THE MAN IN THE STREET

Well, it's partly over! Did you get your three in?

Now that the baseball season is on again, Uster and Mexico may fade into oblivion for a while, until they do something new and original.

We've not yet taken our straw hat out of "stock"—because—well—because mittens, mufflers and straw don't make a stylish combination.

Just ask Mr. Man—who-always-knows who the three new commissioners are to be, and see if he and his mates say the same.

The eggs are now selling at two cents apiece, we haven't heard of egg sandwiches costing any less than when they were precious luxuries, when the hens were taking their mid-winter vacation.

It is fair to suppose that any candidate for the office of dentist, promotor of the school trustees, would need to have quite a "pull."

Huerta is asking for pants, for his "army." Now here is a real good opportunity for those seeking to promote ideals of modesty, for merely as a matter of form if nothing else, a man needs trousers. Bullet-proof pants preferred.

"At variance over question of home rule," says headlines. Alas! Two ever thus, and yet remember how modestly and mildly she agreed to "obey."

"Ten thousand Canadians invade New York to see Easter finery," despatch said this week. It adds "mostly women," but this seems altogether unnecessary. All the men say with the same account.

Today we're meeting all those men who have the peculiar gift of knowledge which allows them to say "I told you so."

Here's a cry from Mexico for pants, in the hope of getting them, while in

An Old Settler Finds Quick Relief

CHAS. MARSHALL CURED BY DODD'S KIDNEY PILLS

Mr. Marshall Tells How His Husband Suffered, and of His Speedy Recovery When He Used the Great Canadian Kidney Remedy.

Parkinson, Algoma, Ont., April 15—(Special)—Living far from towns and with doctors not within easy reach, many of the settlers have found Dodd's Kidney Pills an inestimable blessing. One of those is Mr. Charles Marshall, Sr., whose recovery from a severe case of kidney disease has recently been the cause of much satisfaction to his family and friends.

My husband was suffering very much with his back and legs," Mr. Marshall says, speaking of her husband's cure. "He went to see the doctor, and he told him he had urinary trouble, but he did not seem to get any better."

Then I sent for some Dodd's Kidney Pills. Since taking them he has no more pain in his back and legs, and his other troubles are all gone.

"I am indeed thankful for what Dodd's Kidney Pills did for my husband, and I hope other sufferers from kidney disease will benefit by his experience, and use Dodd's Kidney Pills."

Urinary troubles are caused by diseased kidneys. So are backache, rheumatism, lumbago and heart disease. The natural remedy is to cure the kidneys by using Dodd's Kidney Pills.

England there's a wall against Ulsters from Ireland and Petticoats at home, in the hope of getting rid of them. No wonder they say it's a funny world.

"Easier Money in Sight," says financial wire. Been long distance range, so far as we are concerned.

Boston woman suing husband said he would not buy her new hat, and she had to wear a shawl over her head while visiting. By some of the price-tags on the hats we've seen she should consider herself lucky to have even that.

There may be luck in odd numbers, but that thirteen did not look particularly attractive to some folks yesterday.

News head says "Several sudden deaths cause shock." The reverse often works the same way.

Scientists this week lectured asking "How Do Glams Move, and Do They?" We're not fully prepared to answer the distinguished question, but such an internationally important query, but we can cheerfully assure him that they are always managed to move before they get into our chowder. Of it maybe that they were without the password, and couldn't get in.

Since Alfred Noyes is now a professor in Princeton, it is reasonable to expect that he will write a book for peace so that the football is concerned.

From the looks of some of those new "dolls" being worn by the young set of fashion about town, we cannot but wonder whether said "dolls" were made to stay on the head or the shelf? Of course it may be necessary to explain here that by shelf we mean none other than one of those in a hat store.

There is one of the employees of the customs house who will get rather peeved when any of his friends mention "tax trouble," says he. He bought a couple of little fellows one day last week and put them in a basket beside his desk until he could take them home at dinner time. One of the puppets, however, disappeared mysteriously through the morning, and the owner searched high and low, but no trace of the missing canine could be found and he gave up in despair. About noon one of the employees returned the pup to him, saying he had found it down stairs. It is doubtful if the story was believed. Meanwhile "dogs" is a touchy subject around the customs house. It is said that one of the men trying to get into the office for the office of "dog-catcher" if the city ever needed one.

It surely must have been an absent-minded lady who voted a milliner's receipt instead of the official ballot on Tuesday.

President Wilson's idea of vengeance for an insult to American honor is to force the Mexicans, by the full power of the whole United States fleet, to salute their flag. What would he suggest as a penalty if they refuse—a slap on the wrist?

Borden's cabinet is short-handed; New Brunswick might be able to spare a few without missing them.

April showers may bring May flowers, but it is a cinch that April chills bring more coal bills.

To Put on Flesh And Increase Weight

Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all back to say that this is the nature of the individual. It isn't Nature's way at all.

This folks say thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. It is not, as some believe, a patent drug, but is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless, yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.

NO AID GRANTED YET FOR RAILWAY BRIDGES

Ottawa, April 15.—In answer to Hon. Mr. Emmerson in the house today, Hon. Mr. Foster said that no order-in-council had been passed to provide federal aid for the construction of bridges on the St. John Valley Railway, but the matter was still under consideration. The end of the session is indicated as coming soon, in the notice of motion given by Acting Premier Foster for morning sittings. The remainder of the work before parliament will be rushed in order to hurry prorogation.

Recent Orders.

A judicial account has been ordered of all votes cast for controlships in the recent Montreal civic elections. The account is a result of a petition presented to Chief Justice Sir Charles Davidson.
