

POOR DOCUMENT

The Kitselman WOVEN WIRE FENCE :-

The BEST and CHEAPEST
Fence on the Market.

THE KITSELMAN FENCE IS SOMETHING ENTIRELY NEW in the line of woven wire fencing, having a straight wire running lengthwise through every mesh or diamond, the mesh wires being twisted round each other as well as around the straight or parallel wires, forming the **Strongest Woven Wire** network ever produced—in fact it is so far ahead of any other netting for heavy strength durability and general utility that a fair comparison can not be made. Every wire and every twist in this **Fence** is a brace to all other wires to all other twists the full height of the fence. The combined strength of the straight and mesh wires is more than treble that of a fence made without any straight wires. This fence obviates the very objectionable feature of sagging which is the fatal fault of all old style netting. **OURS is the Only Machine** that you can take to the field or any place and make a **Woven Wire Fence**.

Do You Want to Make Money? :-

If so, purchase a right for operating a machine in your parish or county. With one of these Machines you can get more fencing to do in your own neighborhood than you will be able to do with one machine. There is no fence on earth that will take like this one. You will therefore, see that there are few enterprises that you can invest many times the amount in and make as much out of, as EVERY MACHINE will earn easily \$20.00 a day for its owner.

For particulars inquire at the **GLOBE Office, Fredericton, N. B.**

THERE'S MONEY IN TIMBER.

Some Sample Transactions in
The Ottawa District.

But the Pine is Rapidly Disappearing and
With it the Areas of Commercial Value—
Advance in Timber Value.

A late issue of the Montreal Star says:
—The last of the "square timber" rafts of
the season have passed down the Ottawa,
and the last of the great "drivers" of logs
in the Ottawa and Gatineau rivers have
come down these streams and joined the
already enormous accumulations in the
booms within a few miles of this city.
Most of the "cut," of timber in the woods
last winter was, as usual, a big step
further away than in previous years.
Every year sees additional miles added
to the now great distances which must be
travelled by those in quest of the timber
that is annually sawed here. Year by
year the forests are falling further back
and the available timber becomes less
choice. A generation ago pine for the
mills distant. An area of pine timber
half as large as the present has been cut
down—not the area, but the timber—by
the lumber firms of this city within the
lifetime of their present members. Some
of the rafts that have passed here this
season came four hundred and fifty miles.

From their Native Wilds.

The pine forests of Maine, northern New
York and Pennsylvania have been substi-
tuted by those of Michigan, Wisconsin
and Minnesota, which are now the
chief lumbering states, furnishing fully one-
half the lumber of the Union, last year put
out 9,000,000,000 feet. The industry in these
three States employs in all its forms over
one hundred thousand men. It can be im-
agined that these north-western forests are
disappearing pretty rapidly, too. The case
is similar in Ontario and Quebec, where the
annual cut is probably as large.

Probably the very best way to give an idea
of the rate at which the forests in the Ottawa
Valley are disappearing, and the proportion
of pine to which they are advancing in value,
is to quote recent deals in timber limits.
These appear to illustrate the rapid disap-
pearance of the forest between here and
Georgian Bay, the richest pine district in the
world.

A local lumberman gave the following as
facts regarding transfers of timber limits in
recent years:

William Mackey, a prominent citizen of
Ottawa, bought for \$300 the Amable du Fond
timber limit, 130 square miles, on the Mat-
tawa River, a tributary of the Upper Ottawa,
thirty-one years ago. He has held it since,
occasionally cutting a little timber—enough,
latterly, to bring him in a few thousand dol-
lars a year. Eight or ten years ago, Mr.
Mackey was offered and refused \$75,000 for
the limit. This was not a bad advance on
the \$300 paid for it some twenty years pre-
viously; but a couple of weeks ago a bid of
three-quarters of a million dollars came to Mr.
Mackey for the same limit. And gaged by
the advance in value of other limits in the
same period, this enormous appreciation in
value is not exceptional.

Mr. Mackey Again Declined.

Mosson Boyd a Michigan lumberman,
in 1886, paid \$86,000 for 68 square miles
of pine timber on the north side of Lake
Nipissing, which affords an outlet for logs
to Georgian Bay, whence the logs are
railed across Lake Huron to the Michi-
gan saw mills. Boyd did not cut any
timber on this limit. He held it until
last year untouched, when he sold it for
\$45,000 to Davis & Hay, of Toronto. Six
years brought him a profit of 400 per cent
or over \$380,000. Timber limits cost
little to hold, as useless when timber is
cut the dues are infinitesimal and there
are no taxes.

The Hon. Peter White of Pembroke,
Speaker of the Dominion House of Com-
mons, bought a limit of 133 square miles
in the Magnesian river, near Mattawa,
from David Ball fifteen years ago for \$75,
000. Until last year he cut steadily in it,
taking out from first to last probably
quarter of a million dollars worth of tim-
ber. Last year he sold this fairly well
cropped territory to the Hurdman firm, of
Ottawa, for another quarter of a million.

John R. Booth, President of the Canada
Atlantic and the Parry Sound railways, is
reported to be worth six to eight million
dollars in lumbering partly through
the appreciation in value of timber
limits.

