

PROSPECTUS
Of the Nova-Scotia Baptist Education Society,
and of the Literary and Theological Institution
to be connected therewith.

It is universally admitted that Education has a powerful influence on the interests of Religion, and the welfare of individuals and society. In this Province a wide field is open for exertion, with reference to this object; and the Baptists, as forming a very large portion of the population, are called on to engage in this good work, with energy proportioned to the advantages in prospect; and earnestly to seek the Divine Blessing upon an undertaking bearing a close relation to the most important interests of men.

Two leading objects are to be regarded: the primary one, in a religious point of view, is the providing suitable instruction, to train the minds of young men, who feel themselves called to the ministry of the Gospel; such young men raised up from time to time among us, sigh for the means of mental improvement, and thus powerfully claim the attention of all friends of the Gospel in favour of this object, as one to which Providence seems to direct their labours.

The second object, of vast importance in itself, and in the present state of the country, essential to the attainment of the first, is to establish a good Seminary for the general instruction of youth, so situated as to afford as much facility of communication with the various sections of the Province as possible; and wherein the course of instruction, and the expenses of boarding and tuition shall be adapted to the state of society, and the condition of the people in general; that thus the advantages of Education may not, as has hitherto been too often the case, be confined to the wealthy, nor the time of the youth occupied with pursuits but little calculated to fit them for the stations of life which they have the prospect of filling.

For the purpose of compensating these objects, it is proposed,

1. That a Society be formed, to be called the Nova Scotia Baptist Education Society.
2. That all persons paying an annual subscription of twenty shillings or upwards, shall be Members of the Society.
3. That the funds of the Society shall be appropriated to the two main objects: first, to establish a suitable Seminary of Learning; and secondly, to afford pecuniary assistance to indigent young men called to preach the Gospel, for the purpose of enabling them to obtain instruction.
4. That a general meeting of the Society be held annually.
5. That there be appointed a President, two Vice Presidents, two Secretaries, and a Treasurer, a Board of Directors, and a Committee of Management.
6. That the Board of Directors be chosen at the annual meeting of the Society; and the officers and Committee of Management be chosen by the Board of Directors.
7. That of the Board of Directors, ten, at least, shall be ordained Baptist Ministers, and two thirds of the whole number, at least, regular Members of Baptist Churches in connection with the Nova Scotia Baptist Association.
8. That the Committee of Management shall consist of, at least, seven, and not more than twelve Members; of whom more than one half shall be regular Members of Baptist Churches in connection with the Nova Scotia Baptist Association.
9. That the Board of Directors shall hold, at least, one meeting every year, to consult on the affairs of the Society, and to report its state and progress, review the proceedings and rules of the Committee, and make such general regulations as may be found proper for the advancement of the objects of the Society, and the government of the Committee.
10. That as soon as means are obtained, the Society will establish and maintain a Seminary for Education, at Horton, under the direction and government of the Committee, subject to the supervision and control of the Board of Directors.
11. That a principal object to be observed in the management of the Institution, being, to adapt the course of study to the state of society, and the wants of the people, and to place the means of instruction, as much as possible within the reach of all persons, it is considered primarily necessary to attend to those branches of Education which are of more general use, at the same time to take a wider range of literary acquirements than are open to those who may have the ability to seek them, or to whose prospects in life they may be more suitably adapted. It is also considered desirable that as far as may be practicable, persons wishing to qualify themselves for the various callings of life, should have opportunity to receive instruction during their leisure seasons in the year, in the particular branches of study, more immediately requisite for their respective objects.

With these principles in view, it is proposed that this Institution shall afford the means of instruction in the usual branches of English Literature, and of scientific, classical, and other studies, which usually comprise the course of Education at an Academy and College. It will, however, be the business of the Committee to exercise their discretion from time to time, in adopting or discontinuing such branches of the course of study as circumstances may require or render expedient, and progressively, as the funds of the Society shall permit, to adapt this Institution to answer all the ends above proposed. Provided, however,

12. That of the Committee and Board of Directors, that part who shall be members of Baptist Churches, in connection with the Nova Scotia Baptist Association, shall have the sole regulation of the Theological Department of the Seminary.

13. It shall be the care of the Committee to provide efficient Teachers for this Seminary, to whose moral and religious character special regard will be had; and it is considered desirable that in every department under the influence of the Society, never to be lost sight of, that the scholars and students, while acquiring information to fit them for their various stations in life, should be led to a knowledge of the true relation of man to his Creator, and that faith in the Lord Jesus Christ, which alone can furnish a sure pledge of their good conduct in this world, and their happiness in eternity.

14. That the Seminary be open to children, and persons of any religious denomination.

15. That in the distribution of the objects of the Institution, it is essentially requisite that the whole system should be conducted upon a principle of the most strict and simple Economy, and no distinctions among the scholars and students, arising from wealth or external circumstances, be permitted to appear; the scholar will, as soon as practicable, be boarded at the Institution; and it is thought advisable to connect with the establishment a farm, under the care of some respectable person, for the supply of articles of provision for the use of the School, and for affording an opportunity of employing the Boys during a portion of their leisure time, in beneficial labour; by which they may obtain exercise, acquire a habit of industry, and be less exposed to the irregularities which result from idleness during seasons of leisure. The diet and dress of Scholars to be of the plainest kind, and to be regulated by the Committee, and made known as part of the terms of the school, to be conformable to without exception.

16. The terms of Tuition and Board to be fixed at as low a rate as possible.

17. The Funds for purchase of land, erection of buildings, and the various expenses incident to the commencement of the undertaking, as well as those which may attend its annual support, to be obtained by donations and annual contributions; the latter to be well assorted Prints and Furniture COTTONS; bales Homespun, Checks, Ginghams, and Stripes; 2 trunks Britannia Handkerchiefs; Boxes GLASS; Hds. LOAF SUGAR; Boxes SOAP, &c.—All of which will be sold very low for approved payment.
