This Principle is adapted to Sporting Rifles, for which it is eminently suitable, its flat trajectory giving it an advantage over every other kind; and the maker having perfected the manufacture of the BREECH-LOADING EXPRESS RIFLES, Double and Single, with large charges of powder, for which he has introduced a metal case with solid base capable of being used *very many times*, will guarantee the shooting equal to that of any muzzle-loader.

*Breech-loading and Hammerless Guns on the most approved principle, including choked bore barrels.*

GEORGE GIBBS was awarded a prize medal, London, 1862; Paris, 1867; Philadelphia Centennial, 1876;—highest award for excellence of workmanship in Guns and Rifles.
