COURTING CANADA.

Uncle Sam Drops a Hint That Reciprocal Trade Relations Are Now in Order.

Sir Louis Davies Outlines the Scope of Commission to Washington—Alien Labor Law.

Ottawa, Nov. 5.—Sir Louis Davies, who will be in Washington next week in company with Premier Laurier to attend the Behring Sea sealing conference, gave our correspondent this morning some light upon the full scope of the commission. He says:

"I have lately been informed by a party in the confidence of the American administration that they are willing to discuss reciprocity on some lines. That would be an immense advantage to some of our industries, especially to coal in Cape Breton and Vancouver Island, to lumbermen, to pulp dealers, and possibly to those who handle some of our natural products. If attended to. On the other hand, it does not seem apparent what American natural products we especially want. There has been something official before our government of the desire for Americans to enter into reciprocity negotiations. This information only comes from a side quarter, and, remember, our trip to Washington was arranged before there was any such intimation, and is for quite another purpose. While there, if we are approached on the reciprocity question, we are willing to discuss the same."

"Another member of the government thinks the dispatch from Washington published yesterday may be based on reliable information and understands there is strong influence coming from the east to close negotiations. He is of the opinion the alien labor question may also be discussed between both governments."

"Crow, M.P., of Essex, who was here yesterday, states to your correspondent that since the Canadian alien labor law was enacted on the statute books there has never been the least approach at trouble from the American officials, who formerly persecuted Canadians at Detroit whenever an opportunity was found."

"The government is said to have dealt a blow to a large smuggling interest in St. Lawrence by the recent seizure. It is stated on the highest authority that syndicate may be dragged into the case whose operations have been a matter of report for years."

"At a meeting of the cabinet yesterday afternoon an order-in-council was passed giving Japan and the Netherlands the benefit of the reciprocal clause of the Canadian tariff. This means that goods entering Canada from these countries will be admitted at a reduction of one-eighth per cent. on the ordinary tariff for the first year, and one-fourth per cent. during the second year. The reduction to Japan and the Netherlands will date from yesterday."

"John Francis Watters, secretary of the Civil Service Board of Examiners, has resigned from that board, having been succeeded by Wm. Foran, second class clerk. Watters retains his clerkship in the department."

"The cabinet yesterday attended a meeting in the Normal School building last evening the Victorian Order of Nurses was launched before the public in an admirable address on nursing by Dr. Worcester, of the Waltham, Mass., School of Trained Nurses. There were speeches in favor of the scheme by Dr. Sir Wm. Hingston, Hon. Dr. Borden and others. Actual operations are to be commenced in the chief cities this morning."

ZELAYA CONGRATULATED.
Mangua, Nicaragua, Nov. 4.—Tuesday being the anniversary of the birthday of President Zelaya, he was the recipient of numerous congratulations. But the pleasure of the event was changed to gloom in the evening by the sudden death of his brother, Senor Francisco Zelaya, from paralysis. His brother was a small citizen. Hundreds attended the interment of the remains, the national band of musicians and a regiment of soldiers forming part of the funeral cortege.

New York, Nov. 4.—The reorganization committee of the Union Pacific, Denver & Gulf, issued a notice to-day that a majority of the consolidated mortgage bonds and stocks of the company has been deposited under the plan of reorganization and that certificates of deposit on the Central Trust Company have been listed on the New York exchange. The committee extended the time for depositing securities until November 15th. The Oregon Improvement Company has called the third instalment of the assessment of \$25 on each share consolidated bond, \$2.50 on each share of stock, payable on or before November 15th, at the Manhattan Trust Company, or the old Colony Trust Company of Boston.

CANADA'S POSITION.

Sir Louis Davies Explains His Attitude on the Sealing Conference.

Ottawa, Nov. 6.—Sir Louis Davies was asked this morning by your correspondent for a statement upon the Washington press dispatch published to-day, to the effect that a new phase will be placed upon the sealing conference in Washington by his presence and that of the first minister. He said: "There is not the least foundation for the story. Nothing could be further from the facts. When the sealing conference was arranged during my stay in London, I promised to be at Washington. It will be the place of the Dominion ministers to possibly give questions to the experts, but not otherwise to take part. On my return I will submit the case to my colleagues, and we will be intelligently able to decide whether any change in the existing regulations is desirable."

PORTLAND'S OFFER.

Will Undertake to Relieve the Distress Among the Miners in the Yukon District.

Asks the Co-Operation of the United States War Department in the Matter.

Portland, Ore., Nov. 5.—President Mason, of the Portland chamber of commerce, has sent the following telegram to Secretary of War Alger at Washington:

"Starvation and death confronts the unfortunate miners in the Yukon through the failure of the trading companies to get supplies into the interior before the close of navigation on the Yukon. The chamber of commerce of Portland has undertaken to relieve the distress which must appear before the ice fetters of the Yukon release the supply steamer, and for this purpose will donate provisions and supplies. The chamber of commerce asks the co-operation of the war department in transporting relief from the city of Portland to the most accessible point on the Alaskan coast, from whence the relief expedition may carry it to the imprisoned gold miners. Our duty to suffering humanity demands any sacrifice that may be necessary to accomplish this end. Will you co-operate with us in this undertaking?"

"Senator Wolcott's Views."
European Opinion Divided As to the Rights of the Cuban Controversy.

New York, Nov. 6.—Senator Wolcott refused to-day to make any further statement as to his bimetallic mission, but speaking on the Cuban question he said: "As far as the embargo with Spain is concerned, I cannot speak with much authority, as I do not know what has happened in the last ten days. In Europe the opinion is divided as to the rights of the controversy."

