APlea for Morning Shopping

Now that the Days are Shortening and it becomes necessary to resort to artificial light so early in the afternoon, we beg most respectfully to impress upon the minds of Ladies who have shopping to do (and what Lady has not?) the great advantages that the morning possesses over the afternoon for purchasing DRY GOODS, and submit the following as a few of our reasons for so doing: The light is invariably better in the forenoon.

The stores are not so crowded. The Goods are in better condition and more accessible so that they want and not waste their valuable time in waiting.

We always have something of special interest to show to the Ladies who come in the morning, when our salesmen have spare time to introduce the various novelies that are daily arriving for our autumn sales. Our Establishment is open at seven o'clock in the morning and all salesmen are in their respective departments by eight, arranging the Goods for the day's trade, and bringing forward fresh Stock from the Wholesale Departments of our Warehouse, which must be done every day in order to keep the assortments of the various lines of Goods unbroken, and fill up the vacancies made by the previous

For reasons stated above we respectfully submit that Ladies will be studying their own interests by endeavoring to do as much of their shopping as possible between the hours of 9 a, m. and 1 p. m.