Bought Cheap in Olden Days.

He has at Ottawa the largest lumber mill
in the world, employing twelve hundred
men. Take one specimen transaction of his
in timber limits. Seven years ago he
bought from Charles Smith, of Ottawa,
for \$67,000 a pine limit on the north shore
of Lake Superior. That limit is now held
at \$400,000.

Mr. G. P. Brophy, Government En-
gineer of the Ottawa River Works, was
standing it is said, in the rotunda of the
Russel Hotel in Ottawa, one day, some
eight years ago, when a business ac-
quaintance stepped up and offered to sell
him a small limit on the Upper Ottawa.

What's your price? said Mr. Brophy:
Twelve thousand dollars.

I will give you eight thousand.

Make it ten, said the seller.

Mr. Brophy is a keen, sharp business
man as well as competent engineer, and
no man in Canada has better chances of
sizing up speculative opportunities in
timber. But he could not, any more than
any one else did, calculate at the time
the money in timber limits. He de-
clined. Subsequently, the story goes, the
limit was offered to him at his own figure.

He again declined and had the pleasure
within the last year or two of seeing the
same limit change hands at \$86,000.

J. K. Wary, a prominent merchant and
Liberal, of Montreal, is stated to have

bought, four or five years ago, from the
Mercier Government of Quebec province
a timber limit on Lake Expans, among
the head waters of the Ottawa, paying it
in said some \$3 a mile.

Perley & Pattee, a big lumber firm of
Ottawa, recently dissolved, last year sold
to Arthur Hill & Pettee, of Saginaw,
Mich., a large limit on the Madawaska
for a sum in the neighborhood of half a
million dollars. Sixteen or eighteen years
before they bought it for \$2000, it is said.
These instances might be multiplied by
the dozen. They are sufficient to show
the extraordinary.

Advance in Timber Values.

consequent upon the rapid felling of the
pine forests. To an inexperienced eye
there may be hardly an evidence at first
glance of the disappearance of the pine.
The hard woods which the pine is
interspersed are usually left standing to
a considerable extent, and so are the
smaller pine, so that even a well cut
country will still look splendidly wooded.
No doubt the time will come when it will
be carefully re-cropped. But the com-
mercial value is largely gone, and with
it the natural desirability, for the cutting
of the pine greatly lessens the value of
the woods as vast reservoirs, holding the
snows in spring and the rains of summer
so as to feed steadily the innumerable
streams of the watersheds. Consequent-
ly spring floods and summer droughts for
the cleared lands in the valleys follow
close on the lumberman's axe. A certain
amount of attention has been aroused by
the rapid retirement of the pine. Some
political action has been taken. Bad as
the axe is, fire is worse. The Ontario
Government has recently attempted to
enforce strict precautions against fire and
it has also appropriated as a provincial
park, an enormous reserve near Lake
Nipissing thirteen hundred square miles,
of which nine hundred are pine timber
situated on one of the chief natural water-
sheds of the province. But a great deal
more than this is necessary if the Cana-
dian pine forests are not soon to disap-
pear like the tracts of Maine and New
York. Enlightened men here are urging
the establishment of regular systems of
arboriculture, such as prevail in several
of the chief countries of Europe, notably in
France. It is hoped also that the Quebec
Government will follow the lead of the
Ontario Government in establishing a
natural park on some of the main water
sheds.

HOOPER IS HOPEFUL.

Considers the Coroner's Jury's Verdict Very
Favorable.

JOLLETTE, Oct. 23.—The Hooper enquete
re-opened here at half-past two this
afternoon. The first witness called was
Toussaint Malo, step-father of the de-
ceased.

No stenographer has yet been secured
and the hearing of evidence is being con-
tinued in the same slow way. One of the
lawyers interested said this morning that
if the case proceeded like this, the en-
quete will last at least three weeks. The
fact that no poison was found by the anal-
yst has not daunted Mr. Cornellier, the
Crown Prosecutor, who declares that the
suspicious circumstances alluded to by
the coroner's jury in their verdict, must
be investigated here.

But on the other hand, the counsel for
the defence claim that this is a great
point in their favor, as one of the first
things to be established is that a crime
had really been committed.

Hooper received the result of the in-
quest by telegraph and expresses himself
as being satisfied with the verdict which
was as he expected. He is confident that
when his time comes he can explain
away all those suspicious circumstances.
Detective Carpenter has gone to Quebec
to secure the witnesses there.

Mr. C. A. Cornellier, Q. C., the Counsel
for the Crown in the Hooper case was born
at St. Elizabeth, near Jollette in 1857 and
is therefore quite a young man. A lead-
ing Conservative he has always taken
an active part in political campaigns
and was known as one of the best
speakers in the party. He is the son of
Hypolite Cornellier who was a
great friend and admirer of Sir Geo. E.
Cartier. He was educated at the College
at Jollette and graduated in 1875. He
studied law with Hon. F. G. Baby and
then with Chief Justice Lacombe. His first
political campaign was in 1877 against
Hon. W. Laurier, and the party was suc-
cessful in defeating the then Minister of
Inland Revenue. He was admitted to
the Bar, July 12, 1879. He went to St.
John and edited the Echo d'Yberville for
some time. In 1881, he came to Montreal
and practised law with Mr. Charles Cham-
pagne. In 1883 he defended Milloy,
charged with murder, and then became
the partner of the Hon. J. A. Guimet un-
til 1887. He attended sixteen criminal
terms here and defended Jacobs, con-
victed of manslaughter, and led the Crown
cases in the penitentiary revolt. Settling
in Jollette he became shortly after Crown
Counsel and led the leading cases, hav-
ing in one term obtained conviction in
every case tried. In 1889 he led the
smuggling cases below Quebec.