"In Great Britain there seems to be less popular interest in the question, though some of the papers now and then give utterance to rabidly anti-American views, while others are in our favor. I am not certain how the people in Germany and eastern Europe feel in the matter, but I do not believe there is a sentiment which would support their governments should they wish to interfere."

RESIGNATIONS TENDERED.
Lima (via Galveston, Tex.), Nov. 4.—The premier and his colleagues in the cabinet insist upon the acceptance of their resignations, tendered last week on account of a vote of censure which congress proposes to pass upon the government because of its failure to promulgate various measures enacted by the special session of congress last year. THREE MEN FLOGGED.

Prisoners in Portage la Prairie Get a Taste of the "Cat."

Portage la Prairie, Nov. 6.—Three men were flogged in jail this morning at 8:30. Their names are Geo. Cox, D. F. Cumming and Albert Whittom. They were sentenced on the 1st of June to six months and seven lashes for assault on a Galician girl near Dauphin this spring. They will be released the 1st of December. The sentence was carried out in the presence of Sheriff McLean, Deputy Sheriff Home, Dr. Lumdy and representatives of the press. A masked man did the flogging after each man in turn had been secured to the triangle. None made any outcry, as the punishment was administered humanely. No permanent mark was left on their backs, which were reddened somewhat by the strokes of the "cat." Two more men in the jail are to be flogged before their sentence expires.

A SHOCKING CRIME

Four Children Murdered by a Tramp at Rawdon, a Village Near Joliette.

Unexampled Brutality Displayed by a Fiend Masking in Human Form.

Montreal, Nov. 5.—One of the most horrible crimes in the history of this province is reported from Rawdon, a village in the woods back of Joliette, late this afternoon. Details are not to hand, but it is known that four children of a man named McNulty were murdered in a cold-blooded fashion.

Suspicion is attached to a tramp named Murphy. It is supposed that he found a girl of eighteen alone in the house and attempted to assault her. The other children, who were all younger, came and the brute killed them all. The father and mother were absent in St. Julien at the time the crime was perpetrated.

The whole country is worked up over the murder, and officers of the law have been sent to the scene from here. Toronto, Nov. 5.—Charles White, a Grand Trunk brakeman, of Lindsay, was killed upon the trip this morning from Toronto to Niagara Falls. He was killed by the train which ran over him as he was crossing the bridge over the line north of Giescome portage by way of Dease lake, or as may be found most suitable.

The Queen and Mr. Cleveland—Missionaries Murdered in China.

London, Nov. 5.—The Chronicle says that the Queen has accepted in the most graceful language of the Queen's alleged congratulations to ex-President Cleveland upon the birth of his son, and that the report that she sent such congratulations was untrue. It investigated the matter, and as a result has obtained a personal denial that Mr. Cleveland received a message from the Queen.

Berlin, Nov. 5.—A dispatch from Constantinople to Frankfurt Zeitung says the porte under a threat from the Bulgarian government that unless the promised berats to the Bulgarian bishops of Macedonia be granted before 10 o'clock a.m. yesterday Bulgaria would declare independence, finally acceded to the demands and granted the berats. LIBERTY OR DEATH!

Chief of the Cuban Army of Liberation Says the Insurgents Will Fight for Independence.

General Weyler Likely to Be Tried by Court Martial for His Treasonable Utterances.

New York, Nov. 5.—The Herald prints the following letter from Maxim G. Gomez, general-in-chief of the Cuban army of liberation, dated at his camp in Sancti Spiritus:

"The enemies of Cuba have circulated in the United States a rumor that I am disposed to accept autonomy as a basis of the settlement of the situation of the present war. The constitution of Cuba absolutely establishes in its articles that peace will be negotiated upon the basis of the absolute independence of Cuba. It is to obtain independence that we have been fighting for two years, and we will continue to fight until the victory is ours."

"We will fight for absolute independence, as stated in the manifesto issued at Monte Cristi, as also was later set down in our constitution, and as we are daily confirming it by the shedding of our blood upon the battlefields. Salvador Cisneros, a former president of the republic of Cuba, writes in the Herald:

"Independence or death has been and is our motto. I would rather see my beloved country disappear in heaps of ashes than accept any concessions, no matter how ample, unless they carry with them the absolute independence of Cuba. To obtain this many of Cuba's best sons have given up their lives; to obtain this many more of their sons are daily shedding their blood, which is absorbed by the plants of our soil, by the breath of the air we inhale."

Madrid, Nov. 5.—The Spanish government, as a result of the deliberations of the ministers over the utterances of General Weyler, the former captain general of Cuba, have come to a decision to try him by court martial, no matter where he lands, if he confirms the accuracy of the press reports of his utterances. The Spanish officers in all the ports of the Spanish kingdom have been instructed to demand of General Weyler the moment he can be communicated with, the exact terms of the speech which he delivered in reply to the manifestation in Havana upon the occasion of his embarkation for Spain on board a Spanish steamer. General Weyler turned over his command in Cuba on Saturday last to his successor, Marshal Blanco, and then sailed to Spain on board the Montserrat, but the steamer has apparently become disabled, for word has reached Havana that the Montserrat has arrived at Gibraltar, on the northern coast of the province of Santiago de Cuba. It was added that her engines were disabled, but that the time for the first message was sent out was expected to be long enough to continue her voyage to Spain via Porto Rico on Wednesday last. From other sources, however, it is said that the Montserrat will be compelled to return to Havana, in which case it is unlikely there will be interesting developments.
