogue, in which many children took part.

## THE VOICE THAT CALLS.

Far to the Northland, far,  
By the shores of the inland sea;  
Where the snows are white and  
Through the white snow drifts  
There's a voice that calls to me.

Far to the Northland, far,  
Runs the trail of the years that flee;  
In the forests so wide and free;  
Where the red deer roars  
In their woodland home—  
There's a voice that calls to me.