Down With High Prices For Electric Belts.

\$1.55, \$2.25, \$3.75; former prices \$5, \$7,
\$10. Quality remains the same—16 dif-
ferent styles; dry battery and acid belts
—mild or strong current. Less than half
the price of any other company and more
home testimonials than all the rest to-
gether. Full list free. Mention this
paper. W. T. BARKER & CO. Windsor, Ont.

CANADIAN CHEESE.

Considerable Increase in Value, Owing to
the Success at the World's Fair.

From the following correspondence it will
be seen that a considerable increase in value
in Canadian cheese has resulted from the
favorable reports given of it at the World's
Fair.

Prof. J. W. Robertson, Chicago.

Dear Sir—Would you kindly favor me with
replies to the following questions:

1st. What do you estimate as the advance
in the price of Quebec cheese as a result of
the success of the province of Quebec in the
cheese competition during the month of June?

2. What, in your opinion, is the aggregate
gain to the province of Quebec on the cheese
output of the present season?

An early reply will oblige,
Yours truly,

(Signed) John McIntosh, Jr.

Chicago, 16th October, 1896.

Hon. John McIntosh, Commissioner for Que-
bec to the World's Columbian Exposition,
Quebec.

Dear Sir,—In reply to your question, I
would say that it is my opinion that the in-
crease which has been awakened in the manu-
facture of fine cheese in the Province of Que-
bec, owing to and resulting from the success
which attended the exhibition of Canadian
cheese at Chicago in June, has resulted in an
improvement in the quality of the output of
the factories of that province.

A moderate estimate would put the increase
in the intrinsic value of the cheese, from the
stimulated attention devoted to this branch
of the dairy industry in the province of Que-
bec, at from 2 to 3 cent per pound on the
cheese manufactured in Quebec. The esti-
mate would represent a sum of over \$100,-
000 in money on the make of the present sea-
son, besides the gain in knowledge, prestige
and experience.

Yours truly,

(Signed) Jas. W. Robertson,
Dairy Commissioner.

By Cable and Wire.

QUEBEC, October 23.—The man Morency
convicted of shooting his wife was sen-
tenced to two years in the penitentiary.

HAMILTON, Ont., October 23.—The South
Wentworth, Conservative Association se-
lected James Wilson of Ancaster as their
candidate for the Provincial Legislature.

ALBANY, N. Y., October 23.—The stand-
ing committee of the diocese of Albany
has unanimously consented to the con-
secration of the Rev. Arthur C. A. Hall as
Bishop of Vermont.

PARIS, October 23.—The funeral of the
late Marshal McMahon took place yester-
day. Forty thousand troops attended
and the march past before hundreds of
thousands of people occupied two hours.

TORONTO, October 23.—Toronto's whole-
sale milkmen in future will sell milk to
retailers by weight. This plan was
adopted after a conference with Messrs
J. F. Wood and N. Clarke Wallace.

LONDON, October 23.—The mayor of
Sheffield has convened another meeting
of mayors for to-day to consider develop-
ments in the coal crisis and to discuss new
proposals having in view a settlement of
the miners' strike.

PARIS, October 23.—Early Saturday
morning an insane man named Willis
who when arrested said he was disgraced
with the lavish expenditure on the
Russians, while he was starving, fired
a revolver among the crowd at the Cercle
Militaire in which was Admiral Avelan.
No one was injured.

Are You Deaf.

Or do you suffer from noises in the head.
When send your address and I will send a
valuable treatise containing full particulars for
home cure which cost comparatively nothing.
A splendid work on deafness and the ear.
Address: PROF. G. CHASE, Orillia, Ont.—
138.

RIPANS TABULES.

RIPANS TABULES are com-
pounded from a prescription
used for years by well-known
physicians and endorsed by
leading medical authorities
everywhere. In the Tabules
the standard ingredients are
presented in a form that is
becoming the fashion with
modern physicians and modern
patients everywhere.

RIPANS TABULES act gently but
promptly upon the liver, stomach and
intestines; cure habitual constipation,
dispel colic, headaches and fevers.
One Tabule taken at the first symp-
toms of a return of indigestion, or
depression of spirits, will remove the
whole difficulty within an hour.

Persons in need of the Ripans Tab-
ules will find the gross package
most economical to buy. It is also
in convenient form to divide up
among friends. The above picture
represents a quarter gross box, sold
for 75 cents. A single bottle can be
had for 15 cents.

RIPANS CHEMICAL CO.,
10 SPRUCE ST., NEW YORK.
